Introduction

The LAC Intraregional Interchange Guide ('Guide') details the interchange rates that are available to Visa Inc. LAC issuers and acquirers. This Guide is a Visa Inc. official publication outlining interchange reimbursement fee programs and rates applicable to LAC clients and supersedes any other regional interchange related documents or representations.

Unless otherwise noted, all rates described in this Guide apply to LAC regional transactions. LAC regional transactions are those originating at merchants acquired by clients in the LAC region on Visa cards issued by LAC clients.

To qualify for a specific interchange rate, the transaction must comply with all interchange fee qualifications and processing requirements in effect on the transaction date as specified in this Guide, applicable Visa Business News (VBNs) and VisaNet Technical Manuals, including Business Enhancements Release, Global Technical documentation.

It is the responsibility of the Acquirer to accurately apply the applicable rates and to ensure accuracy of Interchange Reimbursement Fee information associated with each transaction processed by the Acquirer. In the event that any merchant's transactions have not been assigned the applicable interchange rate pursuant to this Guide, the rate, which was applied to the transaction shall, only for the purposes of assessing Visa's responsibility for such transaction, be deemed to be the applicable and appropriate rate.

Note: This document is a supplement of the *Visa Core Rules and Visa Product and Service Rules*. In the event of any conflict between any content in this document, any document referenced herein, any exhibit to this document, or any communications concerning this document, and any content in the *Visa Core Rules and Visa Product and Service Rules*, the *Visa Core Rules and Visa Product and Service Rules* shall govern and control.

About This Guide

Purpose

This document is to provide the information on the various interchange fee programs for LAC regional transactions and the various edit criteria that are required for each of the fee programs included in this guide.

Audience

The guide is intended for Visa Inc. customer's business, technical and operations staff.

Rates are provided for reference only. While Visa will use its best efforts to ensure that this guide is kept up to date, Visa does not guarantee that it is so. In the event of any discrepancy between these rates and rates that are deemed official by Visa, the rates that are deemed official will apply.

These rates are not exhaustive and there may be other rates in the system that may apply.

These rates are applicable subject to the transactions fulfilling certain qualification criteria as highlighted in this document.

Clients should check their settlement reports to ensure that they are receiving the rates expected.

Changes are periodically added to the information herein: These changes will be incorporated in new editions of the publication.

To the extent permitted by law, Visa should not be held liable for any loss or damage (including special, indirect and consequential loss or damage) in connection with clients' use of this guide.

Important: This publication could include technical inaccuracies or typographical errors; any errors/inaccuracies will be corrected when identified.

Summary of Changes

Since the last version of the LAC Regional Interchange Guide, version 1.7 was published, updates have occurred that are contained in the document below.

This version of the Guide completely replaces all previous versions.

Summary of Changes

Section	Status	Description of Change
All	Updated	Wording and table naming convention updates, typos corrections, clarifying transaction types (TCs, TCQs, etc.) and format updates throughout document.
2 and 6	Added	Added Costa Rica Merchant Fee Program as per Article 2.11, <i>Changes to Interregional and LAC Regional Interchange Fee Programs for Transactions Originating from Costa Rica Merchants</i> in the April 2023 VisaNet Business Enhancements Global Technical Letter
2,6 and 11	Updated	Following updates were implemented as part of October 2023 and January 2024 VisaNet Business Enhancements Release: - Article 10.2.2 – <i>Changes to LAC Regional Interchange Fee Programs for Visa Consumer and Visa Commercial Transactions for Visa Consumer and Visa Commercial Transactions</i> - Article 2.10 - <i>New Interlink Interchange Fee Programs to Support Non-Visa Account Funding Transactions</i>
3	Added	Added LAC Domestic-International Settled Default Rates Summary
4	Updated	- Updated the list of MCCs eligible for Global B2B Virtual Payments and Global B2B Virtual Payment Registered Fee Programs. - Added new B2B Program ID values, and rates available under the existing Global B2B Virtual Payments Registered Fee Program. as per Article 2.11, <i>Changes to Visa B2B Virtual Payments Program Products Transaction Processing</i> , in the October 2022 VisaNet Business Enhancements Global Technical Letter.

Introduction

LAC Intraregional IRF Guide: Visa Supplemental Requirements

Section	Status	Description of Change
5 and 11	Updated	Added new Flexible Rate B2B Virtual Program as per <i>Article 2.14, New Visa Flexible Rate B2B Virtual Program Products</i> , in the <i>October 2022 VisaNet Business Enhancements Global Technical Letter</i>
7	Updated	Removed LAC Prepaid Load Domestic Fee Program (previously Chapter 7). Prepaid Load Service is not currently supported/used by any LAC market.
8.2	Updated	Added ATM Cash Deposit Fee Program as per <i>Article 4.4 Changes to Support Regional and Interregional ATM Cash Deposit Processing</i> in the <i>April 2023 VisaNet Business Enhancements Global Technical Letter</i>
8 and 11	Updated	Added new Visa Direct Payouts Fee Program as per <i>Article 2.16, Changes to Support the Visa Direct Payouts Service</i> , in the <i>October 2022 VisaNet Business Enhancements Global Technical Letter</i>
9	Added	Added LAC Domestic International-Settled Default Transactions

1 Interchange Processing

Interchange Reimbursement Fees (IRF) are transfer fees between issuers and acquirers used to maximize the growth of the payment network for the benefit of all participants. Generally, the acquirer reimburses the issuer for POS transactions (e.g. purchases) whereas the issuer reimburses the acquirer for cash and ATM transactions.

Acquirers independently set their respective charges for their merchant customers through individual agreements with each merchant, based on considerations they deem appropriate.

This section explains how interchange assessment is determined and how interchange fees flow between clients.

1.1 LAC Regional Jurisdiction

Table 1–1: LAC Regional Interchange Fee Jurisdiction

Merchant (MCC)	Acquirer Region	Merchant Region	Issuer Region	Comments
Non-Airline	LAC	LAC	LAC	Issuer and acquirer are from different LAC countries
Airline	Any Region	LAC	LAC	

Table 1–2: LAC Regional Interchange Fee Jurisdiction for transactions originated from U.S. territories in LAC

Merchant (MCC)	Acquirer Region	Merchant Region	Issuer Region	Comments
Any	LAC Region	LAC US Territory	LAC US Territory	Issuer and merchant are in different LAC countries
LAC Region US Territories: Puerto Rico, US. Virgin Islands				

Table 1–3: LAC Regional Interchange Fee Jurisdiction for transactions originated from Multinational Acceptance Acquirer (MAA) Program Acquirers

Merchant (MCC)	Acquirer Region	Merchant Region	Issuer Region	Comments
Any	Any Region	LAC Region	LAC Region	Merchant and Issuer are in different LAC countries

1.2 Interchange General Concepts

Interchange Fee Schedules

Interchange Fee Schedules define the order in which interchange reimbursement fee (IRF) programs are assessed. The different transaction types (i.e., purchases, ATM withdrawals, etc.) are grouped according to their business purpose.

Fee Program

For the purpose of this guide, the term “program” is used to define the set of transaction characteristics that a transaction must meet to be qualified for an interchange reimbursement fee category. Qualification for a specific program typically correlates directly to the rate available for that program. However, in certain circumstances, several programs can be used to qualify transactions for a particular rate.

Fee Rate

Rates can be either a unit rate, a percentage rate or a combination of both. When the rate is a unit rate, this guide shows the currency code [e.g., USD (840) for the rate]. When it is percentage rate, this guide will have percentage (%) mark next to the rate.

Interchange Reimbursement Fee (IRF) / Interchange fee amount / Client-to-Client Fee

Interchange Reimbursement Fee (IRF) is a client-to-client transfer fee assessed on the entire transaction amount submitted by the acquirer for clearing & settlement. Refer to Interchange Processing section for more details.

Dispute Process

It is a liability- based dispute resolution process leveraging original transaction data and Visa Resolve Online (VROL). Please note that the interchange and/or client-to-client fee amount applied to each dispute transaction will be the same amount assessed to the original transaction when the full transaction amount is disputed. On partially disputed amounts, the interchange or client-to-client fee amount applied will be proportionally adjusted to the amount being disputed.

Purchase Transaction

The term purchase is used to indicate a no cash disbursement POS transaction including but not limited to: regular purchase, bill payment, debt repayment, recurring payment, quasi-cash, and installment transactions

Fee Descriptor

Fee descriptors correspond to each interchange reimbursement fee program in each settlement service and appear in the Visa Settlement Service (VSS) reports for fee reconciliation. (VSS130, VSS130M & VSS135). The fee descriptors provide fee level volumes on daily, monthly and month-to-date reimbursement fee reports.

Fee Program Indicator (FPI)

A three-character alphanumeric value that identifies the interchange reimbursement fee program applied to each transaction. The FPI values are determined by Visa during normal processing for V.I.P. and BASE II clearing transactions. FPI assists acquirers in reconciliation of fees, at a transaction level.

Note: FPI processing is currently available in specific jurisdictions for specific interchange programs. When applicable, the FPI value will be listed along with the fee descriptor and rate for each interregional fee program documented in this guide.

Merchant Verification Value (MVV)

Merchant Verification Value (MVV) is a unique 10-character alphanumeric identifier. The first six positions of the MVV are assigned by Visa to merchants/originators; the last four positions are defined by the merchant/originator in conjunction with the acquirer. The last four positions must be always populated and may be zero-filled.

MVV is assigned by Visa for a variety of processing purposes. MVV main use by Visa is to determine a merchant's eligibility for specific interchange fee programs.

MVV is unique to a merchant/originator, not a merchant or originator/ acquirer relationship. A merchant/originator MVV may be used by multiple acquirers processing for the same merchant/originator. The MVV is mandated to be included in all full financial, V.I.P., and BASE II messages from merchants/originators that have been assigned an MVV in specific scenarios (please refer to current MVV Uses).

Visa assigns one MVV per merchant/originator at the parent (holding company) level, except in some circumstances determined on a case-by-case basis.

Product

Products are defined by announced Account Funding Source (AFS) and Product ID (PID) combination. Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products in each market.

- **Account Funding Source (AFS)** represents the default funding source for the card. Valid AFS values are:
 - **C** (Credit) – Identifies any card that may be used repeatedly to borrow money or buy products and services on credit.

- **H** (Charge) – Identifies a card used for making payments where the balance must be paid in full when the statement is received.
- **D** (Debit) – Identifies a card which allows customers to access their funds immediately, electronically. Unlike a credit card, a debit card does not have any float balance.
- **R** (Deferred Debit) – Describes a funding source where after a purchase is made, the transaction merely places an authorization hold on the customer's account; funds are not actually withdrawn until the transaction is reconciled and hard-posted to the customer's account, usually at the end of the month.
- **P** (Prepaid) – Identifies a card issued by a financial institution that is preloaded with funds. Instead of buying with borrowed funds (through credit), purchases are made with funds that have already been paid.
- **Account Funding Source Subtype:** Indicates whether a prepaid account range is 'Reloadable' or 'Non-Reloadable'. Available values are:
 - **R** (Reloadable) – Identifies prepaid cards that can have funds added to them after the cards have been issued.
 - **N** (Non-Reloadable) – Identifies prepaid cards that cannot have funds added to them after the cards have been issued.
- **Product ID (PID)** is the main product attribute. It is defined at the account range or card level (for Account Level Processing (ALP) enabled products). The Product ID uniquely identifies payment products brand, platform, etc. within VisaNet (i.e.: Visa brand, Consumer platform). PID is also used to drive unique processing, billing, interchange and other message routing rules

1.3 Interchange Determination

Below are the main steps followed to determine which interchange program will be used to assess interchange reimbursement fee (IRF) to a transaction.

Note: It should be noted the same process and edit rules are followed irrespective of how the transaction enters VisaNet, i.e. via BASE II and VIP format.

1. Determine transaction jurisdiction (Domestic, Intraregional or Interregional)
2. Select interchange fee schedule
3. The card usage (funding source type) is determined - credit versus debit versus prepaid
4. The product assigned to the account range or card level (for ALP products) is identified

Once the above steps are completed, VisaNet checks the transaction elements against the edits for the first fee program within the applicable fee schedule; if the transaction does not meet the edit criteria of the first program, it moves to the next one until a match is found.

Assessed interchange totals, by business mode and fee descriptors, are listed in the VSS-130 and VSS-130M Reimbursement Fee Reports. The interchange reimbursement fee flow is listed in the following table

Table 1–4: Interchange Flow by Transaction Type

Transaction	Message Class	Description	Interchange Fee Paid by
Sales Draft (Purchase)	Original	A product or service is bought on a Visa account	Acquirer
Credit Voucher ^{1, 2, 3}	Non-Original	A purchase return or price adjustment is credited to a Visa account	Issuer
Cash Disbursement ³	Original	Cash is disbursed from an ATM or bank teller through a Visa or Plus card	Issuer
Reversal, Sales Draft	Original	A purchase is cancelled by the acquirer, usually due to a processing error	Issuer
Reversal, Credit Voucher	Non-Original	A credit voucher is cancelled	Acquirer
Reversal, Cash Disbursement	Original	A cash disbursement submission is cancelled	Acquirer

Interchange Processing: Interchange Determination
LAC Intraregional IRF Guide: Visa Supplemental Requirements

Transaction	Message Class	Description	Interchange Fee Paid by
Dispute Financial, Sales Draft	Non-Original	Used when a dispute requires reallocation of funds	Issuer
Dispute Financial, Credit Voucher	Non-Original	Used when a dispute requires reallocation of funds	Acquirer
Dispute Financial, Cash Disbursement	Non-Original	Used when a dispute requires reallocation of funds	Acquirer
Dispute Financial Reversal, Sales Draft	Non-Original	A dispute requires reallocation of funds, or the reversal of a duplicate or erroneous dispute financial transaction	Acquirer
Dispute Financial Reversal, Credit Voucher	Non-Original	A dispute requires reallocation of funds, or the reversal of a duplicate or erroneous dispute financial transaction	Issuer
Dispute Financial Reversal, Cash Disbursement	Non-Original	A dispute requires reallocation of funds, or the reversal of a duplicate or erroneous dispute financial transaction	Issuer
Dispute Response Financial, Sales Draft	Non-Original	Used when a dispute requires reallocation of funds	Acquirer
Dispute Response Financial, Credit Voucher	Non-Original	Used when a dispute requires reallocation of funds	Issuer
Dispute Response Financial, Cash Disbursement	Non-Original	Used when a dispute requires reallocation of funds	Issuer
Dispute Response Financial Reversal, Sales Draft	Non-Original	A dispute requires reallocation of funds, or the reversal of a duplicate or erroneous dispute financial transaction	Issuer
Dispute Response Financial Reversal, Credit Voucher	Non-Original	A dispute requires reallocation of funds, or the reversal of a duplicate or	Acquirer

Transaction	Message Class	Description	Interchange Fee Paid by
		erroneous dispute financial transaction	
Dispute Response Financial Reversal, Cash Disbursement	Non-Original	A dispute requires reallocation of funds, or the reversal of a duplicate or erroneous dispute financial transaction	Acquirer

¹ For Original Credit transactions, the fee follows an atypical flow for credit vouchers. Fee is paid by the originator to the recipient bank if not otherwise indicated in each applicable OCT fee program

² For Mobile Push Payment (Original Credit transactions with a BAI of MP (Merchant Payments)), the fee follows the same flow as a credit voucher and the fee is paid by the actual acquirer (issuer/recipient of MPP request message) to the actual issuer (Acquirer/originator of the MPP request message)

³ mVisa Original Credit transactions with a BAI of CO (Cash-out) and CC (Cash Claim) the fee is paid as follow:

- mVisa Cash Out: paid by the actual acquirer (issuer/recipient of mVisa request message) to the actual issuer (Acquirer/originator of the mVisa request message)
- mVisa Cash Claim: paid by the actual issuer (Acquirer/originator of the mVisa request message) to the actual acquirer (issuer/recipient of mVisa request message)

1.4 International Settlement Service (ISS)

International settlement can be used to settle domestic or international transactions.

Domestic transactions settle via international settlement if the National Net Settlement Service (NNSS) for a country does not exist or is not in use, if either the issuer or acquirer is not participating in the NNSS, if the acquirer sends a settlement flag value of '0' instead of '9', or if the transaction does not fulfil the rules and requirements for NNSS settlement.

If the settlement flag value of a transaction is '9', and the transaction settles via International settlement, the settlement flag value will be converted to '0' (to denote international settlement) prior to sending to the Issuer.

The settlement flag is a retained and returned field, so the value of '0' in the original transaction should be carried in all subsequent transactions such as dispute financials.

International Settlement Key Terms

- **Region** is the numeric code assigned for the geographical jurisdiction. Region code 05 is assigned to LAC.
- **Zone** is the numeric code assigned for a specific country / geographical jurisdiction within a region.
- **Settlement Service ID (SSID)** is the numeric code assigned to a specific Settlement Service. SSID 0001 is assigned for International Settlement.

Table 1–5: International Settlement

Region	05
Zone	Varies by country
Settlement Service ID (SSID)	0001

1.5 Merchant Verification Value (MVV)

As participation criteria for certain intraregional Interchange Reimbursement Fee programs, Visa uses a Merchant Verification Value (MVV). MVV is a 10-character alphanumeric value used by Visa to determine a merchant's eligibility for specific interchange reimbursement fee programs. Acquirers with merchants that are eligible for participation in such programs are assigned a unique MVV by Visa. The first six positions of the MVV are assigned to participating merchants by Visa. The last four positions can be defined in conjunction with the Acquirer and/or merchant.

The MVV must be submitted in eligible V.I.P full financial and BASE II transactions to qualify for MVV-based interchange reimbursement fee programs. In addition, Acquirers of merchants that are assigned an MVV are required to submit clearing transactions from registered Acquiring Identifiers.

Table 1–6: Merchant Verification Value in V.I.P. Messages

Field Name	Field	Length	Format	Description
Merchant Verification Value	62.20	5 bytes, 4-bit BCD	Valid values are: Spaces, A–F, 0–9	Field 62.20 will be used by Visa to determine a merchant's eligibility to participate in a merchant incentive fee program. The MVV will be assigned to participating merchants by Visa. The first six positions of the MVV will be assigned to participating merchants by Visa. The last four positions will be defined in conjunction with the Acquirer. Acquirers must include the MVV in V.I.P full financial transactions to qualify for the merchant incentive fee program.
AN = Alphanumeric BCD = Unsigned packed				

Table 1–7: Merchant Verification Value in Draft Data, TCR 5—Payment Service Data

Field Name	Position	Length	Format	Description
Merchant Verification Value	82–91	10	Valid values are: Spaces, A–F, 0–9	The content of positions 82–91 will be used by Visa to determine a merchant’s eligibility to participate in a merchant incentive fee program. The first six positions of the MVV will be assigned to participating merchants by Visa. The last four positions will be defined in conjunction with the Acquirer. Acquirers must include the MVV in BASE II clearing transactions to qualify for the merchant incentive fee program
AN = Alphanumeric				

BASE II transactions submitted with non-alphanumeric values in the MVV field will be rejected by the Edit Package with reason code **V1086** (MVV must be all spaces or each position in the MVV field must be **A–F** or **0–9**. MVV is XXXXXXXXXX) or returned by BASE II with reason code **4E** (Invalid MVV).

Transactions with MVV values that are not enabled for an MVV-base Fee program will be ignored by Visa, and the transaction will be processed as if MVV was not present.

Table 1–8: Merchant Verification Value Processing Rules

Condition	Processing Rule
MVV and Acquiring Identifier in the transaction matches the MVV and designated Acquiring Identifier registered with Visa.	When the MVV validation and fee edits are met, Visa will qualify the transaction for the applicable Program fee that is assigned to the MVV.
MVV in the transaction does not match the MVV assigned by Visa	Visa will ignore the MVV in the transaction and process the transaction as if an MVV-based Program Rate was not requested. NOTE: If an acquirer submits a transaction that contains a value that is not an active MVV, it will receive a. BASE II TC 04—Reclassification Advice with the Reason Code 4E (Invalid MVV).
MVV in the transaction matches an MVV assigned by Visa for an MVV-based Fee Program, but the Acquiring Identifier does not match.	Visa will ignore the submitted MVV in the transaction and process the transaction as if an MVV-based Fee Program was not requested.

1.6 Interchange Fee Amount in LAC Regional Transactions

1.6.1 Interchange Fee Amount in BASE II Transactions

This Interchange Fee Amount field provides the Visa calculated interchange fee amount in each transaction to assist in the reconciliation process at the transaction level.

BASE II uses existing fields in Draft Data record formats to carry the interchange reimbursement fee amount that is applied by BASE II for each domestic and international transaction. These fields are carried in purchase, credit voucher/merchandise return, cash disbursement, original credit, account funding.

Interchange fee amount: The interchange reimbursement fee amount assessed by BASE II and defined in the member's settlement currency

Interchange fee sign: The indicator that specifies if the interchange fee amount is a debit or credit to the receiving member

Note: The Fee Amount is defined in the Draft Data TCR 5 record; positions 92-107 Fee amount is not supported in SMS online message formats.

The following table shows the format for the fee data fields that are included in the BASE II TCR 5 record.

Table 1–9: Fee Amount in BASE II Draft Data TCR 5—Payment Service Data

Field Name	Position	Length	Format	Description
Interchange Fee Amount	92–106	15	UN	This field specifies the interchange fee amount calculated by Visa for this transaction. The field is right justified, with six decimals implied. Outgoing: This field must contain zeros. This field will be populated by the VIC. Incoming: This field contains the interchange fee amount assessed on this transaction by Visa.
Interchange Fee Sign	107	1	AN	This field specifies if the interchange fee amount is a credit or debit for the receiving Institution. Valid values are: C = Credit D = Debit

Field Name	Position	Length	Format	Description
				Outgoing: This field must contain spaces. The VIC will insert the valid value.
UN = Unpacked Numeric AN = Alphanumeric				

1.6.2 Interchange Fee Amount for Full Financial Transactions

Assessed interchange amount can be found in SMS Raw Data records and SMS Transaction Detail Reports as per [Table 1–10](#) and [Table 1–11](#).

Table 1–10: SMS Raw Data Records

SMS Raw Data Version	Field Name	Record Type	Position
Version 2.2	Fee Program Indicator	V22210	126–128
	Reimbursement Fee	V22261	7–17
	Reimbursement Fee Debit/Credit Indicator	V22261	18
Version 2.3	Fee Program Indicator	V23201	126–128
	Reimbursement Fee	V23210	7–17
	Reimbursement Fee Debit/Credit Indicator	V23210	18

Table 1–11: SMS Transaction Detail Reports-Line 5 Interchange Reimbursement Fee

Data Line Field	Contents
FEE JURIS	The jurisdiction of the IRF associated with the transaction.
ROUTING	The transaction routing which helps determine the IRF.
FEE LEVEL	The name of the IRF associated with the transaction.
FPI	Reimbursement fee assessed to the transaction.

1.7 Clearing Timeliness

Clearing timeliness for LAC programs is calculated by excluding the purchase date, Central Processing Date (CPD) and Sundays.

Table 1–12: 3-Day Clearing Timeliness Table

Purchase Date	Latest BASE II CPD
Sunday	Thursday
Monday	Friday
Tuesday	Saturday
Wednesday	Monday
Thursday	Tuesday
Friday	Wednesday
Saturday	Thursday

Note: Settlement holidays do not affect the clearing timeliness calculation.

2 Intraregional Interchange Rates Summary

Table below lists current interchange rate structure applicable to LAC intraregional transactions

2.1 LAC Regional Rates

Table 2–1: LAC Regional Interchange Rates

Interchange Fee Program	Rate
Global Flexible Rate B2B Virtual Program	Varies Per Program
Global B2B Virtual Payments Registered Program	Varies Per Program
Global B2B Virtual Payments	2.00%
Global Loyalty Statement Credits	No Fee Assessed (0.00)
Visa Direct Payouts	No Fee Assessed (0.00)
LAC Regulated Debit ¹	US \$0.22 + 0.05%
Costa Rica Merchant	1.00%
LAC Base Premium	1.85%
LAC Base Super Premium	1.98%
LAC Base Business	2.00%
LAC Base Corporate	2.00%
LAC Base Purchasing	2.00%
LAC Base Non-Premium	1.10%
LAC Alternative Premium	1.85%
LAC Alternative Super Premium	1.98%

¹ For Top Up and Card Payment, the OCT fee flow is atypical: Recipient (Issuer) pays the Originator (Acquirer))		

4 POS U.S. Debit Regulated Fee Program– Technical Requirements

In order to comply with the provisions of the Dodd-Frank Act, on October 1st, 2011, Visa introduced interchange structures to support interregional regulated transactions between U.S. territories, as well as between the U.S. and U.S. territories.

Regulated fee programs will apply to the following products when issued from regulated account ranges. Regulated interchange fee programs are not assessed on:

- ATM and Manual Cash Disbursement transactions
- Original Credit transactions

4.1 U.S. Territory Interregional Regulated Debit Fee Program

4.1.1 Program Processing Rules

4.1.1.1 Eligible Products

Table 4–1: List of products eligible for Interregional Interlink Regulated Fee Program

Account Funding Source (AFS) ¹	Product ID (PID)	Global Product ID (PID) Description ²
Any applicable AFS	Any applicable PID with Interlink mark	Name associated with PID
¹ AFS is determined based on the Product availability in the applicable jurisdiction (Region or country). Valid AFS are: C (Credit), D (Debit), P (Prepaid), H (Charge), R (Deferred Debit)		
² Regional Product names might differ from the Global Product ID description		

Note:

- Products are defined by an announced AFS and PID combination.
- Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products by market

LAC Intraregional IRF Guide: Visa Supplemental Requirements

Table 4–2: List of Visa products eligible for Regulated Debit Fee Program

Account Funding Source (AFS) ¹	Product ID (PID)	Global Product ID (PID) Description ²
D, P	Any applicable PID	Name associated with PID
¹ AFS is determined based on the Product availability in the applicable jurisdiction (Region or country). Valid AFS are: C (Credit), D (Debit), P (Prepaid), H (Charge), R (Deferred Debit)		
² Regional Product names might differ from the Global Product ID name description		

Note:

- Products are defined by an announced AFS and PID combination.
- Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products by market.

4.1.1.2 Transaction Types

Visa transactions include Sales Drafts (TCX5) originals and non-originals including Credit Vouchers (TCX6) and their V.I.P. full financial equivalents.

BASE II Originals: TC05 and TC25 with TCQ 0/TCQ 1 and usage code 1

V.I.P. Full Financial Originals: V.I.P. Full Financial equivalents of TC05 and TC25 with TCQ 0 and TCQ 1 with usage code 1

BASE II and V.I.P. Full Financial Non-Originals: TC06 and TC26 with TCQ 0/TCQ 1 and a usage code of 1 and their V.I.P. full financial equivalent messages

4.1.1.3 Fee Edit and Reclassification Criteria

The LAC Regional processing rules and fee edit criteria that will apply to POS transactions including credit voucher transactions are listed in the following table.

Table 4–3: Fee Edit Criteria for LAC U.S. Territory Regulated Debit Fee Program for POS transactions including Credit Voucher Transactions

Fee Edit Criteria	Processing Rule
POS transactions including credit voucher transactions must meet the following conditions: - LAC Regional transaction jurisdiction - Issuer or Acquirer in U.S. territory (Puerto Rico or U.S. Virgin Islands) - Regulated card range - Visa or Interlink transaction - Must continue to meet valid clearing data and additional data requirements defined for any existing interregional fee program	Regulated debit and prepaid POS transactions that meet existing LAC Regional fee programs will qualify for the regional Debit fee descriptors and rates.

4.1.2 Fee Descriptors and Rates

The following table lists the applicable fee descriptors and rates

Table 4–4: LAC U.S. Territory Regional Regulated Debit Fee Program

Fee Program	Fee Descriptor	Rate
LAC Regulated Debit	LAC REGULATED DB	US \$ 0.22 + 0.05%

The fee descriptor and rate apply to transactions from regulated debit and prepaid card ranges. The regulated debit fee rate includes the US \$0.01 fraud prevention interchange adjustment for certified issuers. Issuers who have not certified their compliance with the interim fraud prevention standards will be subject to a manual adjustment process to ensure that the interchange fees received on regulated transactions are not greater than the Federal Reserve regulated cap of 0.05%+ US \$0.21.

Fee descriptors appear in the following settlement reports:

- VSS–130 and VSS–130–M
- VSS-135

5 Interlink Interchange Reimbursement Fee Program

5.1 AFT Fee Program for Non-Regulated Non-Visa Branded Products

5.1.1 Program Processing Rules

5.1.1.1 Eligible Products

Table 5–1: List of products eligible for Interlink AFT Fee Program for Non-Regulated Non-Visa Branded Products

Issuer Country	Account Funding Source (AFS) ¹	Product Brand
- Puerto Rico - U.S. Virgin Islands	D, P	Non- Visa
¹ AFS is determined based on the Product availability in the applicable jurisdiction (Region or country). Valid AFS are: C (Credit), D (Debit), P (Prepaid), H (Charge), R (Deferred Debit)		

Note:

- Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products by market.

5.1.1.2 Transaction Types

- V.I.P. Full Financial Message Sets:** 0200/0210, 0220/0230, 0400/0410, and 0420/0430.
- Processing Network (VIP Field 63.1):** 0003 (Interlink)

5.1.1.3 Fee Edit and Reclassification Criteria

The LAC regional processing rules and fee edit criteria that will apply to account funding transactions are listed in the following table.

LAC Intraregional IRF Guide: Visa Supplemental Requirements

Table 5–2: Fee Edit Criteria for Interlink AFT Fee Program for Non-Regulated Non-Visa Branded Products Transactions

Fee Edit Criteria	Processing Rule
Account Funding transactions must meet the following conditions: • Interlink transaction • LAC Regional transaction jurisdiction • Non-Regulated Non-Visa branded product issued in U.S. territory (Puerto Rico or U.S. Virgin Islands) • Meets data elements as per Table 5-3	LAC Regional interlink AFTs will qualify for the Interlink AFT Fee Program for Non-Regulated Non-Visa Branded Products fee descriptors, and rates.

Table 5–3: Interlink AFT Fee Program for Non-Regulated Non-Visa Branded Products Key Data Elements

Data Element	BASE II TC Field	V.I.P. Field	Value
Processing Code	N/A	Field 3	10 (Account funding) 02 (adjustment – debit) 22 (adjustment – credit)
Point-of-Service Entry Mode Code	N/A	Field 22	01 (Manual (key entry)) or 10 (Credential on file: Transaction initiated using a credential that has previously been stored on file)
Message Reason Code (If processing code is 02 or 22)	N/A	Field 63.3	2140 (Account funding transaction: debit or credit adjustment)

5.1.2 Fee Descriptors and Rates

The following table lists the applicable fee descriptors and rates

Table 5–4: Interlink AFT Fee Program for Non-Regulated Non-Visa Branded Products Fee Program

AFT BAI	Fee Descriptor	Fee Rate
AA - Account to Account	ILK AFT AA LAC	1.10%
PP - Person to Person	ILK AFT PP LAC	1.10%
TU - Top Up	ILK AFT TU LAC	1.10%
FD - Fund Disbursement (General)	ILK AFT FD LAC	1.10%
PD - Payroll Disbursement	ILK AFT PD LAC	1.10%
LO -Loyalty	ILK AFT LO LAC	1.10%
MP - Merchant Payment	ILK AFT MP LAC	1.10%
FT - Funds Transfer	ILK AFT FT LAC	1.10%
WT - Wallet Transfer	ILK AFT WT LAC	1.10%
Any other BAI	ILK AFT LAC	1.10%

Fee descriptors appear in the following settlement reports:

- VSS–130 and VSS–130–M
- VSS–135

6 Global Fee Programs

A Global Fee Program is a program that applies to specific product(s), service(s) and/or transactions. The program applies to all jurisdictions and settlement services, the same fee program criteria, descriptor and rate is assessed to all transactions eligible for the global program.

The following existing Global Programs apply to internationally settled transactions

- Global Flexible Rate B2B Virtual Program
- Global B2B Virtual Payments Registered Program
- Global B2B Virtual Payments
- Global Loyalty Statement Credits

6.1 Global Flexible Rate B2B Virtual Program

Visa's Flexible Rate B2B Virtual Program includes a Visa Commercial service offering through which issuers and buyers can support commercial agreements with acquirers and suppliers through tiered interchange rates that are implemented at the account range level.

These commercial agreements are considered bilateral agreements and allow buyers and suppliers to negotiate interchange rates.

These bilaterally agreed-upon rates will apply to interregional, intraregional, and domestic B2B transactions between commercial buyers using virtual accounts to support non-travel purchases for goods and services.

Account Funding Transactions are not currently permitted for the Global B2B Virtual Program product.

For additional information about the Visa Commercial Choice Omni Product products, contact your account representative.

6.1.1 Program Processing Rules

6.1.1.1 Eligible Products

Table 6–1: List of products eligible for Visa Flexible Rate B2B Virtual Fee Program

Account Funding Source (AFS) ¹	Product ID (PID)	Global Product ID (PID) Description ²
C, P, R	X1	Visa Commercial Choice Omni
¹ AFS is determined based on the Product availability in the applicable jurisdiction (Region or country). Valid AFS are: C (Credit), D (Debit), P (Prepaid), H (Charge), R (Deferred Debit)		
² Regional Product names might differ from the Global Product ID name description		

Note:

- Products are defined by an announced AFS and PID combination.
- Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products by market.

6.1.1.2 Transaction Types

- **BASE II Originals:** TC 05 and TC 25 with usage code 1 and TCQ value of 0
- **V.I.P. Full Financial Originals:** V.I.P full financial equivalent messages of TC 05 and TC 25 with usage code 1 and TCQ value of 0
- **BASE II and V.I.P Full Financial Non-Originals:** TC 06 and TC 26 with usage code of 1 and TCQ value of 0 and their V.I.P full financial equivalent messages

6.1.1.3 Fee Edit and Reclassification Criteria

The intraregional processing rules and fee edit criteria are listed in the following table.

Table 6–2 Fee Edit Criteria for Flexible Rate B2B Virtual Fee Program

Fee Edit Criteria	Processing Rule
Purchase and credit voucher transactions must meet the following conditions: • Intraregional transaction jurisdiction • AFS/PID combination from Table 6-1 • Reimbursement Attribute (BASE II Draft Data, TCR 0, position 168 or V.I.P. Field 63.11) any valid value • Positions 84–85, B2B Program Identification (ID), ARDEF Value Table Detail Record is a valid value as listed in Table 6-3	Purchase and credit voucher transactions that meet program edit criteria will qualify for the Flexible Rate B2B Virtual Fee Program, fee descriptor and rate. Note: – If program fee edit criteria is met, the Flexible Rate B2B Virtual Fee Program will take precedence over any existing merchant verification value (MVV) programs, Member-Supplied Interchange (MSI) programs and the Visa Partner Program (VPP)

Important:

- Visa Commercial Choice Omni Products transactions must always be authorized and have a POS EM value of **01** (Manual (Key Entered))

6.1.1.4 Flexible Rate B2B Virtual Fee Program Interchange Rates

The following table shows the interchange rates available for this program

Table 6–3: Visa Flexible Rate B2B Virtual Fee Program Interchange Rates

B2B Program Identification	B2B Program ID Description	Rate
A1	B2B Program 1	0.80%
A2	B2B Program 2	1.00%
A3	B2B Program 3	1.20%
A4	B2B Program 4	1.40%
A5	B2B Program 5	1.60%
A6	B2B Program 6	1.80%
A7	B2B Program 7	2.00%
A8	B2B Program 8	0.90%
A9	B2B Program 9	1.10%
B1	B2B Program 10	1.30%
B2	B2B Program 11	1.50%
B3	B2B Program 12	1.70%
B4	B2B Program 13	1.90%

6.1.2 Fee Descriptors and Rates

The following table lists the applicable fee descriptor and rate

Table 6–4: Visa Flexible Rate B2B Virtual Program Fee Program

Fee Program	Fee Descriptor	Rate
Flexible Rate B2B Virtual Program	B2B FLXBL PRGM	Refer to Visa Flexible Rate B2B Virtual Fee Program Interchange Rates in Table 6-3

Fee descriptors appear in the following settlement reports:

- VSS–130 and VSS–130–M
- VSS–135

6.2 Global B2B Virtual Payments Registered Fee Program

Visa's Global B2B Virtual Payments Registered Program is a global interchange reimbursement fee program available to Visa Commercial Choice Travel Product cards' transactions (interregional, regional and domestic) made at eligible Merchant Category Codes (MCCs)

This program provides flexibility and allows for greater acceptance across the B2B Travel segment by allowing Issuers to choose from a pre-set list of rates and leverage these based on business agreements between their OTA clients and travel suppliers.

Account Funding Transactions are not currently permitted for Visa Commercial Choice Travel Products.

For additional information about B2B Virtual Payments Registered Program, contact your account representative.

6.2.1 Program Processing Rules

6.2.1.1 Eligible Products

Table 6–5: List of products eligible for B2B Virtual Payments Registered Fee Program

Account Funding Source (AFS) ¹	Product ID (PID)	Global Product ID (PID) Description ²
C, P, R	X^	Visa Commercial Choice Travel
¹ AFS is determined based on the Product availability in the applicable jurisdiction (Region or country). Valid AFS are: C (Credit), D (Debit), P (Prepaid), H (Charge), R (Deferred Debit)		
² Regional Product names might differ from the Global Product ID name description		

Note:

- Products are defined by an announced AFS and PID combination.
- Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products by market.

6.2.1.2 Transaction Types

- **BASE II Originals:** TC 05 and TC 25 with usage code 1 and TCQ value of 0
- **V.I.P. Full Financial Originals:** V.I.P full financial equivalent messages of TC 05 and TC 25 with usage code 1 and TCQ value of 0
- **BASE II and V.I.P Full Financial Non-Originals:** TC 06 and TC 26 with usage code of 1 and TCQ value of 0 and their V.I.P full financial equivalent messages

6.2.1.2.1 Eligible Merchant Category Codes (MCC)

The Global B2B Virtual Payments fee program currently apply to merchants with Merchant Category Codes (MCCs) as per list below:

Table 6–6 B2B Virtual Payments Registered Fee Program Eligible MCCs

MCC & MCC Description	MCC & MCC Description
MCC 3000–3350 —Airlines, air carriers	MCC 6513 — Real estate agents and managers
MCC 3351–3500 — Car rental agencies	MCC 7011 — Lodging – hotels, motels, resorts, central reservation services (not elsewhere classified)
MCC 3501–3999 —Lodging – hotels, motels, resorts	MCC 7012 —Timeshares
MCC 4111 — Local and suburban commuter passenger transportation, Including ferries	MCC 7032 — Sporting and recreational camps
MCC 4112 — Passenger railways	MCC 7033 — Trailer parks and campgrounds
MCC 4121 — Taxicabs and limousines	MCC 7298 — Health and beauty spas
MCC 4131 — Bus lines	MCC 7512 — Automobile rental agency
MCC 4411 — Steamship and cruise lines	MCC 7513 — Truck and utility trailer rentals
MCC 4511 — Airlines and air carriers (not elsewhere classified)	MCC 7519 — Motor home and recreational vehicle rentals
MCC 4582 — Airports, flying fields, and airport terminals	MCC 7832 — Motion picture theaters
MCC 4722 — Travel agencies and tour operators	MCC 7922 — Ticket agencies and theatrical producers (except motion pictures)
MCC 4789 — Transportation services (not elsewhere classified)	MCC 7991 — Tourist attractions and exhibits
MCC 5812 — Eating places and restaurants	MCC 7992 —Public golf courses

MCC & MCC Description	MCC & MCC Description
MCC 5813 — Drinking places (alcoholic beverages) – bars, taverns, nightclubs, cocktail lounges, and discotheques	MCC 7996 — Amusement parks, circuses, carnivals, and fortune tellers
MCC 5814 — Fast food restaurants	MCC 7997 — Membership clubs (sports, recreation, athletic), country clubs, and private golf courses
MCC 5962 — Direct marketing – travel-related arrangement services	MCC 7999 — Recreation services (not elsewhere classified)
MCC 5992 — Florists	MCC 9399 — Government services (not elsewhere classified)

6.2.1.3 Fee Edit and Reclassification Criteria

The intraregional processing rules and fee edit criteria is listed in the following table.

Table 6–7: Fee Edit Criteria for Global B2B Virtual Payments Registered Fee Program

Fee Edit Criteria	Processing Rule
Purchase and credit voucher transactions must meet the following conditions: • Intraregional transaction jurisdiction • AFS/PID combination from Table 6-5 • Reimbursement Attribute (BASE II Draft Data, TCR 0, position 168 or V.I.P. Field 63.11) any valid value • Merchant category code (MCC) is in Table 6-6 • Positions 84–85, B2B Program Identification (ID), ARDEF Value Table Detail Record is a valid value as listed in Table 6-8,	Intraregional purchase and credit voucher transactions that meet program edit criteria will qualify for the Global B2B Virtual Payments Registered fee descriptor and rate. Notes: – If program fee edit criteria is met, the B2B Virtual Payments Registered Program will take precedence over any existing Merchant Verification Value (MVV) based programs such as Member-Supplied Interchange (MSI) programs and the Visa Partner Program (VPP) – Transactions that do not meet program edit criteria will be assessed an existing Purchasing product fee program for the applicable transaction jurisdiction.

Important:

- Visa Commercial Choice Travel products' transactions must always be authorized and have a POS EM value of **01** (Manual (Key Entered))

6.2.1.4 B2B Virtual Payment Registered Program Interchange Rates

The following table shows the interchange rates available for this program

Table 6–8: B2B Virtual Payments Registered Fee Program Interchange Rates

B2B Program Identification	B2B Program ID Description	Rate
A1	B2B Program 1	0.80%
A2	B2B Program 2	1.00%
A3	B2B Program 3	1.20%
A4	B2B Program 4	1.40%
A5	B2B Program 5	1.60%
A6	B2B Program 6	1.80%
A8	B2B Program 8	0.90%
A9	B2B Program 9	1.10%
B1	B2B Program 10	1.30%
B2	B2B Program 11	1.50%
B3	B2B Program 12	1.70%
B4	B2B Program 13	1.90%

6.2.2 Fee Descriptors and Rates

The following table lists the applicable fee descriptor and rate

Table 6–9: Global B2B Virtual Payments Registered Fee Program

Fee Program	Fee Descriptor	Rate
Global B2B Virtual Payments Registered Program	B2B RGSTRD PRGM	Refer to B2B Virtual Payments Registered Fee Program Interchange Rates Table 6-8

Fee descriptors appear in the following settlement reports:

- VSS–130 and VSS–130–M
- VSS–135

6.3 Global B2B Virtual Payments Fee Program

Visa's Global B2B Virtual Payments Fee Program is a global interchange reimbursement fee program available to Visa Commercial Choice Travel products' transactions (interregional, regional and domestic) made at eligible Merchant Category Codes (MCCs).

Clients that submit intraregional purchase and credit voucher/merchandise return transactions will receive the Global B2B Virtual Payments product-specific fee descriptor and rate if program criteria are met.

Account Funding Transactions are not currently permitted for Global B2B Virtual Payments product.

6.3.1 Program Processing Rules

6.3.1.1 Eligible Products

Table 6–10: List of products eligible for Global B2B Virtual Payments Fee Program

Account Funding Source (AFS) ¹	Product ID (PID)	Global Product ID (PID) Description ²
C, P, R	X^	Visa Commercial Choice Travel
¹ AFS is determined based on the Product availability in the applicable jurisdiction (Region or country). Valid AFS are: C (Credit), D (Debit), P (Prepaid), H (Charge), R (Deferred Debit)		
² Regional Product names might differ from the Global Product ID name description		

Note:

- Products are defined by an announced AFS and PID combination.
- Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products by market.

6.3.1.2 Transaction Types

- **BASE II Originals:** TC 05 and TC 25 with usage code 1 and TCQ value of 0
- **V.I.P. Full Financial Originals:** V.I.P full financial equivalent messages of TC 05 and TC 25 with usage code 1 and TCQ value of 0
- **BASE II and V.I.P Full Financial Non-Originals:** TC 06 and TC 26 with usage code of 1 and TCQ value of 0 and their V.I.P full financial equivalent messages

6.3.1.2.1 Eligible Merchant Category Codes (MCC)

The Global B2B Virtual Payments fee program currently apply to merchants with Merchant Category Codes (MCC) as per list below:

Table 6–11: Global B2B Virtual Payments Fee Program eligible MCCs

MCC & MCC Description	MCC & MCC Description
MCC 3000–3350 —Airlines, air carriers	MCC 6513 — Real estate agents and managers – rentals
MCC 3351–3500 — Car rental agencies	MCC 7011 — Lodging – hotels, motels, resorts, central reservation services (not elsewhere classified)
MCC 3501–3999 —Lodging – hotels, motels, resorts	MCC 7012 —Timeshares
MCC 4111 — Local and suburban commuter passenger transportation, Including ferries	MCC 7032 — Sporting and recreational camps
MCC 4112 — Passenger railways	MCC 7033 — Trailer parks and campgrounds
MCC 4121 — Taxicabs and limousines	MCC 7298 — Health and beauty spas
MCC 4131 — Bus lines	MCC 7512 — Automobile rental agency
MCC 4411 — Steamship and cruise lines	MCC 7513 — Truck and utility trailer rentals
MCC 4511 — Airlines and air carriers (not elsewhere classified)	MCC 7519 — Motor home and recreational vehicle rentals
MCC 4582 — Airports, flying fields, and airport terminals	MCC 7832 — Motion picture theaters
MCC 4722 — Travel agencies and tour operators	MCC 7922 — Ticket agencies and theatrical producers (except motion pictures)
MCC 4789 — Transportation services (not elsewhere classified)	MCC 7991 — Tourist attractions and exhibits
MCC 5812 — Eating places and restaurants	MCC 7992 — Public golf courses
MCC 5813 — Drinking places (alcoholic beverages) – bars, taverns, nightclubs, cocktail lounges, and discotheques	MCC 7996 — Amusement parks, circuses, carnivals, and fortune tellers
MCC 5814 — Fast food restaurants	MCC 7997 — Membership clubs (sports, recreation, athletic), country clubs, and private golf courses
MCC 5962 — Direct marketing – travel-related arrangement services	MCC 7999 — Recreation services (not elsewhere classified)
MCC 5992 — Florists	MCC 9839 — Government services (not elsewhere classified)

6.3.1.3 Fee Edit and Reclassification Criteria

The intraregional processing rules and fee edit criteria is listed in the following table.

Table 6–12 Fee Edit Criteria for Global B2B Virtual Payments Fee Program

Fee Edit Criteria	Processing Rule
Purchase and credit voucher transactions must meet the following conditions: • Intraregional transaction jurisdiction • AFS/PID combination from Table 6-10 • Reimbursement Attribute (BASE II Draft Data, TCR 0, position 168 or V.I.P. Field 63.11) any valid value • Merchant category code (MCC) is in Table 6-11	Intraregional purchase and credit voucher transactions that meet program edit criteria will qualify for the Global B2B Virtual Payments fee descriptor and rate. Note: Transactions that do not meet program edit criteria will be assessed an existing Purchasing product fee program for the applicable transaction jurisdiction.

6.3.2 Fee Descriptors and Rates

The following table lists the applicable fee descriptor and rate

Table 6–13: Global B2B Virtual Payments Fee Program

Fee Program	Fee Descriptor	Rate
Global B2B Virtual Payments	GLB B2B VTL PYMT	2.00%

Fee descriptors appear in the following settlement reports:

- VSS–130 and VSS–130–M
- VSS–135

6.4 Global Loyalty Statement Credits Fee Program

Visa Loyalty Services provides participating issuers, merchants, and third parties with marketing and loyalty programs that tie rewards, discounts, and other offers to the use of a Visa payment product. Cardholders can receive the fulfillment of these offers via statement credits. Visa Loyalty Services monitors VisaNet-settled transactions to identify when a promotion requirement has been met by an eligible cardholder.

This fee program does not impact acquirers. Loyalty Statement Credit transactions are Visa-generated transactions.

Jurisdiction	Interregional
Settlement Service	International-settled
Account Funding Source (AFS)	Any applicable Visa branded products (AFS/Product ID) combination.
Products	

6.4.1 Transaction Types

- **BASE II and V.I.P. Full Financial Non-Originals:** TC 06 and TC 26 with a usage code of 1 with TCQ of 0 and TCQ of 1 and their V.I.P. Full Financial equivalent messages

6.4.1.1 Processing Rules and Fee Edit Criteria

Table 6–14: Fee Edit Criteria for Global Loyalty Statement Credits Transactions

Data Element	BASE II TC Field	V.I.P. Field	Value
Business Application Identifier (BAI)	TCR 3 BAI in pos. 15-16 or 19-201	Field 104, Usage 2, Dataset ID 57, Tag 01	LO
Sender Data		Field 104, Usage 2, Dataset ID 5F, Tag 01	VDMMRTTC10 (Loyalty MRT TC10) Or VDMMRTLOYL (Loyalty MRT LOYL)

6.4.2 Fee Descriptors and rates

Qualifying credit voucher transactions will receive fee descriptor shown in the following table.

Table 6–15: Global Loyalty Statement Credits Fee Program

Fee Descriptor	Rate
GLB LYTL STMTCRT	No Fee Assessed (0.00)

Fee descriptors appear in the following settlement reports:

- VSS–130 and VSS–130–M
- VSS–135

7 LAC POS Interchange Fee Programs - Technical Requirements

This section outlines all current POS LAC regional interchange programs, fee program indicators, fee descriptors and rates applicable to POS transactions including credit voucher transactions, Account Funding Transactions (AFTs), and Mobile Push Payment (MPP) transactions submitted or received by acquirers and issuers in LAC.

7.1 Visa Partner Program (VPP) Fee Program

Visa Partner Program (VPP) is a customized Merchant Verification Value (MVV) based-program available to acquirers with merchants that have established formal partnership agreements with Visa.

A valid merchant verification value (MVV) will be assigned for merchants that meet certain eligibility requirements. VPP program requirements are unique for each participating merchant. Visa will inform the Acquirer of each eligible merchant of the specific program requirements for each agreement.

The assigned MVV must be submitted in all eligible clearing transactions to receive VPP merchant-specific interchange reimbursement fees.

Applicable LAC intraregional transactions will be eligible for VPP interchange reimbursement fees depending on a number of factors that may include:

- Eligible POS or Mobile Push Payment transactions
- Eligible product types
- Required fee edit criteria

7.1.1 New Acquirer-Merchant Relationships

Acquirers are required to notify Visa if they begin to acquire for a merchant that has a VPP Program with Visa. An acquirer's failure to notify Visa of a new merchant relationship may result in that merchant's transactions not being assessed the VPP Program rates.

7.1.2 Acquiring Identifier Registration

All acquirers or acquirer processors of merchants with a VPP Program must notify Visa in writing the acquiring identifiers they will use to process program volume with Visa.

7.1.3 Program Processing Rules

7.1.3.1 Eligible Products

Visa will inform the Acquirer of each eligible merchant of the specific program requirements for each agreement including eligible Visa product types.

Table 7-1: List of products eligible for Visa Partner Program (VPP) Fee Program

Account Funding Source (AFS) ¹	Product ID (PID)	Global Product ID (PID) Description ²
Varies per agreement	Varies per agreement	Varies per agreement
¹ AFS is determined based on the Product availability in the applicable jurisdiction (Region or country). Valid AFS are: C (Credit), D (Debit), P (Prepaid), H (Charge), R (Deferred Debit)		
² Regional Product names might differ from the Global Product ID description		

Note:

- Products are defined by an announced AFS and PID combination.
- Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products by market.

7.1.3.2 Transaction Types

Visa transactions include Sales Drafts (TCX5) originals and non-originals including Credit Vouchers (TCX6) and their V.I.P. full financial equivalents.

BASE II Originals: TC05 and TC25 with TCQ 0/TCQ 1 and usage code 1

V.I.P. Full Financial Originals: V.I.P. equivalent messages of

- TC 05 and TC 25 with usage code 1 with TCQ of 0 and TCQ of 1
- TC 06 and TC 26 with usage code 1 with TCQ of 2 with a BAI of MP (Merchant Payment)

BASE II and V.I.P. Full Financial Non-Originals: TC06 and TC26 with TCQ 0/TCQ 1 and a usage code of 1 and their V.I.P. full financial equivalent messages

7.1.3.3 Fee Edit and Reclassification Criteria

The LAC Region processing rules and fee edit criteria are listed in the following table.

Table 7–2: Fee Edit Criteria for Visa Partner Program (VPP) Fee Program

Fee Edit Criteria	Processing Rule
Purchase, credit voucher and Mobile Push Payment transactions must meet the following conditions: • LAC Regional transaction jurisdiction • Any applicable AFS/Product ID combination, as per VPP program. • Merchant Verification Value (BASE II Draft Data, TCR 5, positions 82–91, or V.I.P. field 62.20) contains a valid value for a merchant participating in VPP. • Valid Acquiring Identifier/Merchant Verification Value relationship • Additional data elements, specific to each VPP program as notified by Visa, are present	Visa products eligible for the unique VPP arrangement will receive the VPP fee descriptor and applicable rate.

7.1.4 Fee Descriptors and Rates

The following table lists the applicable fee descriptor and rate

Table 7–3: Visa Partner Program (VPP) Fee Program

Fee Program	Fee Descriptor	Fee Rate
Visa Partner Program	VISA PART PRGM	Varies by agreement

Fee descriptors appear in the following settlement reports:

- VSS–130 and VSS–130–M
- VSS–135

7.2 Costa Rica Merchant Fee Program

Selected LAC regional purchase, credit voucher and mobile push payment transactions originating from merchants in Costa Rica will be assessed the Costa Rica Merchant Fee Program fee descriptors and rates.

7.2.1 Program Processing Rules

7.2.1.1 Eligible Products

Table 7–4: List of products eligible for Costa Rica Merchant Fee Program

Account Funding Source (AFS) ¹	Any applicable Visa branded product (AFS/Product ID) combination
Product ²	
¹ AFS is determined based on the Product availability in the applicable jurisdiction (Region or country). Valid AFS are: C (Credit), D (Debit), P (Prepaid), H (Charge), R (Deferred Debit)	
² Regional names might differ from the Global Product ID description	

Note:

- Products are defined by an announced AFS and PID combination.
- Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products by market

7.2.1.2 Transaction Types

Visa transactions include Sales Drafts (TCX5) originals and non-originals and their V.I.P. full financial equivalents and Mobile Push Payment transactions.

BASE II Originals: TC05 and TC25 with TCQ 0/TCQ 1 and usage code 1

V.I.P. Full Financial Originals: V.I.P. equivalent messages of

- TC 05 and TC 25 with usage code 1 with TCQ of 0 and TCQ of 1
- TC 06 and TC 26 with usage code 1 with TCQ of 2 with a BAI of MP (Merchant Payment)

7.2.1.3 Fee Edit and Reclassification Criteria

LAC Regional processing rules and fee edit criteria that apply to POS transactions and mobile push payment transactions are listed in the following table

Table 7-5: Fee Edit Criteria for Costa Rica Merchant Fee Program

Fee Edit Criteria	Processing Rule
Purchase and Mobile Push Payment transactions must meet the following conditions: • LAC Regional transaction jurisdiction • Acquirer and Merchant location is Costa Rica • AFS/PID combination from Table 7-4 • Merchant category code (MCC) must be in Table 7-6 • Reimbursement attribute can be any valid value • For Visa B2B Virtual Payments (PID X^): also: ○ Merchant category code (MCC) is also listed in Table 6-11 ○ Positions 84–85, B2B Program Identification (ID), ARDEF Value Table Detail Record is empty or doesn't have a value listed in B2B Virtual Payments Registered Program Interchange Rates is in Table 6-8	Regional POS transactions and mobile push payment original credit transactions for eligible products will qualify for the LAC Costa Rica Merchant fee descriptor and rate.

7.2.1.4 Eligible Merchant Category Codes

The Costa Rica Merchant fee program applies to merchants with the following Merchant Category Codes (MCCs):

Table 7-6: Eligible MCCs -Costa Rica Merchant Fee Program

MCC & MCC Description	MCC & MCC Description
MCC 4111 —Local and suburban commuter passenger transportation, Including ferries	MCC 5541 — Service stations (with or without ancillary services)
MCC 4112 — Passenger railways	MCC 5542 — Automated fuel dispensers
MCC 4121 —Taxicabs and limousines	MCC 5552 — Electric vehicle charging
MCC 4131 — Bus lines	MCC 8398 — Charitable social service organizations
MCC 4784 — Steamship and cruise lines	

7.2.2 Fee Descriptor and Rate

The following table lists the applicable fee descriptor and rate

Table 7–7: Costa Rica Merchant Fee Program

Fee Program	Fee Descriptor	Fee Rate
Costa Rica Merchant	CRI REG MSGRP	1.00%

Fee descriptors appear in the following settlement reports:

- VSS–130 and VSS–130–M
- VSS–135

7.3 LAC Base, Alternative and Downgrade Fee Programs

Selected LAC Regional purchase and account funding transactions will be assessed the product-specific Base fee program fee descriptors and rates.

7.3.1.2 LAC Base Fee Programs

7.3.1.2.1 Transaction Types

- **BASE II Draft Data:**
 - **Purchase:** TC 05 and TC 25 with TCQ0 and usage code of 1
 - **Account funding transactions:** TC 05 and TC 25 with TCQ1; and TC 06 and TC 26 with TCQ1 and usage code of 1
- **V.I.P. Full Financial Message Sets:**
 - V.I.P full financial messages equivalent to those of the Base II Draft data above

7.3.1.2.2 Fee Edit and Reclassification Criteria

The LAC regional processing rules and fee edit criteria are listed in the following table.

Table 7–14: Fee Edit Criteria for Base Fee Program

Fee Edit Criteria	Processing Rule
Purchase and account funding transactions must meet the following conditions: • LAC regional transaction jurisdiction • Reimbursement Attribute (BASE II Draft Data, TCR 0, position 168 or V.I.P. Field 63.11) must be B. • POS Entry Mode must be 02, 05, 07, 90, 91 or 95 • Must be authorized with: – Valid authorization code and the last five positions of the code must not be all spaces, all zeros, four zeros followed by a space or N¹ or – Authorization response code Y1 (Offline-approved) or Y3 (Unable to go online; offline-approved) • Clearing timeliness must be within 3 days²	LAC Regional purchase and account funding transactions for eligible products will qualify for the existing product-specific Base fee program, fee descriptors and rates.
¹ If the transaction does not meet this edit criteria, it will be returned/reclassified with Reason Code "17" (The authorization code is invalid). This reclassification applies only to BASE II Purchases and reversals (TC 05/TC 25). ² Purchasing date, central processing date and Sundays are excluded. If the transaction does not meet this edit criteria, it will be returned/reclassified with Reason Code 1R (A transaction does not meet the timeliness criteria established for the requested interchange reimbursement fee)	

7.3.1.2.3 Fee Descriptors and Rates

The following table lists the applicable fee descriptors and rates

Table 7–15: LAC Base Fee Program

Fee Program	Fee Descriptor	Rate
Premium	LAC PREMIUM	1.85%
Super Premium	LAC SPR PREMIUM	1.98%
Business	LAC-BUS	2.00%
Corporate	LAC-CORP	2.00%
Purchasing	LAC-PURCH	2.00%
Non-Premium	LAC NONPRM	1.10%

Fee descriptors appear in the following settlement reports:

- VSS–130 and VSS–130–M
- VSS–135

7.3.1.3 LAC Alternative Fee Programs

7.3.1.3.1 Transaction Types

- **BASE II Draft Data:**
 - **Purchase:** TC 05 and TC 25 with TCQ0 and usage code of 1
 - **Account funding transactions:** TC 05 and TC 25 with TCQ1; and TC 06 and TC 26 with TCQ1 and usage code of 1
- **V.I.P. Full Financial Message Sets:**
 - V.I.P full financial messages equivalent to those of the Base II Draft data above
- **MPP V.I.P Full Financial Message Sets:** 0200/0210 OCT with BAI of **MP** (Merchant Payments)

7.3.1.3.2 Fee Edit and Reclassification Criteria

The LAC regional processing rules and fee edit criteria is listed in the following table.

LAC Intraregional IRF Guide: Visa Supplemental Requirements

Table 7–16: Fee Edit Criteria for Alternative Fee Program

Fee Edit Criteria	Processing Rule
Purchase and account funding transactions must meet the following conditions: - LAC regional transaction jurisdiction - Reimbursement Attribute (BASE II Draft Data, TCR 0, position 168 or V.I.P. Field 63.11) must be B. - POS Entry Mode must not be 02, 05, 07, 90, 91 or 95 - Must be authorized with: - Valid authorization code and the last five positions of the code must not be all spaces, all zeros, four zeros followed by a space or N¹ - or - Authorization response code Y1 (Offline-approved) or Y3 (Unable to go online; offline-approved) - Clearing timeliness must be within 3 days² (for non-airline MCCs) or 7 days² (for airline MCCs)	LAC regional purchase and account funding transactions for eligible products will qualify for the product-specific Alternative fee program, fee descriptors and rates.
Mobile Push Payment (MPP) transaction must meet the following fee edit criteria: - Must be a Visa consumer or Visa commercial, including Small Business, product - Must meet LAC regional fee jurisdiction	LAC regional Mobile Push Payment transactions for eligible products will qualify for the product-specific Alternative fee program, fee descriptor and rates.
¹ If the transaction does not meet this edit criteria, it will be returned/reclassified with Reason Code "17" (The authorization code is invalid). This reclassification applies only to BASE II Purchases and reversals (TC 05/TC 25). ² Purchasing date, central processing date and Sundays are excluded. If the transaction does not meet this edit criteria, it will be returned/reclassified with Reason Code "1R" (A transaction does not meet the timeliness criteria established for the requested interchange reimbursement fee)	

7.3.1.3.3 Fee Descriptors and Rates

The following tables list the applicable fee descriptors and rates

Table 7–17: LAC Alternative Fee Program

Visa Product Group	Fee Descriptor	Fee Rate
Premium	LAC PRM ALT	1.85%
Super Premium	LAC SPR PRM ALT	1.98%
Business	LAC BUS ALT	2.00%

- VSS–130 and VSS–130–M
- VSS–135

7.3.1.5 LAC Credit Voucher/Merchandise Return Fee Program

7.3.1.5.1 Transaction Types

- **BASE II Draft Data:**
 - **Credit Voucher/Merchandise Returns:** TC 06 and TC 26 with TCQ0 and usage code of 1
- **V.I.P. Full Financial Message Sets:**
 - V.I.P full financial messages equivalent to those of the Base II Draft data above

7.3.1.5.2 Fee Edit and Reclassification Criteria

The LAC regional processing rules and fee edit criteria are listed in the following table.

Table 7–19: Fee Edit Criteria for Credit Voucher/Merchandise Return Fee Program

Fee Edit Criteria	Processing Rule
Credit voucher/merchandise return transactions must meet the following condition: • LAC regional transaction jurisdiction • Visa Consumer or Commercial, including Business platform products • Reimbursement Attribute (BASE II Draft Data, TCR 0, position 168 or V.I.P. Field 63.11) can be any value NOTE Reimbursement attribute value of 0 (Standard issuer/interchange reimbursement fee) is considered the default value.	LAC regional credit voucher/merchandise return transactions for eligible products will qualify for the Consumer or Commercial Credit Voucher/Merchandise Return fee program, fee descriptors and rates.

7.3.1.5.3 Fee Descriptors and Rates

The following tables list the applicable fee descriptors and rates

Table 7–20: LAC Credit Voucher/Merchandise Return Fee Program

Visa Product Platform	Acquirer and Merchant Location	Fee Descriptor	Fee Rate
Consumer, Commercial, Business	Costa Rica	CRI REG CVMR	1.00%
Consumer	All other locations	LAC CONS CVMR	1.00%
Commercial, Business		LAC COMM CVMR	1.80%

Fee descriptors appear in the following settlement reports:

- VSS–130 and VSS–130–M
- VSS–135

7.3.1.6 LAC Uncategorized Fee Program

7.3.1.6.1 Transaction Types

- **BASE II Draft Data:**
 - **Purchase:** TC 05 and TC 25 with TCQ0 and usage code of 1
 - **Account funding transactions:** TC 05 and TC 25 with TCQ1; and TC 06 and TC 26 with TCQ1 and usage code of 1
- **V.I.P. Full Financial Message Sets:**
 - V.I.P full financial messages equivalent to those of the Base II Draft data above

7.3.1.6.2 Fee Edit and Reclassification Criteria

The Uncategorized fee program is the last fee program in the interchange hierarchies. This program will be assessed to:

- Visa branded product transactions that do not qualify for any other listed fee program
- Non-Visa branded product transactions that do not qualify for an Interlink Fee Program or a non-Visa branded product-specific Transfer Pricing Fee Program

Note:

- Products are defined by an announced AFS and PID combination.
- Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products by market

7.3.1.6.3 Fee Descriptors and Rates

The following tables list the applicable fee descriptor and rate

Table 7–21: LAC Uncategorized Products Fee Program

Fee Program	Fee Descriptor	Fee Rate
LAC Uncategorized Product	LAC UNCATEGRZD	1.60%

Fee descriptors appear in the following settlement reports:

- VSS–130 and VSS–130–M
- VSS–135

8 LAC Cash Disbursements Interchange Fee Programs - Technical Requirements

8.1 LAC ATM Cash Withdrawal Fee Program

8.1.1 Program Processing Rules

8.1.1.1 Eligible Products

All applicable Visa branded products and products with the PLUS acceptance mark

Note:

- Products are defined by an announced AFS and PID combination.
- Availability of Products might be different in each jurisdiction (Region or country). Please contact your Visa Sales Representative for a list of available Products by market

8.1.1.2 Transaction Types

BASE II Originals: TC 07 and TC 27 with usage code 1

V.I.P. Full Financial Originals: V.I.P. full financial equivalents of TC 07 and TC 27 with usage code 1

8.1.1.3 Fee Edit and Reclassification Criteria

LAC Regional processing rules and fee edit criteria for ATM Disbursement transactions to qualify in this program are listed in the following tables.

Table 8–1: Fee Edit Criteria for LAC ATM Disbursement Fee Program Transactions

Data Element	BASE II TC Field	V.I.P. Field	Value
Reimbursement Attribute	TCR 0, Position 168	Field 63.11	G or 1 (Network 0004) H or 2 (Network 0002)
Merchant Category Code	TCR 0, Position 133-136	Field 18	6011
Source Amount ¹	TCR 0, Position 77-88	Field 4	Source Amount>Authorized Amount

LAC Cash Disbursements Interchange Fee Programs - Technical Requirements: LAC ATM Cash Withdrawal Fee Program

LAC Intraregional IRF Guide: Visa Supplemental Requirements

Data Element	BASE II TC Field	V.I.P. Field	Value
Requested Payment Service ²	TCR 0, Position 145	Field 62.15	9 (CPS/ATM)
ATM Business Qualifier	-	-	Must be Qualified
Central Processing Date ³	TCR 0, Position 164-167	Field 15	Within 3 days of purchase date
¹ Source amount is the sum of the authorized amount and access fee. When the source amount is smaller than the authorized amount, it will get the ATM Non-Qualified fee descriptor and rate with the reclassification reason code "HV2" (Failed amount tolerance edit—Source Amount and Authorization Amount tolerance requirements not met). The reclassification only applies to BASE II Cash Disbursement and its reversal (TC 07/27). ² When the transaction does not meet the edit criteria, it will be reclassified as ATM Non-Qualified fee descriptor and rate with reclassification reason code H0. This reclassification is only applicable to BASE II Cash Disbursement and its reversal (TC 07/27). ³ Purchase date, central processing date and Sundays are not counted. If the transaction does not meet the clearing timeliness, it will be reclassified to "ATM Non-Qualified" rate with the reclassification reason code "1R". The reclassification only applies to BASE II Cash Disbursement and its reversal (TC 07/27) for consumer product.			
ATM Access Fee Free Service

11 Disputes - Visa Claim Resolution (VCR)

The interchange or client-to-client fee amount applied to each dispute, pre-Arbitration and dispute response transaction will be the same amount assessed to the original transaction when the full amount transaction amount is disputed. For partially disputed amounts, the interchange or client-to-client amount applied will be proportionally adjusted to the amount being disputed.

Issuers and acquirers must retain and return key clearing data, including BAI and MVV, if applicable, received in original transactions when submitting dispute transactions.

Disputes transactions are:

V.I.P. Message Sets: 0220/0230, 0422/0432

BASE II Transactions: TC 05, TC 06, TC 07, TC 15, TC 16, TC 17, TC 25, TC 26, TC 27, TC 35, TC 36, TC 37 with a usage code of 9

11.1 Fee Descriptors

The following table lists of VCR fee descriptors

Table 11-1: Disputes Fee Descriptors for Dispute Financials

Description	Fee Descriptor
Dispute Financial	DISP FIN
Dispute Financial Reversal	DISP FIN RVRSL
Dispute Response Financial	DISP RESP FIN
Dispute Response Financial Reversal	DISP RESP RVRSL

Fee descriptors appear in the following settlement reports:

- VSS-130 and VSS-130-M
- VSS-135
