Introduction

This document provides information on the various interchange fee programs for **Brazil** domestic transactions and the various edit criteria that are required for each of the fee programs included in this guide.

Note: This document is a supplement of the *Visa Core Rules and Visa Product and Service Rules*. In the event of any conflict between any content in this document, any document referenced herein, any exhibit to this document, or any communications concerning this document, and any content in the *Visa Core Rules and Visa Product and Service Rules*, the *Visa Core Rules and Visa Product and Service Rules* shall govern and control.

Audience

The guide is intended for business, technical and operations staff.

Disclaimers

The guide is intended for Visa Inc. customers business, technical and operations staff.

- Rates are provided for reference only. While Visa will use its best efforts to ensure that this guide is kept up to date, Visa does not guarantee that it is so. In the event of any discrepancy between these rates and rates that are deemed official by Visa, the rates that are deemed official will apply.
- These rates are not exhaustive and there may be other rates in the system that may apply.
- These rates are applicable subject to the transactions fulfilling certain qualification criteria as highlighted in this document.
- Clients should check their settlement reports to ensure that they are receiving the rates expected.
- Changes are periodically added to the information herein: These changes will be incorporated in new editions of the publication.
- To the extent permitted by law, Visa should not be held liable for any loss or damage (including special, indirect and consequential loss or damage) in connection with clients' use of this guide.

Important: This publication could include technical inaccuracies or typographical errors; any errors/inaccuracies will be corrected when identified.

Summary of Changes

Since the last version of the Brazil Domestic IRF Guide v 2.7, effective November 2024, was published updates have occurred that are contained in the document below.

Summary of Changes

Section	Status	Description of Change
All	Updated	Wording and format updates throughout the document.
3.2 and 3.3	Updated	Added Meal and Food Prepaid fee program as per Visa Business News article A114826 titled <i>Updates to the Meal and Food Prepaid Program in Brazil</i> dated 9 January 2025.
3.2	Updated	Updates have been made in relation to the following Visa Business News: - article A115027 titled <i>Visa Infinite Privilege Will Launch in Brazil</i> dated 10 April 2025 - article A115006 titled <i>Updates to Client-to-Client Fees for Toll and Bill Payment Credit Account Funding Transactions in Brazil</i> dated 13 February 2025
3.3	Updated	Updated rates and fee descriptors for Standard Fee Program per Visa Business News article A115164 titled <i>Updated Interchange Rate for Select Domestic Prepaid Transactions in Brazil</i> dated 3 April 2025
4.0	Updated	Updated Global Loyalty Statement Credits as per article 3.5, <i>Changes to Support Visa-Originated Loyalty Original Credit</i> in the <i>October 2024 VisaNet Business Enhancements Global Technical Letter</i>
5.2	Updated	Correction to add MCC 4111 to Emerging Markets 1 Fee Program Edit Criteria (table 5-25)

1 Settlement Jurisdiction

1.1 National Net Settlement Service (NNSS)

National Net Settlement (NNSS) enables a country to determine specific interchange reimbursement fee rates (IRF rates) to be applied to domestic transactions. National Net settlement occurs when:

- Merchant, acquirer and issuer are in the same country.
- Issuer and acquirer participate in NNSS.
- The transaction currency is in the local currency of the NNSS.

Important:

Visa recommends that the Settlement Flag (TCR 0, position 150) be populated with the value of '9' for all original transactions. The submitted value of '9' results in VisaNet checking against the configuration for the issuer and acquirer for NNSS participation and determines the settlement jurisdiction.

If the transaction meets NNSS qualification, the settlement flag will be converted to '8' by Visa prior to sending the transaction to the issuer. NNSS IRF for the country will then apply.

The settlement flag is a retained and returned field, so the value of '8' in the original transaction should be carried in all subsequent transactions such as dispute financials.

National Net Settlement Key Terms

- **Region** the numeric code assigned for the geographical jurisdiction. Region code 05 is assigned to LAC.
- **Zone** is the numeric code assigned for a specific country / geographical jurisdiction within a region. Zone code 004 is assigned to **Brazil**.
- **Settlement Service ID (SSID)** is the numeric code assigned to a specific Settlement Service. The following SSID are assigned to **Brazil** National Net Settlement Service.
 - **0014** – Brazil National Net
 - **0073** - Brazil Cash Disbursement National Net
 - **0124** – Brazil Redecard National Net
 - **0125** – Brazil CIP National Net
 - **0127** – Brazil Cielo National Net

Table 1–1 National Net Settlement Key Elements

Region	05
Zone	004
Settlement Service ID (SSID)	0014 / 0073 / 0124 / 0125 / 0127

1.2 International Settlement Service (ISS)

International settlement can be used to settle domestic or international transactions.

Domestic transactions settle via international settlement if the National Net Settlement Service (NNSS) for a country does not exist or is not in use, if either the issuer or acquirer is not participating in the NNSS, if the acquirer sends a settlement flag value of '0' instead of '9', or if the transaction does not fulfil the rules and requirements for NNSS settlement.

If the settlement flag value of a transaction is submitted as '9', and the transaction settles via International settlement, the settlement flag value will be converted to '0' by Visa (to denote international settlement) prior to sending to the Issuer.

The settlement flag is a retained and returned field, so the value of '0' in the original transaction should be carried in all subsequent transactions such as dispute financials.

International Settlement Key Terms

- **Region** is the numeric code assigned for the geographical jurisdiction. Region code 05 is assigned to LAC.
- **Zone** is the numeric code assigned for a specific country / geographical jurisdiction within a region. Zone code 004 is assigned to **Brazil**.
- **Settlement Service ID (SSID)** is the numeric code assigned to a specific Settlement Service. SSID 0001 is assigned for International Settlement.

Table 1–2 International Settlement

Region	05
Zone	004
Settlement Service ID (SSID)	0001

2 Interchange Processing

Interchange Reimbursement Fee (IRF) is a client-to-client fee that is used as a balancing mechanism between financial institutions involved in a transaction to grow the payment system for the benefit of all participants.

IRF is a transfer fee between issuers and acquirers used to maximize the growth of the payment network for the benefit of all participants. Generally, the acquirer reimburses the issuer for point-of-sale (POS) original transactions whereas the issuer reimburses the acquirer for manual cash disbursement and ATM original transactions. For reversal transaction the interchange amount is also reversed.

Interchange reimbursement fee could be either of the following:

- A transfer fee between Acquirers and Issuers in the Clearing and Settlement of an Interchange Transaction
- A fee that an Issuer pays to an Acquirer for making a Cash Disbursement to the Issuer's card and/or payment credential user.

Acquirers independently set their respective charges for their merchant customers through individual agreements with each merchant, based on considerations they deem appropriate.

This section explains how interchange reimbursement fee assessment is determined and how fees flow between clients.

2.1 Interchange General Concepts

Interchange Fee Schedules

Interchange Fee Schedules define the order in which interchange reimbursement fee (IRF) programs are assessed. The different transaction types (i.e. purchases, ATM withdrawals, etc.) are grouped according to their business purpose.

Fee Program

For the purpose of this guide, the term “program” is used to define the set of transaction characteristics that a transaction must meet to be qualified for an interchange fee category. Qualification for a specific program typically correlates directly to the interchange rate available for that program. However, in certain circumstances, several programs can be used to qualify transactions for a particular rate.

Fee Rate

Interchange rates can be either a unit rate, a percentage rate or a combination of both. When the rate is a unit rate, this guide shows the currency code [e.g., USD (840) for the rate]. When it is percentage rate, this guide will have percentage (%) symbol next to the rate.

Interchange Reimbursement Fee (IRF) / Interchange Fee Amount / Client-to-Client Fee

Interchange Reimbursement Fee (IRF) is a client-to-client transfer fee assessed on the entire transaction amount submitted by the acquirer for clearing & settlement. Refer to Interchange Processing section for more details.

Dispute Process

It is a liability- based dispute resolution process leveraging original transaction data and Visa Resolve Online (VROL). Please note that the interchange and/or client-to-client fee amount applied to each dispute transaction will be the same amount assessed to the original transaction when the full transaction amount is disputed. On partially disputed amounts, the interchange or client-to-client fee amount applied will be proportionally adjusted to the amount being disputed.

Purchase Transaction

The term purchase is used to indicate a no cash disbursement POS transaction including but not limited to: regular purchase, bill payment, debt repayment, recurring payment, quasi-cash, and installment transactions.

Fee Descriptor

Fee descriptors correspond to each interchange fee program in each settlement service and appear in the Visa Settlement Service (VSS) reports for interchange fee reconciliation. (VSS130, VSS 130M & VSS 135). The fee descriptors provide interchange fee level volumes on daily, monthly, and month to date reimbursement fee reports.

Merchant Verification Value (MVV)

Merchant Verification Value (MVV) is a unique 10-character alphanumeric identifier. The first six positions of the MVV are assigned by Visa to merchants/originators, the last four positions are defined by the merchant/originator in conjunction with the acquirer. The last four positions must be always populated and may be zero-filled.

MVV is assigned by Visa for a variety of processing purposes. MVV main use by Visa is to determine a merchant's eligibility for specific interchange fee programs.

MVV is unique to a merchant/originator, not a merchant or originator/ acquirer relationship. An MVV may be used by multiple acquirers for the same merchant/originator. The MVV is mandated to be included in all full financial, V.I.P., and BASE II messages from merchants/originators that have been assigned an MVV in specific scenarios (please refer to current MVV Uses).

Visa assigns one MVV per merchant/originator at the parent (holding company) level, except in some circumstances determined on a case-by-case basis.

Product

Products are defined by any announced Account Funding Source (AFS) and Product ID (PID) and, in some cases, Product Subtype combination. Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products in each market.

- **AFS:** Represents the default funding source for the card. Valid AFS values are:
 - **C** (Credit) - Identifies any card that may be used repeatedly to borrow money or buy products and services on credit.
 - **H** (Charge) - Identifies a card used for making payments where the balance must be paid in full when the statement is received.
 - **D** (Debit) - Identifies a card, which allows customers to access their funds immediately, electronically. Unlike a credit card, a debit card does not have any float balance.
 - **R** (Deferred Debit) - Describes a funding source where when a purchase is made, the transaction merely places an authorization hold on the customer's account; funds are not actually withdrawn until the transaction is reconciled and hard-posted to the customer's account, usually at the end of the month.
 - **P** (Prepaid) - Identifies a card issued by a financial institution that is preloaded with funds. Instead of buying with borrowed funds (through credit), purchases are made with funds that have already been paid.
- **Account Funding Source Subtype:** Indicates whether a prepaid account range is 'Reloadable' or 'Non-Reloadable'. Available values are:
 - **R** (Reloadable) Prepaid cards that can have funds added to them after they have been issued.
 - **N** (Non-Reloadable) - Prepaid cards that cannot have funds added to them after they have been issued.
- **PID:** It is the main product attribute and is defined at the account range or card level (for ALP enabled products). PID is also used to drive unique processing, billing, interchange and more.

Table 2–1 List of Visa Product IDs (PIDs) currently used for products in Brazil

Product ID (PID)	Global Product ID (PID) Name	Product ID (PID)	Global Product ID (PID) Name
F^	Visa Classic	S1	Visa Purchasing with Fleet
P^	Visa Gold	S2	Visa Government Purchasing
N^	Visa Platinum	S4	Visa Commercial Loan/Visa Agro
I^	Visa Infinite	S5	Visa Commercial Transport EBT/Visa Cargo
I1	Visa Infinite Privilege	S6	Visa Business Loan
C^	Visa Signature	G^	Visa Business
L^	Visa Electron	G1	Visa Signature Business
J3	Visa Workplace Benefits	G3	Visa Platinum Business
K^	Visa Corporate T&E	G4	Visa Infinite Business
K1	Government Corporate	X^	Visa Commercial Choice Travel
S^	Visa Purchasing		

- **Product Subtype:** Product subtype is an optional product attribute that may be defined at the account range level only. It enables product differentiation of a specific product ID. It could be used for specialized processing, cardholder benefits and services (i.e., GCAS, Concierge), interchange, etc.

2.2 Interchange Determination

Below are the main steps followed to determine which interchange program will be used to assess interchange reimbursement fee (IRF) to a transaction.

Note: It should be noted the same process and edit rules are followed irrespective of how the transaction enters VisaNet, i.e. via BASEII and V.I.P. format.

1. Determine transaction jurisdiction (Domestic, Intraregional or Interregional)
 - a. For domestic jurisdiction, whether the transaction qualifies for NNSS
2. Select interchange fee schedule
3. The card usage (funding source type) is determined - credit versus debit versus prepaid
4. The product assigned to the account range or card level (for ALP products) is identified

Once the above steps are completed, VisaNet checks the transaction elements against the edits for the first fee program within the applicable fee schedule; if the transaction does not meet the edit criteria of the first program, it moves to the next one until a match is found.

Assessed interchange totals, by business mode and fee descriptors, are listed in the VSS-130 and VSS-130M Reimbursement Fee Reports. The interchange reimbursement fee flow is listed in the following table.

Table 2-2 Interchange Flow by Transaction Type

Transaction	Message Class	Description	Interchange Fee Paid by
Sales Draft (Purchase)	Original	A product or service is bought on a Visa account	Acquirer
Credit Voucher ¹	Non-Original	A purchase return or price adjustment is credited to a Visa account	Issuer
Cash Disbursement	Original	Cash is disbursed from an ATM or bank teller through a Visa or Plus card	Issuer
Reversal, Sales Draft	Original	A purchase is cancelled by the acquirer, usually due to a processing error	Issuer
Reversal, Credit Voucher	Non-Original	A credit voucher is cancelled	Acquirer
Reversal, Cash Disbursement	Original	A cash disbursement submission is cancelled	Acquirer
Dispute Financial, Sales Draft	Non-Original	Used when a dispute requires reallocation of funds	Issuer

Transaction	Message Class	Description	Interchange Fee Paid by
Dispute Financial, Credit Voucher	Non-Original	Used when a dispute requires reallocation of funds	Acquirer
Dispute Financial, Cash Disbursement	Non-Original	Used when a dispute requires reallocation of funds	Acquirer
Dispute Financial Reversal, Sales Draft	Non-Original	A dispute requires reallocation of funds, or the reversal of a duplicate or erroneous dispute financial transaction	Acquirer
Dispute Financial Reversal, Credit Voucher	Non-Original	A dispute requires reallocation of funds, or the reversal of a duplicate or erroneous dispute financial transaction	Issuer
Dispute Financial Reversal, Cash Disbursement	Non-Original	A dispute requires reallocation of funds, or the reversal of a duplicate or erroneous dispute financial transaction	Issuer
Dispute Response Financial, Sales Draft	Non-Original	Used when a dispute requires reallocation of funds	Acquirer
Dispute Response Financial, Credit Voucher	Non-Original	Used when a dispute requires reallocation of funds	Issuer
Dispute Response Financial, Cash Disbursement	Non-Original	Used when a dispute requires reallocation of funds	Issuer
Dispute Response Financial Reversal, Sales Draft	Non-Original	A dispute requires reallocation of funds, or the reversal of a duplicate or erroneous dispute financial transaction	Issuer
Dispute Response Financial Reversal, Credit Voucher	Non-Original	A dispute requires reallocation of funds, or the reversal of a duplicate or erroneous dispute financial transaction	Acquirer
Dispute Response Financial Reversal, Cash Disbursement	Non-Original	A dispute requires reallocation of funds, or the reversal of a duplicate or erroneous dispute financial transaction	Acquirer

¹ For Original Credit transactions, the interchange fee is paid by the originator to the recipient bank.

2.3 Fee Amount in BASE II Draft Data Fields

This field will provide the calculated fee amount in each transaction to assist in the reconciliation process to determine the interchange fee amounts at the transaction level.

BASE II uses existing fields in Draft Data record formats to carry the interchange reimbursement fee amount that is applied by BASE II for each domestic and international transaction. These fields are carried in purchase, credit voucher/merchandise return, cash disbursement, original credit, account funding, and request for copy transactions.

- **Interchange fee amount:** The interchange reimbursement fee amount assessed by BASE II and defined in the member's settlement currency
- **Interchange fee sign:** The indicator that will specify if the interchange fee amount is a debit or credit to the receiving member

The Fee Amount positions 92-107 is defined in the Draft Data TCR 5 record.

Note: These data fields are not supported in V.I.P. Full Financial online message formats.

The following table shows the format and edit criteria for the fee data that will be included in the TCR 5

Table 2-3 Fee Amount in BASE II Draft Data TCR 5—Payment Service Data

Field Name	Position	Length	Format	Edit Criteria
Interchange Fee Amount	92-106	15	UN	This field will specify the interchange fee amount calculated by Visa for this transaction. The field is right justified, with six decimals implied. Outgoing: This field must contain zeros. This field will be populated by the VIC. Incoming: This field will contain the interchange fee amount assessed on this transaction by Visa.
Interchange Fee Sign	107	1	AN	This field will specify if the interchange fee amount is a credit or debit for the receiving Institution. Valid values are: • C = Credit • D = Debit Outgoing: This field must contain spaces. The VIC will insert the valid value.
AN=Alphanumeric, UN = Unpacked numeric				

BASE II will include fee amounts in the reclassification advices that are sent to Acquirers when original Draft Data transactions are downgraded. The following table shows the format and description of the TC 04—Reclassification Advice, TCR 9.

Table 2–4 BASE II TC 04, TCR 9—Reclassification Advice Format

Field Name	Position	Length	Format	Edit Criteria
Interchange Fee Amount	125–139	15	UN	This field will specify the interchange fee amount calculated by Visa for this transaction. The field is right-justified, with six decimals implied.
Interchange Fee Sign	140	1	AN	This field will specify if the interchange fee amount is a credit or debit for the receiving Institution.
<i>AN=Alphanumeric, UN = Unpacked numeric</i>				

2.4 Fee Amount for V.I.P. Full financial Clients

Assessed interchange fees can be found in SMS Raw Data records and SMS Transaction Detail Reports as per [Table 2-5](#) and [Table 2-6](#).

Table 2-5 SMS Raw Data Records

SMS Raw Data Version	Field Name	Record Type	Position
Version 2.2	Reimbursement Fee	V22261	7-21
	Reimbursement Fee Debit/Credit Indicator	V22261	22
Version 2.3	Reimbursement Fee	V23210	7-21
	Reimbursement Fee Debit/Credit Indicator	V23210	22

Table 2-6 Transaction Detail Reports-Line 5 Interchange Reimbursement Fee

Data Line Field	Contents
FEE JURIS	The jurisdiction of the IRF associated with the transaction.
ROUTING	The transaction routing which helps determine the IRF.
FEE LEVEL	The name of the IRF associated with the transaction.
FPI	Reimbursement fee assessed to the transaction

2.5 Merchant Verification Value (MVV)

As participation criteria for certain domestic Interchange Reimbursement Fee programs, Visa uses a Merchant Verification Value (MVV). Acquirers with merchants that are eligible for participation in such programs are assigned a unique MVV by Visa. The MVV must be submitted in an original or reversal transaction to qualify for particular incentive programs.

The Merchant Verification Value (MVV) is an identifier that will be used by Visa to designate merchants that qualify for the Member-Supplied Interchange (MSI) program, Visa Partner Program (VPP) and Visa Direct Strategic Fee Program.

Visa will provide an MVV enabled for the applicable program to the acquirers of each qualifying merchant in the notice of qualification. This MVV must be submitted by the acquirer (on each qualifying transaction) to allow the transactions of their qualifying merchants to be included in the Strategic Merchant Fee Program.

In addition, Acquirers of merchants that are assigned an MVV are required to submit clearing transactions from designated acquiring BINs.

Assigned MVVs will be valid for Member-Supplied Interchange (MSI) program, Visa Partner Program (VPP) and Strategic Merchant Fee Program as long as the merchant remains qualified for the applicable program(s). Should a merchant become disqualified, the assigned MVV will no longer be eligible for these programs' rates; however, the same MVV will be reactivated if the merchant subsequently requalifies.

Note:

- MVV processing rules do not apply to TC x7 transactions or V.I.P. Full Financial cash disbursement messages.
- Acquirers are prohibited from submitting an MVV for transactions that do not pertain to the applicable qualifying merchant.

2.5.1 BASE II and MVV

Table 2–7 Merchant Verification Value in Draft Data, TCR 5—Payment Service Data

Field Name	Position	Length	Format	Content	Description
Merchant Verification Value	82–91	10	AN	Valid values are: Spaces, A–F, 0–9	The content of positions 82–91 will be used by Visa to determine a merchant’s eligibility to participate in an MVV-based Fee Program. The first six positions of the MVV will be assigned to participating merchants by Visa. The last four positions will be defined by the merchant in conjunction with the acquirer. If not defined, four zeroes are default values. Acquirers must include the MVV in BASE II clearing transactions to qualify for an MVV-based Fee program.
AN=Alphanumeric					

The following table lists the BASE II validation edits for the MVV field.

Table 2–8 BASE II Validation Edits for Merchant Verification Value (MVV)

Condition	Processing Rule
The submitted MVV contains non-alphanumeric values or doesn’t meet the field format	The transaction will be: - Rejected by the Edit Package with existing reject code V1086 (Merchant verification value (MVV) must be all spaces or each position in the MVV field must be A–F or 0–9. MVV is: XXXXXXXXXXXX) - Returned by BASE II with existing return reason code 4E (Invalid MVV).
MVV in the domestic transaction does not match the MVV assigned by Visa for an MVV-based Fee Program but meets field format	BASE II will ignore the MVV in the transaction and process the transaction as if an MVV-based Program Rate was not requested.
MVV in the domestic transaction matches the MVV assigned by Visa for an MVV-based Fee Program, but the acquiring identifier does not match	Visa will ignore the MVV in the transaction and process the transaction as if the MVV-based fee program was not requested.
The submitted MVV and acquiring identifier in the domestic transaction match the MVV and designated acquiring identifier combination assigned for an MVV-based Fee Program	Visa will validate the MVV and acquiring identifier combination and MVV-based fee program processing rules. Qualified transactions will be eligible for the MVV-based fee program if the fee edit criteria is met.

Important

Transactions that fail the MVV edit will not be eligible for the MVV-based Fee Program, and will be processed according to the other attributes in the transaction

2.5.2 V.I.P. Full Financial Messages and MVV

Table 2–9 Field 62.20—Merchant Verification Value

Format	Value	Description
5 bytes, 4-bit BCD	Valid values are: A–F, 0–9	Field 62.20 will be used by Visa to determine a merchant's eligibility to participate in an MVV-base Fee Program. The MVV will be assigned to participating merchants by Visa. The first six positions of the MVV will be assigned to participating merchants by Visa. The last four positions are defined by the merchant in conjunction with the acquirer and can be used to differentiate lines of business, subsidiaries, and geographic locations. The last four positions must always be populated and may be zero-filled. Acquirers must include the MVV in V.I.P. full financial transactions to qualify for the MVV-based Fee Program
<i>AN=Alphanumeric, BCD=Unsigned packed</i>		

Transactions that fail the MVV edit will not be eligible for the MVV-based Fee Program and will be processed according to the attributes of the transaction.

The following table shows the processing rules that will be applied to V.I.P. Full Financial transactions that are submitted with an MVV.

Table 2–10 V.I.P. Validation Edits for the Merchant Verification Value (MVV)

Condition	Processing Rule
The submitted MVV contains non-alphanumeric values or doesn't meet the field format	The transaction will be rejected by V.I.P. with reject code 0720 – Invalid MVV value.
MVV in the domestic transaction does not match the MVV assigned by Visa for an MVV-based Fee Program but meets field format	V.I.P. will drop the MVV in the transaction and process the transactions as if an MVV-based Program Rate was not requested. The MVV will not be returned in the response.
MVV in the domestic transaction matches the MVV assigned by Visa for an MVV-based Fee Program, but the acquiring identifier does not match	Visa will ignore the MVV in the transaction and process the transaction as if the MVV-based fee program was not requested.
The submitted MVV and acquiring identifier in the domestic transaction match the MVV and designated acquiring identifier combination assigned for an MVV-based Fee Program	Visa will validate the MVV and acquiring identifier combination and MVV-based fee program processing rules. Qualified transactions will be eligible for the MVV-based fee program if the fee edit criteria is met.

Important

Transactions that fail the MVV edit will not be eligible for the MVV-based Fee Program, and will be processed according to the attributes of the transaction

3 Interchange Fee Schedules

Brazil domestic interchange fee programs comprise the following fee hierarchies.

Table 3–1 Brazil existing domestic interchange fee schedule

Interchange Fee Schedule	National Net Settlement	International Settlement
Global Programs	Y	Y
Point-of-Sale (POS) ¹	Y	Y
Cash Disbursement ²	Y	N
ATM Non-Financials ³	Y	Y
Visa Direct Strategic Fee Program	Y	Y
Original Credit	Y	N
Account Funding	Y	N
¹ Includes purchases and credit vouchers/merchandise returns ² Includes Manual Cash, ATM Withdrawals and Shared Deposits. Some transactions might be not applicable for all listed settlement services ³ Includes ATM Balance Inquiry, ATM Decline, ATM Transfer, ATM Mini Statements, PIN Management. Some transactions might be not applicable for all listed settlement services		

Brazil domestic interchange fee programs are applicable to Visa branded and Plus products – product eligibility varies based on program.

3.1 Global Programs

A Global Program is a program that applies to specific product(s), service(s) and/or transactions. The program applies to all jurisdictions and settlement services, the same fee program criteria, descriptor and rate is assessed to all applicable transactions.

The following existing Global Programs apply to Brazil domestic transactions settling under NNSS or as domestic internationally settled

- Global Loyalty Statement Credits
- Global B2B Virtual Payments Registered Program
- Global B2B Virtual Payments Fee Program

3.1.1 Global Loyalty Statement Credits Fee Program

Visa Loyalty Services provides participating issuers, merchants, and third parties with marketing and loyalty programs that tie rewards, discounts, and other offers to the use of a Visa payment product. Cardholders can receive the fulfillment of these offers via statement credits. Visa Loyalty Services monitors VisaNet-settled transactions to identify when a promotion requirement has been met by an eligible cardholder.

This fee program doesn't impact acquirers. Loyalty Statement Credit transactions are Visa-generated transactions.

Settlement	National Net and Domestic – International Settled
Account Funding Source (PID)	Any applicable Visa branded product (AFS/Product ID) combination.
Products	
Transaction Type Message Class	Base II/V.I.P. Full Financial: Credit Voucher transactions. Note: V.I.P. Full Financial POS Acquiring is not currently supported in Brazil.

Table 3–2 Global Loyalty Statement Credits Fee Program

Fee Program	Fee Descriptor	Rate
Global Loyalty Statement Credits	GLB LYTL STMTCRT	No Fee Assessed (0.00)

3.1.2 Global B2B Virtual Payments Registered Program

Visa's Global B2B Virtual Payments Registered Program is a global interchange reimbursement fee program available to Visa Commercial Choice Travel products cards' transactions (interregional, regional and domestic) made at eligible Merchant Category Codes (MCCs).

This program provides flexibility and allows for greater acceptance across the B2B Travel segment by allowing Issuers to choose from a pre-set list of rates and leverage these based on business agreements between their OTA clients and travel suppliers.

Account Funding Transactions (AFTs) are not currently permitted for Visa Commercial Choice Travel products. If an AFT is received and settled, it will qualify for the same fee program as a purchase transaction.

For additional information about Visa Commercial Choice Travel products, contact your account representative.

3.1.2.1 Program Processing Rules

3.1.2.1.1 Eligible Products

Table 3–3: List of products eligible for Global B2B Virtual Payments Registered Program

Account Funding Source (AFS) ¹	Product ID (PID)	Global Product ID (PID) Description ²
C, P	X^	Visa Commercial Choice Travel
¹ AFS is determined based on the Product availability in the applicable jurisdiction (Region or country). Valid AFS are: C (Credit), D (Debit), P (Prepaid), H (Charge), R (Deferred Debit)		
² Regional names might differ from the Global Product ID description		

Note:

- Products are defined by an announced AFS and PID combination.
- Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Account Representative for a list of available Products by market.

3.1.2.1.2 Transaction Types

- **BASE II Draft Data:**
 - TC 05 and TC 25 with TCQ0/TCQ1 and usage code of 1
 - TC 06 and TC 26 with TCQ0/TCQ1 and usage code of 1
- **V.I.P. Full Financial Message:**
 - V.I.P full financial equivalent messages of TC 05 and TC 25 with TCQ0/TCQ1 and TC 06 and TC 26 with TCQ0/TCQ1 with usage code of 1

Note: V.I.P. Full Financial POS Acquiring is not currently supported in Brazil.

3.1.2.1.3 Eligible Merchant Category Codes (MCCs)

The Global B2B Virtual Payments Registered fee program currently apply to merchants with Merchant Category Codes (MCC) as per list below:

Table 3–4 Global B2B Virtual Payments Registered Fee Program eligible MCCs

MCC & MCC Description	MCC & MCC Description
MCC 3000–3350 —Airlines, air carriers	MCC 6513 — Real estate agents and managers – rentals
MCC 3351–3500 — Car rental agencies	MCC 7011 — Lodging – hotels, motels, resorts, central reservation services (not elsewhere classified)
MCC 3501–3999 —Lodging – hotels, motels, resorts	MCC 7012 —Timeshares
MCC 4111 —Local and suburban commuter passenger transportation, including ferries	MCC 7032 — Sporting and recreational camps
MCC 4112 — Passenger railways	MCC 7033 — Trailer parks and campgrounds
MCC 4121 — Taxicabs and limousines	MCC 7298 — Health and beauty spas
MCC 4131 — Bus lines	MCC 7512 — Automobile rental agency
MCC 4411 — Steamship and cruise lines	MCC 7513 — Truck and utility trailer rentals
MCC 4511 — Airlines and air carriers (not elsewhere classified)	MCC 7519 — Motor home and recreational vehicle rentals
MCC 4582 — Airports, flying fields, and airport terminals	MCC 7832 — Motion picture theaters
MCC 4722 — Travel agencies and tour operators	MCC 7922 — Ticket agencies and theatrical producers (except motion pictures)
MCC 4789 — Transportation services (not elsewhere classified)	MCC 7991 — Tourist attractions and exhibits
MCC 5812 — Eating places and restaurants	MCC 7992 — Public golf courses
MCC 5813 — Drinking places (alcoholic beverages) – bars, taverns, nightclubs, cocktail lounges, and discotheques	MCC 7996 — Amusement parks, circuses, carnivals, and fortune tellers

MCC & MCC Description	MCC & MCC Description
MCC 5814 — Fast food restaurants	MCC 7997 — Membership clubs (sports, recreation, athletic), country clubs, and private golf courses
MCC 5962 — Direct marketing – travel-related arrangement services	MCC 7999 — Recreation services (not elsewhere classified)
MCC 5992 — Florists	MCC 9399 — Government services (not elsewhere classified)

3.1.2.1.4 Fee Edit and Reclassification Criteria

Table 3–5 Fee Edit Criteria for Global B2B Virtual Payments Registered Fee Program

Fee Edit Criteria	Processing Rule
Purchase and credit voucher transactions must meet the following conditions: - Domestic transaction jurisdiction - AFS/PID combination from Table 3-3 - Reimbursement Attribute (BASE II Draft Data, TCR 0, position 168 or V.I.P. Field 63.11) any valid value Note: Reimbursement attribute value of 0 (Standard issuer/interchange reimbursement fee) is considered the default value. - Merchant category code (MCC) is in Table 3-4 - Positions 84–85, B2B Program Identification (ID), ARDEF Value Table Detail Record is a valid value.	Purchase and credit voucher transactions that meet fee program edit criteria will qualify for the Global B2B Virtual Payments Registered fee descriptor and rate associated with the B2B Program ID value present in the ARDEF table. Notes: - If program fee edit criteria is met, the B2B Virtual Payments Registered Program will take precedence over any existing merchant verification value (MVV) based programs. - Transactions that do not meet program edit criteria will be assessed an existing Purchasing product fee program for the applicable transaction jurisdiction.

Important:

- Visa Commercial Choice Travel products' transactions must always be authorized and have a POS EM value of **01** (Manual (Key Entered)) or **10** (Credential-On-File).
- B2B Program Identification (IDs) values can be found in existing BASE II Manuals. Availability of B2B Program IDs/Rates vary by market, please refer to the respective product guide or contact your Visa Account Representative for more details.

3.1.2.2 Fee Descriptors and Rates

The following table lists the applicable fee descriptor and rate

Table 3–6 Global B2B Virtual Payments Registered Program

Fee Program	Fee Descriptor	Rate
B2B Virtual Product Registered Program	B2B RGSTRD PRGM	Varies per registered program

Important:

Availability of B2B Program IDs/rates vary by market. Please refer to the respective product guide or contact your Visa account representative for more details.

Fee descriptors appear in the following settlement reports:

- VSS–130 and VSS–130–M
- VSS–135

3.1.3 Global B2B Virtual Payments Fee Program

Visa's Global B2B Virtual Payments Fee Program is a global interchange reimbursement fee program available to Visa Commercial Choice Travel products' transactions (interregional, regional and domestic) made at eligible Merchant Category Codes (MCCs).

Clients that submit interregional purchase and credit voucher/merchandise return transactions will receive the Visa Commercial Choice Travel products specific fee program, including fee descriptor, FPI, and rate if program criteria are met.

Account Funding Transactions are not currently permitted for Visa Commercial Choice Travel products. If an AFT is received and settled, it will qualify for the same fee program as a purchase transaction.

For additional information about the Visa Commercial Choice Travel products, contact your account representative.

3.1.3.1 Program Processing Rules

3.1.3.1.1 Eligible Products

Table 3-7 List of products eligible for Global B2B Virtual Payments Fee Program

Account Funding Source (AFS) ¹	Product ID (PID)	Global Product ID (PID) Description ²
C, P	X^	Visa Commercial Choice Travel
¹ AFS is determined based on the Product availability in the applicable jurisdiction (Region or country). Valid AFS are: C (Credit), D (Debit), P (Prepaid), H (Charge), R (Deferred Debit)		
² Regional names might differ from the Global Product ID description		

Note:

- Products are defined by an announced AFS and PID combination.
- Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products by market.

3.1.3.1.2 Transaction Types

- **BASE II Draft Data:**
 - TC 05 and TC 25 with TCQ0/TCQ1 and usage code of 1
 - TC 06 and TC 26 with TCQ0/TCQ1 and usage code of 1
- **V.I.P. Full Financial Message:**
 - V.I.P full financial equivalent messages of TC 05 and TC 25 with TCQ0/TCQ1 and TC 06 and TC 26 with TCQ0/TCQ1with usage code of 1

Note: Note: V.I.P. Full Financial POS Acquiring is not currently supported in Brazil.

3.1.3.1.3 Eligible Merchant Category Codes (MCC)

The Global B2B Virtual Payments fee program currently apply to merchants with Merchant Category Codes (MCC) as per list below:

Table 3–8 Global B2B Virtual Payments Fee Program eligible MCCs

MCC & MCC Description	MCC & MCC Description
MCC 3000–3350 — Airlines, air carriers	MCC 6513 — Real estate agents and managers – rentals
MCC 3351–3500 — Car rental agencies	MCC 7011 — Lodging – hotels, motels, resorts, central reservation services (not elsewhere classified)
MCC 3501–3999 — Lodging – hotels, motels, resorts	MCC 7012 — Timeshares
MCC 4111 — Local and suburban commuter passenger transportation, including ferries	MCC 7032 — Sporting and recreational camps
MCC 4112 — Passenger railways	MCC 7033 — Trailer parks and campgrounds
MCC 4121 — Taxicabs and limousines	MCC 7298 — Health and beauty spas
MCC 4131 — Bus lines	MCC 7512 — Automobile rental agency
MCC 4411 — Steamship and cruise lines	MCC 7513 — Truck and utility trailer rentals
MCC 4511 — Airlines and air carriers (not elsewhere classified)	MCC 7519 — Motor home and recreational vehicle rentals
MCC 4582 — Airports, flying fields, and airport terminals	MCC 7832 — Motion picture theaters
MCC 4722 — Travel agencies and tour operators	MCC 7922 — Ticket agencies and theatrical producers (except motion pictures)
MCC 4789 — Transportation services (not elsewhere classified)	MCC 7991 — Tourist attractions and exhibits
MCC 5812 — Eating places and restaurants	MCC 7992 — Public golf courses
MCC 5813 — Drinking places (alcoholic beverages) – bars, taverns, nightclubs, cocktail lounges, and discotheques	MCC 7996 — Amusement parks, circuses, carnivals, and fortune tellers
MCC 5814 — Fast food restaurants	MCC 7997 — Membership clubs (sports, recreation, athletic), country clubs, and private golf courses
MCC 5962 — Direct marketing – travel-related arrangement services	MCC 7999 — Recreation services (not elsewhere classified)
MCC 5992 — Florists	MCC 9399 — Government services (not elsewhere classified)

3.1.3.1.4 Fee Edit and Reclassification Criteria

The domestic processing rules and fee edit criteria are listed in the following table.

Table 3–9 Fee Edit Criteria for Global B2B Virtual Payments Fee Program

Fee Edit Criteria	Processing Rule
Purchase and credit voucher transactions must meet the following conditions: - Domestic transaction jurisdiction - AFS/PID combination from Table 3-7 - Reimbursement Attribute (BASE II Draft Data, TCR 0, position 168 or V.I.P. Field 63.11) any valid value Note: Reimbursement attribute value of 0 (Standard issuer/interchange reimbursement fee) is considered the default value - Merchant category code (MCC) is in Table 3 8	Domestic purchase and credit voucher transactions that meet fee program edit criteria will qualify for the Global B2B Virtual Payments fee descriptor and rate. Note: Transactions that do not meet program edit criteria will be assessed an existing Purchasing product fee program for the applicable transaction jurisdiction.

Important:

Visa Commercial Choice Travel products transactions must always be authorized and have a POS EM value of **01** (Manual (Key Entered)) or **10** (Credential-On-File).

3.1.3.2 Fee Descriptor and Rate

Table 3–10 Global B2B Virtual Payments Fee Program

Fee Descriptor	Fee Rate
GLB B2B VTL PYMT	2.00%

3.2 Domestic NNSS-settled transactions

This section outlines the technical requirements for all current domestic interchange programs in Brazil.

National Net settle Domestic transactions in Brazil can be assessed a fee program under the following Fee Schedules:

- Point-of-Sale (POS)
- Cash Disbursement
- Visa Direct Strategic Fee Program
- Original Credit Transactions (OCTs)
- Account Funding Transactions (AFTs)

3.2.1 POS (point-of-sale) Fee Schedule

3.2.1.1 Visa Partner Program (VPP)

The Visa Partner Program applies to domestic purchase and credit voucher transactions, including mobile push payment transactions. VPP is a customized program, and the program requirements are unique for each participating merchant. Visa will inform the acquirer of each eligible merchant of the specific program requirements for each agreement. Domestic transactions will be eligible for VPP interchange fees depending on a number of factors that may include:

- Eligible Visa branded product(s)
- Required fee edit criteria

When VPP requirements are met, the fee amount assessed on the transaction will be based on the interchange rate negotiated between Visa and the merchant.

Visa will assign a unique Merchant Verification Value (MVV) to each participating merchant. Visa determines VPP eligibility based on the MVV submitted in the V.I.P. full financial or BASE II clearing transaction. To qualify, the MVV submitted in the transaction must match the MVV on Visa's internal tables.

In the BASE II record, the MVV must be in TCR 5, position 82-91. In the V.I.P. full financial message, the MVV must be in Field 62.20. The MVV must be retained and returned on disputed transactions.

Visa Partner Program rates will apply to domestic consumer credit, commercial credit, debit and prepaid card and/or payment credential transactions that clear and settle in the National Net Settlement Service (NNSS) and international settlement service.

3.2.1.2 New Acquirer-Merchant Relationships

Acquirers will be required to notify Visa if they begin to acquire for a merchant that has a VPP Program with Visa. An acquirer's failure to notify Visa of a new merchant relationship may result in that merchant's transactions not being assessed the VPP Program rates.

3.2.1.3 Acquiring Identifier Registration

All acquirers or acquirer processors of originators with a VPP Program must notify Visa in writing the acquiring identifiers they will use to process program volume with Visa

Settlement	National Net
Account Funding Source (PID)	Any applicable Visa branded product (AFS/Product ID) combination, as per VPP program.

3.2.2 Visa Direct Strategic Fee Program (VD SFP)

The Visa Direct Strategic Fee Program applies to domestic Account Funding Transactions (AFTs) and Original Credit Transactions (OCTs). VD SFP is a customized program, and the program requirements are unique for each participating originator. Visa will inform the acquirer of each eligible originator of the specific program requirements for each agreement. Domestic transactions will be eligible for VD SFP interchange fees depending on a number of factors that may include:

- Eligible Visa branded product(s)
- Required fee edit criteria

When VD SFP requirements are met, the fee amount assessed on the transaction will be based on the interchange rate negotiated between Visa and the merchant.

Visa will assign a unique Merchant Verification Value (MVV) to each participating originator. Visa determines VD SFP eligibility based on the MVV submitted in the V.I.P. full financial or BASE II clearing transaction. To qualify, the MVV submitted in the transaction must match the MVV on Visa's internal tables.

In the BASE II record, the MVV must be in TCR 5, position 82-91. In the V.I.P. full financial message, the MVV must be in Field 62.20. The MVV must be retained and returned on disputed transactions.

VD SFP rates will apply to domestic consumer credit, commercial credit, debit and prepaid card and/or payment credential transactions that clear and settle in the National Net Settlement Service (NNSS) and International Settlement Service (ISS).

3.2.2.1 New Acquirer-Merchant Relationships

Acquirers will be required to notify Visa if they begin to acquire for a merchant that has a VD SFP Program with Visa. An acquirer's failure to notify Visa of a new merchant relationship may result in that merchant's transactions not being assessed the VD SFP Program rates.

3.2.2.2 Acquiring Identifier Registration

All acquirers or acquirer processors of originators with a VD SFP Program must notify Visa in writing the acquiring identifiers they will use to process program volume with Visa.

3.3 Domestic-International Settled transactions

Brazil Domestic transactions that do not settle under NNSS will settle under the International Settlement Service (ISS) and will qualify for on the following Domestic-International Settled Fee Schedules:

- Visa Partner Program (VPP)
- Point-of-Sale (POS)
- Visa Direct Strategic Fee Program (VD SFP)
- ATM Non-Financial

If the transaction does not qualify for any of the Domestic-International Settled Fee Schedules listed above, then the transaction will default, and be assessed, to one of the existing LAC Regional Fee Programs.

3.3.1 Visa Partner Program (VPP)

The Visa Partner Program applies to domestic purchase and credit voucher transactions, including mobile push payment transactions. VPP is a customized program, and the program requirements are unique for each participating merchant. Visa will inform the acquirer of each eligible merchant of the specific program requirements for each agreement. Domestic transactions will be eligible for VPP interchange fees depending on a number of factors that may include:

- Eligible Visa branded product(s)
- Required fee edit criteria

When VPP requirements are met, the fee amount assessed on the transaction will be based on the interchange rate negotiated between Visa and the merchant.

Visa will assign a unique Merchant Verification Value (MVV) to each participating merchant. Visa determines VPP eligibility based on the MVV submitted in the V.I.P. full financial or BASE II clearing transaction. To qualify, the MVV submitted in the transaction must match the MVV on Visa's internal tables.

In the BASE II record, the MVV must be in TCR 5, position 82-91. In the V.I.P. full financial message, the MVV must be in Field 62.20. The MVV must be retained and returned on disputed transactions.

Visa Partner Program rates will apply to domestic consumer credit, commercial credit, debit and prepaid card and/or payment credential transactions that clear and settle in the National Net Settlement Service (NNSS) and International Settlement Service (ISS).

3.3.1.1 New Acquirer-Merchant Relationships

Acquirers will be required to notify Visa if they begin to acquire for a merchant that has a VPP Program with Visa. An acquirer's failure to notify Visa of a new merchant relationship may result in that merchant's transactions not being assessed the VPP Program rates.

3.3.1.2 Acquiring Identifier Registration

All acquirers or acquirer processors of originators with a VPP Program must notify Visa in writing the acquiring identifiers they will use to process program volume with Visa

3.3.3 Visa Direct Strategic Fee Program (VD SFP)

The Visa Direct Strategic Fee Program applies to domestic Account Funding Transactions (AFTs) and Original Credit Transactions (OCTs). VD SFP is a customized program, and the program requirements are unique for each participating originator. Visa will inform the acquirer of each eligible originator of the specific program requirements for each agreement. Domestic transactions will be eligible for VD SFP interchange fees depending on a number of factors that may include:

- Eligible Visa branded product(s)
- Required fee edit criteria

When VD SFP requirements are met, the fee amount assessed on the transaction will be based on the interchange rate negotiated between Visa and the merchant.

Visa will assign a unique Merchant Verification Value (MVV) to each participating originator. Visa determines VD SFP eligibility based on the MVV submitted in the V.I.P. full financial or BASE II clearing transaction. To qualify, the MVV submitted in the transaction must match the MVV on Visa's internal tables.

In the BASE II record, the MVV must be in TCR 5, position 82-91. In the V.I.P. full financial message, the MVV must be in Field 62.20. The MVV must be retained and returned on disputed transactions.

VD SFP rates will apply to domestic consumer credit, commercial credit, debit and prepaid card and/or payment credential transactions that clear and settle in the National Net Settlement Service (NNSS) and international settlement service.

3.3.3.1 New Acquirer-Merchant Relationships

Acquirers will be required to notify Visa if they begin to acquire for a merchant/originator that has a VD SFP Program with Visa. An acquirer's failure to notify Visa of a new merchant relationship may result in that merchant's transactions not being assessed the VD SFP Program rates.

3.3.3.2 Acquiring Identifier Registration

Authorization Code	N/A	Field 39	00 (Approved) or Decline response code ¹
¹ Refer to the Visa Global ATM Member Guide for a list of Decline response codes that are not assessed the PIN Management Services Fee			

7 Visa Claim Resolution (VCR)

The interchange or client-to-client fee amount applied to each VCR dispute, pre-Arbitration and dispute response transaction will be the same amount assessed to the original transaction when the full amount transaction amount is disputed. For partially disputed amounts, the interchange or client-to-client amount applied will be proportionally adjusted to the amount being disputed.

Issuers and acquirers must retain and return key clearing data received in original transactions when submitting dispute transactions.

VCR transactions are:

- **V.I.P. Message Sets:** 0220/0230, 0422/0432
- **BASE II Transactions:** TC 05, TC 06, TC 07, TC 15, TC 16, TC 17, TC 25, TC 26, TC 27, TC 35, TC 36, TC 37 with a usage code of 9

The following table lists all VCR fee descriptors

Table 7-1 VCR Fee Descriptors for Dispute Financials

Description	Fee Descriptor
Dispute Financial	DISP FIN
Dispute Financial Reversal	DISP FIN RVRSL
Dispute Response Financial	DISP RESP FIN
Dispute Response Financial Reversal	DISP RESP RVRSL

Fee descriptors appear in the following settlement reports:

- VSS-130 and VSS-130-M
- VSS-135
