Interchange program qualifying criteria.....	54

- Why Mastercard uses interchange programs
- Regions in which Mastercard supports them
- Responsibilities of customers participating in the program

About interchange programs

Interchange programs specify the criteria that a transaction must meet to qualify for its associated interchange fee or rate.

Mastercard applies interchange rates as part of the clearing and settlement process.

The characteristics of the transaction that determine the applied interchange rate for the transaction are:

- Card program identifier
- Business service arrangement
- Interchange rate designator (IRD) (PDS 0158 [Business Activity], subfield 4 [Interchange Rate Designator])

An IRD represents an interchange program and its associated interchange rate.

Interchange program processing liability

Parties that process interchange programs have liabilities as defined by Mastercard.

Mastercard shall have no liability to any customer, customer processor, or other person acting on behalf of the customer for any loss, cost, or other damage arising out of or in connection with the Mastercard administration of or any customer's participation in any interchange program, whether caused by the failure of Mastercard, the customer, customer processor or other person acting on behalf of the customer to exercise ordinary care or otherwise, including, by way of example and not of limitation, any error(s), delay(s), or failure(s) by Mastercard to register a customer for, monitor a customer's use of, or suspend a customer's right to use, or by a customer to comply with the requirements of, an interchange program.

Direction of interchange rate payment

The type of transaction determines which interchange rates acquirers pay and which issuers pay.

Interchange transaction fees

Paid by acquirer	Paid by issuer
• First presentments of purchase transactions • First presentments of purchase with cash back transactions (only for use with Mastercard debit card products). The direction of interchange fees on the purchase and the cash back amounts are determined by each region and may vary by country within the region. • First presentments of unique transactions • First presentments of payment transactions • Chargebacks of credit, ATM, and cash disbursement • Second Presentments of purchase, purchase with cash back (only for use with Mastercard debit card products), unique, and payment transactions • Reversals of credit, ATM, and cash disbursements • Transactions processed within a business service arrangement that defines an interchange fee (expressed as a percentage, flat fee, or both) applied as or resulting in a debit to the acquirer	• First presentments of credit transactions • First presentments of ATM transactions • First presentments of cash disbursement transactions • Chargebacks of purchase, purchase with cash back (only for use with Mastercard Debit Card Products), unique, and payment transactions • Second Presentments of credit, ATM, and cash disbursement • Reversals of purchase, purchase with cash back (only for use with Mastercard Debit Card Products), unique, and payment transactions • Transactions processed within a business service arrangement that defines an interchange fee (expressed as a percentage, flat fee, or both) applied as or resulting in a debit to the issuer

Transaction types

Transaction type is criteria that GCMS considers when qualifying transactions for interchange programs.

Transaction types

When transaction type is ...	Then DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) value is ...
Purchase (Goods and Services)	00

When transaction type is ...	Then DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) value is ...

Cash Disbursement	12
Unique Transaction (requires unique MCC)	18
Credit (Purchase Return)	20
Payment Transaction	28
Balance Inquiry	30
PIN Unblock	91
PIN Change	92

Interchange regions

Key criteria in interchange processing are the regions in which transactions are issued and acquired.

An interchange region is a geographical area consisting of one or multiple countries in which an acquirer processes transactions and to which Mastercard applies specific interchange programs as part of the clearing and settlement process.

Mastercard currently defines six interchange regions.

- Asia/Pacific
- Canada
- Europe
- Latin America and the Caribbean
- Middle East/Africa (MEA)
- United States

Mastercard considers these countries as part of the Asia/Pacific interchange region as of Release 23.Q4.

- Bangladesh
- India
- Nepal
- Sri Lanka

Interregional interchange rates apply to transactions between issuers and acquirers in different regions. They also apply to transactions within a region (except for the U.S. region) unless a

specific intraregional, intercountry, intracountry, or customer-to-customer arrangement interchange program takes precedence.

Intraregional interchange rates apply to transactions between issuers and acquirers within a specific region.

Intracountry, intercountry, and customer-to-customer interchange rates apply to transactions between participating customers of the business service arrangement. Interchange rates are established as described in Chapter 9, "Settlement," of the *Mastercard Rules*.

The interchange rate that applies to a given transaction depends on such factors as:

- Business service arrangements in common between the issuer and acquirer
- Priority of the arrangements
- Criteria established for the interchange program and the nature of authorization and clearing

NOTE: Customer-to-customer interchange rates (Business Service Arrangement Type Code 8) are not distributed on the IPM Mastercard Parameter Extract (MPE).

Regional interchange methodology

Mastercard allows for an interchange rate determination method to streamline supporting new interchange programs and provides flexibility in defining those programs. To this end, Mastercard supports interchange rate definition by region.

To support the interchange methodology, the criteria Mastercard includes is:

- Region and country designations for each acquiring Bank Identification Number (BIN) and issuing account range
- Interchange rate designators (IRDs) associated to all business service arrangements on the IPM MPE file

The interchange region values are defined in the Interchange region values table.

Interchange region values

Region	Value in the Mastercard Consolidated Billing System (MCBS)	Value in IPM MPE Table IP0072TI: Expanded Member ID Master Table	Value in the Account Management System (AMS) region
Asia/Pacific	04	C	C
Canada	02	A	A
Europe	05	D	D
Latin America and the Caribbean	03	B	B
MEA	06	E	E

Region	Value in the Mastercard Consolidated Billing System (MCBS)	Value in IPM MPE Table IP0072TI: Expanded Member ID Master Table	Value in the Account Management System (AMS) region
United States	01	1	1

Interchange rate designator

Mastercard determines the rate to be applied to a particular transaction by identifying the region of the issuer and acquirer and by the interchange rate designator (IRD).

The IRD is presented in PDS 0158 (Business Activity), subfield 4 (Interchange Rate Designator). The IRD enables Mastercard, the issuer, and the acquirer to recognize the interchange program for which the transaction was presented throughout the life cycle of the item.

Mastercard groups the interchange programs for point-of-sale (POS) transactions by either consumer or corporate card program.

The original DE 31 (Acquirer Reference Data) and PDS 0158 (Business Activity), subfield 4 (Interchange Rate Designator) must be maintained throughout the life cycle of the transaction. This enables Mastercard, the acquirer, and the issuer to identify the transaction history and the rates that are either due or payable to them in interchange.

Occasionally, Mastercard must change the Licensed Product Identifier associated with an issuer account range. When this change occurs, any subsequent First Chargebacks/1442, Second Presentments/1240, or Arbitration Chargebacks/1442 may need to be submitted with a different IRD than the one provided in the First Presentment/1240. The different IRD is required if the new Licensed Product Identifier qualifies for a different interchange program than the Licensed Product Identifier in the First Presentment/1240.

General acquirer requirements

Regardless of the interchange program for which a transaction is submitted, an acquirer, or its designated processing agent, must abide by these requirements.

Submission requirements

These are the acquirer submission requirements.

- Submit transactions only for the interchange programs for which they qualify.
- Submit intracountry transactions only for intracountry interchange programs. If an intracountry rate structure does not differentiate between consumer and commercial rates, the acquirer submits all consumer and commercial transactions under the same rate programs.

- Submit only qualified merchants' transactions for the U.S. region and Canada region consumer credit and debit tiered interchange rate programs.
- Submit credit and reversal transactions for the same interchange rate program as the original presentment of the previously submitted, related interchange transaction, unless an interchange program or structure has been implemented for credit transactions, reversal transactions, or both.
- Submit Mastercard purchase with cash back transactions for an existing interchange program. Interchange qualification criteria and transaction editing requirements applicable to purchase (without cash back) transactions also apply to purchase with cash back transactions.

Account range requirements

These are the acquirer account range requirements.

- Submit transactions with consumer issuer account ranges only for consumer credit or debit interchange programs when different consumer and commercial rate structures have been designated.
- Submit transactions with commercial issuer account ranges only for commercial interchange rate programs when different consumer and commercial rate structures have been designated.
- For qualifying merchants in the U.S. region, submit transactions with debit card issuer account ranges only for debit card interchange rate programs.

Date requirements

These are the acquirer date requirements.

- Adhere to the definition of processing and transaction dates. Mastercard defines the processing date as the day that the customer creates the IPM transmission and is defined in Gregorian format in the File Header/1644. Generally, Mastercard defines the transaction date as the day the transaction (purchase) occurred. (For unique industry transaction date requirements, refer to the *Chargeback Guide*.)
- Supply a valid transaction date in all First Presentments/1240.
- Allow no more than the maximum number of days defined for the interchange program between the transaction date in any First Presentment/1240 and the File Header/1644 date.

Data format requirements

These are the acquirer data format requirements.

- Help ensure that the information provided in all authorization request messages and clearing messages is valid and accurate, properly identifies the transaction, and is processed in accordance with the requirements described in the *Customer Interface Specification* and *IPM Clearing Formats*.
- Process all authorization requests using the Customer Interface Specification (CIS) message format.

- Submit a First Presentment/1240 with valid values in DE 42 (Acceptor ID code), and DE 63 (Transaction Life Cycle ID), subfield 2 (Trace ID). DE 63, subfield 2 consists of the Banknet Reference Number (nine positions) followed by the Banknet Date (four positions in the format MMDD).
- Supply an accurate Mastercard acceptor business code (MCC) in DE 26 (Acceptor Business Code [MCC]), and acceptor name and location in DE 43 (Acceptor Name/Location) in all First Presentments/1240.

Records retention requirements

These are the acquirer records retention requirements.

- Maintain a record of all transactions submitted during the past 36 months and be able to demonstrate that all transactions were submitted for interchange programs for which they ultimately qualified.
- Cooperate with Mastercard staff by complying with audits and by making any required records available as requested.

Card program ID

Card program ID is a criterion that the Global Clearing Management System (GCMS) considers when qualifying transactions for interchange programs.

GCMS can recognize cards that have more than one card program identifier association for a single issuing account range. Based on information in the message and parameters maintained at Mastercard, GCMS determines the most appropriate card program identifier to use (in PDS 0158 [Business Activity], subfield 1 [Card Program Identifier]) with the transaction if the originator of the message did not submit the transaction.

Card program ID and GCMS product ID

In addition to the business service and interchange rate designator (IRD), the combination of card program ID and GCMS product ID also may be a factor in qualifying a transaction for a particular interchange program.

Each issuer's account range is assigned one or more card program IDs, each within an associated GCMS product ID. This information is stored at Mastercard and provided to customers in the IPM Mastercard Parameter Extract (MPE) file. GCMS uses this information to help determine whether a transaction qualifies for the submitted IRD.

For example, a transaction submitted with a cardholder number designated as Mastercard Corporate Fleet Card can qualify only for one of the commercial interchange programs in which Mastercard Corporate Fleet Card is eligible. The transaction is not eligible for any of the consumer interchange programs.

POS debit qualification criteria

Based on criteria in the transaction, GCMS recognizes it as a point-of-sale (POS) debit transaction.

GCMS qualifies a transaction as POS debit and applies the corresponding POS debit interchange rate if:

- Issuer account range in the transaction is assigned a debit GCMS product ID.
- Transaction contains a DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type), value of 00 (Purchase [Goods and Services]), 09 (Purchase [Goods and Services] with Cash Back [only for use with Mastercard Debit Card Products]), 18 (Unique Transaction [requires unique MCC]), or 20 (Credit [Purchase Return]).

These types of transactions are excluded from consumer debit interchange programs.

- ATM transactions (DE 3, subfield 1, value of 01)
- Cash Disbursement (DE 3, subfield 1, value of 12)
- Payment Transaction (DE 3, subfield 1, value of 28)

If the transaction meets the preceding criteria, it is identified as a POS debit transaction and the appropriate consumer debit interchange rate associated with the IRD is applied to the transaction.

Submitting commercial and consumer card account ranges

Transactions must be submitted for particular interchange programs depending on whether they are commercial or consumer transactions.

Within the business services mandated by Mastercard, an interchange program typically is designed for either consumer or commercial transactions. For customer-defined business services, an interchange program may be defined in the same manner: as either consumer or commercial, or may be set up to allow both consumer and commercial transactions.

Mastercard defines qualification criteria for each interchange program related to Card Program IDs and GCMS Product IDs, and distributes this information on the IPM Mastercard Parameter Extract (MPE).

Commercial account ranges

In business services that have a distinct consumer and commercial rate structure, transactions that contain a commercial credit account range cannot be submitted for any consumer interchange program. For example, Mastercard Corporate Purchasing Card, Mastercard Fleet Card, Mastercard Corporate Card, or Mastercard BusinessCard, cannot be submitted for any consumer interchange program.

Consumer account ranges

Transactions that contain a Mastercard consumer credit or consumer debit account range cannot be submitted for any commercial interchange program. For example, Mastercard

Standard Card, World Mastercard card, or Debit Mastercard card, cannot be submitted for any commercial interchange program.

Interchange program qualifying criteria

Certain transaction criteria determine the interchange program for which a transaction may qualify.

This criteria qualify transactions for interchange programs.

Interchange program qualifying criteria

Criteria description	Clearing message element
Card Program Identifier The set of card program identifiers for which the interchange rate designator (IRD) is valid. Values include, but are not limited to • DMC: Debit Mastercard • MCC: Mastercard Credit • MSI: Maestro, and • PVL: Private label	PDS 0158 (Business Activity), subfield 1 (Card Program Identifier) If not submitted in the message, GCMS derives this value from • DE 2 (Primary Account Number [PAN]), or • DE 93 (Transaction Receiver Institution ID Code) when DE 2 is not present in the message (Fee Collections/1740 [Other] only)
GCMS Product Identifier The set of clearing product identifiers for the IRD. The set includes all account range products currently being masked under the specific GCMS Product Identifier.	• PDS 0002 (GCMS Product Identifier) • Derived from DE 2 (Primary Account Number [PAN])
Transaction Type The transaction types for which the IRD is valid. GCMS validates the combination of MTI, Function Code, Processing Code, and Reversal Indicator to help ensure the transaction is valid for the IRD. The DE 3 criteria refers to DE 3, subfield 1 (Cardholder Transaction Type). Unless otherwise stated, DE 3 subfields 2 and 3, (Cardholder From Account and Cardholder To Account) must contain zeros. Unless otherwise stated it is assumed that both originals and reversals are permitted.	Transaction Function • Transaction Function (MTI + DE 24 [Function Code]) • DE 3 (Processing Code) • PDS 0025 (Message Reversal Indicator), subfield 1 (Message Reversal Indicator)
Acceptor business (AB) program	DE 26 (Acceptor business code [MCC])

Criteria description	Clearing message element
Timeliness	- DE 12 (Date and Time, Local Transaction) - PDS 0105 (File ID), subfield 2 (File Reference Date) - PDS 0158 (Business Activity), subfield 4 (Interchange Rate Designator)
Approval Code	DE 38 (Approval Code)
Magnetic Stripe Data from Authorization Message	N/A
Trace ID	DE 63 (Transaction Life Cycle ID), subfield 2 (Trace ID) consisting of the Banknet Reference Number (nine positions) followed by the Banknet Date (four positions in the format MMDD)
Point of Service Data Code	DE 22 (Point of Service Data Code)
Acceptor business code (MCC)	DE 26 (Acceptor business code)

This element is required to be present in any transaction submitted for a tiered (non-base) interchange program. It is required for some base programs, such as IRD RI: Enhanced Warehouse Base and IRD WM: World Elite Warehouse Base.	

Criteria description	Clearing message element
Financial Detail Addendum/1644 Industry information is required in Financial Detail Addendums/1644, according to the specific interchange program. If an element is required for the submitted interchange program and not provided in the message, or is provided and formatted incorrectly, it may cause the Financial Detail Addendum/1644 to be rejected. This also may cause the First Presentment/1240 to be rejected. GCMS will edit any optionally provided industry addendum message data for content.	Various elements within the Financial Detail Addendum/1644, and, when applicable, the associated First Presentment/1240
Notes	Various

For more information regarding data elements and PDSs, refer to the *IPM Clearing Formats*.

Global program rates

Transactions meeting interchange program criteria qualify for associated rates.

The Mastercard Enterprise Solutions Wholesale Travel Program (MWP) does not have geographic restriction and leverages the customer-to-customer Business Service Level 8, but it is not same as customer-to-customer. Mastercard defines the rate and announces it to all customers through regional interchange bulletins. The same criteria is used by all participating issuers and acquirers regardless of where the transaction is issued or acquired. Therefore, interchange rates apply to wholesale travel transactions that are acquired anywhere in the world and that are initiated with virtual Mastercard account numbers issued anywhere in the world.

Rates

T001	Telephone
V001	Automobile/Vehicle Rental
W001	Warehouse Club

NOTE: This program is NOT open to all issuers by default. Mastercard will use the previously mentioned criteria to determine which issuers are eligible and will decide which issuers can participate in the program.

Mastercard Flex Program interchange rates

The Mastercard Flex Program (MFP) interchange rates do not have geographic restrictions. The program leverages the customer-to-customer Business Service Level 8, but it is not same as customer-to-customer. Mastercard defines the rate and announces it to all

customers through regional interchange bulletins. The same criteria is used by all participating issuers and acquirers regardless of where the transaction is issued or acquired. Therefore, interchange rates apply to transactions that are acquired anywhere in the world and that are initiated with virtual Mastercard account numbers issued anywhere in the world. MFP can be issued and acquired in 79 countries at the moment.

Interregional interchange rates

This section lists rates for this interchange program group.

About interregional interchange rates

These rates typically apply to transactions that are issued and acquired in different regions.

When the acquirer and issuer are in the same region and the merchant is in a different region, the *acquiring* region is defined as the region associated to the merchant identified in DE 43 (Acceptor Name/ Location), subfield 6 (Acceptor Country Code).

These rates are applicable to these interregional categories that Mastercard supports.

- Mastercard interregional interchange programs
- Maestro interregional interchange programs

The Mastercard interregional interchange rates apply to cross-border interregional transactions affected with a Mastercard card. They also apply to transactions affected with a Mastercard card within a country or region unless there is an intraregional, intracountry, or bilateral agreement interchange program.

Mastercard interregional consumer interchange rates

Transactions meeting interchange program criteria qualify for associated rates.

Consumer POS rates

IRD and program name	Rate (USD)

PIN regulated POS debit small ticket	0.00% + 0.00
PIN regulated POS debit small ticket with fraud adjustment	0.00% + 0.00

Interregional ATM interchange rates

Interregional rates apply to ATM transactions under the following conditions.

Interregional ATM rates apply to:

- Cross-border transactions acquired in one region and initiated with a Mastercard® card issued in a different region.

- Intraregional ATM transactions within the Asia/Pacific, Latin America and the Caribbean, and MEA regions.
- Transactions within a country or region in the event that there is no intraregional, intracountry, or bilateral agreement interchange rate program in effect.

Rates

Transaction type		Fixed rate (USD)	Variable rate
Financial	No ATM Access Fee	0.30	0.60%
	ATM Access Fee	0.30	0.00%
Non-financial	N/A	0.25	0.00%

NOTE: For cross-border transactions among the U.S. (50 states and the District of Columbia) and its territories of American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands the following rates apply.

Rates

Transaction type	Minimum quarterly transactions	Rate (USD)
ATM Financial Tier 1	7.5 million	0.00% + 0.35
ATM Financial Tier 2	5.0 million	0.00% + 0.45
ATM Financial Base	N/A	0.00% + 0.50
ATM Financial Nebraska	N/A	0.00% + 0.45
ATM Non-financial	N/A	0.00% + 0.28
ATM Shared Deposit	N/A	0.00% + 2.00

The minimum quarterly transaction threshold is reviewed quarterly based on an issuer's ATM transactions settled during the prior calendar quarter for the next subsequent quarter. Note that the tier qualifications are effective in the second month of the next subsequent quarter. An issuer that qualifies for a tier based on its first quarter transactions (January–March) qualifies for the new tiered rate commencing in May.

These rates also apply to domestic ATM transactions in the U.S. Virgin Islands (when the issuer and the ATM are located within the U.S. Virgin Islands).

Latin America and the Caribbean Region Interchange Rates

This section lists rates for this interchange program group.

	Balance Inquiry and Declined Transactions (USD)	USD 0.38

Mastercard Manual Cash Disbursement Rates

Following are the intercountry and intracountry cash disbursement interchange fees.

Intercountry cash disbursement interchange fees apply to manual (transaction not through an ATM) advances of cash by one Mastercard customer at the customer's offices where teller services are provided to any Mastercard cardholder, regardless of the card issuer. Intracountry cash disbursement interchange fees apply to manual advances of cash when the issuer is resident in the same country as the acquirer and no other applicable fee agreements exist between the customers in that country.

For more details, refer to Chapter 8, "Settlement," of the *Mastercard Rules*.

Mastercard Manual Cash Disbursement Rates

Program Name	Rate (USD)
Intercountry Manual Cash	0.09% + 3.60

Intracountry Manual Cash Disbursement Rates

Location	Rate
Argentina	0.00% + ARS 6.50
Aruba	0.09% + USD 3.60
Cayman Islands	0.09% + USD 3.60
Chile	CLP 1,000.00
Colombia	0.09% + USD 3.60
Curaçao	0.09% + USD 3.60

Location	Rate
Haiti	0.09% + USD 3.60
Jamaica	0.00% + USD 0.40
Panama	0.00% + USD 2.05
Puerto Rico	0.00% + USD 2.05
Trinidad and Tobago	TTD 7.00
Uruguay	0.00% + UYU 21.60

Intracountry Purchase with Cash Back and Cash Out/Access Interchange

Purchase with Cash Back and Cash Out/Access transactions allow cardholders to withdraw cash at the point-of-sale (POS) either in conjunction with a Purchase (as in the case of Purchase with Cash Back) or as a cash withdrawal without a Purchase (as in the case of Cash Out/Access). The interchange applicable to the Cash portion of a Purchase with Cash Back or Cash Out/Access transaction is noted in the table below and is paid by the issuer to the acquirer.

Intracountry purchase with cash back and cash out/access interchange

Location	Interchange Program	Rate
Argentina Intracountry Cash Out - IRD CO ⁹	Interchange on the Cash portion of a Cash Out/ Access Transaction (Paid by Issuer to Acquirer).	ARS 0.00 + 0.00%
Argentina Intracountry Purchase with Cashback ¹⁰	Interchange on the Cash portion of a Purchase with Cashback Transaction (Paid by Issuer to Acquirer).	ARS 0.00 + 0.25%

⁹ Argentina Cash Out is available in both dual and single message for debit and prepaid transactions.

¹⁰ Argentina PWCB is available for dual message system (Mastercard Debit IRDs 01, 02, 03, 04, and 05; Mastercard Prepaid IRDs 07, 08, 09, 10, and 11) and for single message Maestro transactions.

Location	Interchange Program	Rate
Brazil Intracountry Cash Out/Access - IRD CO ¹¹		BRL 1.95
Brazil Intracountry Purchase with Cash Back ¹²		BRL 1.50 / per transaction
Chile Intracountry Purchase with Cash Back ¹³		CLP 0.00 + 0.00%
Uruguay Intracountry Purchase with Cash Back ¹⁴		UYU 0.00 + 0.00%

¹¹ Brazil Cash Out/Access is not permitted on merchant-financed installment transactions. Brazil Cash Out/Access is available for Dual Message System and Single Message System transactions.

¹² Brazil Purchase with Cash Back is available for Single Message System and Debit Dual Message System transactions.

Inter-customer service fees

Mastercard sets inter-customer service fees for Mastercard MoneySend and Funding Transaction programs to support a fast, secure, and convenient method to send and receive money.

Inter-customer service fees increase the number of originating institutions, receiving institutions, funding issuers, and transaction initiators participating in these programs within the Mastercard Network.

Inter-customer service fee payments

Inter-customer service fees are paid by originating institutions to funding issuers and receiving issuers for both funding and payment transactions.

Global program interchange criteria

This section includes the transaction criteria for the interregional, intraregional, intercountry, intracountry, and customer-to-customer interchange program IRD BB: Commercial Business-to-Business and IRD FF: Freight Program.

GCMS timeliness criterion.....	406
IRD BB: Commercial Business-to-Business.....	406
IRD BU: U.S. Commercial Business-to-Business.....	410
IRD FI: Flexible Interchange.....	412
IRD FF: Freight Program.....	414
IRD GG: Global Commercial Large Market.....	416

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD BB: Commercial Business-to-Business

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	MCC
GCMS product ID	Commercial credit: MBA, MBG, MBH, MBI, MBJ, MBL, MBN, MBO, MBQ, MBR, MBS, MTA, MTB, MTC, MTD, MTE, MTF, MTG, MTH, MTI, MTJ, MTK, MTL, MTM, MTN, MTO, MTQ, MTR, MTS, MTT, MTU, MTV
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return)

Criteria	Requirement
Acceptor business (AB) program	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • GW01: Global Wholesale Travel Other • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • V001: Automobile/Vehicle Rental • W001: Warehouse Club For Acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required

Criteria	Requirement
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None

Criteria	Requirement
Notes	For product codes MTA, MTB, MTC, MTD, MTE, MTF, MTG, MTH, MTI, MTJ, MTK, MTL, MTM, MTN, MTO, MTQ, MTR, MTS, MTT, MTU, and MTV, The Mastercard Wholesale Program (MWP) applies to travel intermediaries participating in this program and paying their suppliers utilizing virtual Mastercard account numbers. The MWP provides differentiated operating guidelines to more effectively compete in the Business-to-Business (B2B) payments market and to increase merchant acceptance for B2B payments currently captured by check and other forms of payment. MWP does not have geographic restriction and leverages the customer-to-customer Business Service Level 8, but it is not same as customer-to-customer. Mastercard defines the rate and announces it to all customers through regional interchange bulletins. The same criteria is used by all participating issuers and acquirers regardless of where the transaction is issued or acquired. Therefore, interchange rates apply to wholesale travel transactions that are acquired anywhere in the world and that are initiated with virtual Mastercard account numbers issued anywhere in the world. There are no physical cards issued for this program. It is transacted using a virtual card number (VCN). NOTE: This program is not open to all issuers by default. Mastercard will evaluate the program and will determine which issuers can participate in the program. This IRD is not applicable when the merchant country, acquirer country, and issuer account range country are all U.S. The Mastercard Wholesale Travel Program (MWP) is available to travel intermediaries participating in this program and paying their suppliers using virtual Mastercard account numbers. The MWP provides differentiated rates to more effectively compete in the business-to-business (B2B) payments market and to increase merchant acceptance for B2B payments currently captured by check and other forms of payment. MWP uses customer-to-customer Business Service Level 8, but it is not the same as customer-to-customer. Mastercard defines and announces the applicable interchange rates to all customers through regional interchange bulletins. There are no physical cards issued for this program. It is transacted using a virtual card number (VCN). NOTE: Issuers must be approved by Mastercard in order to participate and issue virtual commercial cards under MWP.

IRD BU: U.S. Commercial Business-to-Business

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	MCC
GCMS product ID	Commercial credit: MBA, MBG, MBH, MBI, MBJ, MBL, MBN, MBO, MBQ, MBR, MBS, MTA, MTB, MTC, MTD, MTE, MTF, MTG, MTH, MTI, MTJ, MTK, MTL, MTM, MTN, MTO, MTQ, MTR, MTS, MTT, MTU, MTV

Trace ID	Required
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city name	Required Must be left justified and cannot contain all spaces or all zeros
Acceptor postal code	Required
Acceptor state, province, or region code	Required for transactions occurring in the United States When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains USA, this subfield must contain a valid state code.

Criteria	Requirement
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID (MAID)	Not required
Financial Detail Addendum/1644	All MCCs require the following Financial Detail Addendum (Corporate Card Common Data Requirements)/1644 data: • PDS 0595 (Card Acceptor Type) • PDS 0596 (Card Acceptor Tax ID)
Note	Transactions submitted with this IRD are not subject to interchange compliance processing. For First Presentment transactions submitted with this IRD, Mastercard will apply the interchange value that was submitted with the associated Authorization. If Mastercard is unable to match the Clearing record to the associated Authorization, Mastercard will apply the market-specific interchange rate instead of the negotiated rate. For First Chargebacks and Second Presentments submitted with this IRD, Mastercard will apply the interchange rate associated with the First Presentment.

IRD FF: Freight Program

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	MCC
GCMS product ID	Commercial credit: MES

Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None

Criteria	Requirement
Note	The Mastercard Flex Program is a global commercial credit program that facilitates capturing new non-travel business-to-business (B2B) activity on B2B platforms including, but not limited to Enterprise Resource Planning providers, procure-to-pay providers, order-to-cash providers, and accounting systems. The Mastercard Flex Program is designed for corporations and suppliers to use virtual card number (VCN) technology to expedite B2B payments with convenience and security. The acquirer country, merchant country, and issuer account range country are not required to be the same, but they must each be one of the following: Aland Islands, Andorra, Antarctica, Austria, Bahrain, Belgium, Brazil, Bulgaria, Canada, Colombia, Croatia, Cyprus, Czech Republic, Denmark, Egypt, Estonia, Falkland Islands (Malvinas), Faroe Islands, Finland, France, French Guiana, Germany, Ghana, Gibraltar, Greece, Greenland, Guadeloupe, Guernsey, Hong Kong, SAR, Hungary, Iceland, Indonesia, Ireland, Isle of Man, Italy, Jamaica, Japan, Jersey, Kuwait, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Martinique, Mayotte, Monaco, Netherlands, New Zealand, Norway, Oman, Panama, Philippines, Poland, Portugal, Puerto Rico, Qatar, Reunion, Romania, Saint Barthelemy, Saint Martin (French), San Marino, Saudi Arabia, Singapore, Slovakia, Slovenia, Spain, St. Helena, Ascension and Tristan Da Cunha, Svalbard and Jan Mayen, Sweden, Switzerland, Thailand, Trinidad and Tobago, U.S. Virgin Islands, U.S., United Arab Emirates, United Kingdom, Vatican City, Vietnam.

Interregional interchange criteria

This section includes the transaction criteria for the interregional interchange programs that Mastercard supports. Unless otherwise noted, the interregional interchange programs apply to transactions where the transaction was acquired in a different region from where the card was issued.

Interregional Mastercard POS interchange criteria

Unless otherwise noted, the interregional interchange programs apply to transactions where the transaction was acquired in a different region from where the card was issued.

When the acquirer and issuer are in the same region and the merchant is in a different region, the *acquiring* region is defined as the region associated to the merchant identified in DE 43 (Acceptor Name/ Location), subfield 6 (Acceptor Country Code).

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 47: Interregional Mastercard Electronic Card Commercial

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Message type ID	• First and Second Presentments/1240 • First and Arbitration Chargebacks/1442
Processing code	• 00: Purchase (Goods and Services) • 18: Unique Transaction (requires unique MCC) • 20: Credit (Purchase Return)
Acceptor business (AB) program	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • OTH2: Other. All MCCs assigned to OTH1 except MCC 5542 (Fuel Dispenser, Automated) • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club For Acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Required for all transactions, except Internet transactions Refer to "Notes" in this table.

Criteria	Requirement
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table Must contain an MCC other than one of the following: • MCC 5542 (Fuel Dispenser, Automated) • Mail order/telephone order (MO/TO) MCCs: – MCC 5960 (Direct Marketing - Insurance Services) – MCC 5962 (Direct Marketing - Travel Related Arrangement Services) – MCC 5964 (Direct Marketing - Catalog Merchants) – MCC 5965 (Direct Marketing - Combination Catalog and Retail Merchants) – MCC 5966 (Direct Marketing - Outbound Telemarketing Merchants) – MCC 5967 (Direct Marketing - Inbound Telemarketing Merchants) – MCC 5968 (Direct Marketing - Continuity/Subscription Merchants) – MCC 5969 (Direct Marketing - Other Direct Marketers - Not Elsewhere Classified)
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required for all transactions acquired in which the Acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor state, province, or region code	Required for transactions occurring in Canada and the United States. When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains CAN or USA, this subfield must contain a valid state or province code for the country identified Not required for all other countries.

Criteria	Requirement
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	This requirement applies only to transactions acquired in the Asia/Pacific, Canada, Europe, Latin America and the Caribbean, and Middle East/Africa (MEA) regions. None
Mastercard BusinessCard and Mastercard Corporate Card account ranges	This requirement applies only to transactions acquired in the U.S. region. All MCCs require the following Financial Detail Addendum (Corporate Card Common Data Requirements)/1644 data: • PDS 0595 (Acceptor Type) • PDS 0596 (Acceptor Tax ID)

Criteria	Requirement
Notes	Customers must have a Mastercard Electronic license agreement with Mastercard to acquire Mastercard Electronic transactions. For Internet transactions, in the First Presentment/1240: • PDS 0023 (Terminal Type) is required and must contain the value CT6 (CAT level 6 [electronic commerce transaction]). • PDS 0052 (Electronic Commerce Security Level Indicator), subfield 3 (UCAF Collection Indicator) is required and must contain one of the following values: – 0 (UCAF data collection is not supported by the merchant or a Mastercard SecureCodemerchant has chosen not to undertake Mastercard SecureCode on this transaction) – 1 (UCAF collection is supported by the merchant, and UCAF data may be available) – 2 (Both merchant and issuer are UCAF-enabled, as indicated in the Authorization Request/0100 message) – 5 (Issuer risk based decisioning) – 6 (Merchant risk based decisioning) PDS 0052 , subfield 3, values 0, 1, 5, and 6 are only applicable for Commercial Electronic product codes issued in the Europe region. For Internet transactions, the authorization log must contain the following: • DE 22 (Point-of-Service (POS) Entry Mode), subfield 1 (POS Terminal PAN Entry Mode) with the value 10, 81 or 82 • DE 48 (Additional Data - Private Use), subelement 42 (Electronic Commerce Indicators), position 1 (Security Protocol) and position 2 (Cardholder Authentication) combination with a value of 21 or 22. • DE 48, subelement 42, position 3 (UCAF Collection Indicator) with a value of 1 or 2. DE 48, subelement 42, position 3, value of 1 is only applicable for Commercial Electronic product codes issued in the Europe region. • DE 48, subelement 43 (Universal Cardholder Authentication Field [UCAF]) when DE 48, subelement 42, position 3 contains a value of 2 • DE 61 (Point-of-Service [POS] Data), subfield 4 (POS Cardholder Presence) with a value of 5 indicating electronic order • DE 61, subfield 10 (Cardholder-Activated Terminal Level) with a value of 6 indicating e-commerce transaction (CAT Level 6)

IRD 61: Interregional Commercial Standard

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)

Criteria	Requirement
Acceptor business (AB) program	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros

Criteria	Requirement
Acceptor postal code	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor state, province, or region code	Required for transactions occurring in Canada and the United States When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains CAN or USA, this subfield must contain a valid state or province code for the country identified. Not required for all other countries
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Purchasing Card account ranges and Fleet Card account ranges at non-fuel locations	Not eligible
Mastercard Fleet Card account ranges at fuel locations (MCC 4468, 5541, 5542, 5499, and 5983)	Not eligible
Mastercard BusinessCard and Mastercard Corporate Card account ranges	For transactions acquired in the United States, all MCCs require the following Financial Detail Addendum (Corporate Card Common Data Requirements)/1644 data: • PDS 0595 (Acceptor Type) • PDS 0596 (Acceptor Tax ID)
Notes	None

Processing code	• 00: Purchase (Goods and Services) • 09: Purchase (Goods and Services) with Cash Back • 18: Unique Transaction (requires unique MCC) • 20: Credit (Purchase Return)	

Criteria	Requirement	U.S. Acquirer Interchange Compliance Failure Adjustment
Acceptor business (AB) program	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - OTH1: Other - P001: Beauty Salons - R001: Railways - S001: Supermarkets - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.	IRD YH: Interregional Consumer Rate III - Base - Premium
Timeliness	GCMS: Five days - Holidays are not excluded. - Transaction date is excluded. - File header date is not excluded. Interchange Compliance: Six days The following are exempt from the timeliness test: - E-commerce transactions, if the five e-commerce indicators are present - All post-authorized aggregated transit authority transactions For more information, refer to the <i>Interchange Manual: U.S. Region</i>, "U.S. Region Interchange Compliance" chapter, "Timeliness Test" section.	IRD YH: Interregional Consumer Rate III - Base - Premium
Approval ccode	Required For more information, refer to the <i>Interchange Manual: U.S. Region</i>, "U.S. Region Interchange Compliance" chapter, "Approval Code Test" section.	IRD YH: Interregional Consumer Rate III - Base - Premium

Criteria	Requirement	U.S. Acquirer Interchange Compliance Failure Adjustment
Magnetic stripe data from authorization message	Required For more information, refer to the <i>Interchange Manual: U.S. Region</i>, "U.S. Region Interchange Compliance" chapter, "Magnetic Stripe Test" section.	IRD YH: Interregional Consumer Rate III - Base - Premium
Trace ID	Required for transactions acquired in the U.S. region. Must contain a valid Banknet Reference Number, and the Banknet Date must contain a valid date in the format MMDD. For more information, refer to the <i>Interchange Manual: U.S. Region</i>, "U.S. Region Interchange Compliance" chapter, "Step 1: Matching Clearing Data to Authorization Log" section. Not required for transactions acquired outside the U.S. region. If present, the Banknet Date must contain a valid date in the format MMDD.	IRD YH: Interregional Consumer Rate III - Base - Premium
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table For more information, refer to the <i>Interchange Manual: U.S. Region</i>, "U.S. Region Interchange Compliance" chapter, "Acceptor Business Code (MCC) Test" section.	IRD YH: Interregional Consumer Rate III - Base - Premium

Criteria	Requirement	U.S. Acquirer Interchange Compliance Failure Adjustment
Amount tolerance	N/A for transactions acquired outside the U.S. region. 10% for transactions acquired in the U.S. region. For more information, refer to the <i>Interchange Manual: U.S. Region</i>, "U.S. Region Interchange Compliance" chapter, "Amount Tolerance Test" section. If the following criteria are met, transactions submitted for this program are exempt from the amount tolerance test. • DE 22 (Point of Service Data Code), subfield 1 (Terminal Data: Card Data Input Capability) is one of the following: – A: PAN auto-entry via contactless magnetic stripe – M: PAN auto-entry via contactless M/Chip • DE 22, subfield 3 (Terminal Data: Card Capture Capability) is 0: No capture capability • DE 22, subfield 4 (Terminal Operating Environment) is 2: On acceptor premises; unattended terminal • DE 22, subfield 5 (Cardholder Present Data) is 0: Cardholder present • DE 22, subfield 6 (Card Present Data) is 1: Card present • DE 22, subfield 7 (Card Data: Input Mode) is one of the following: – A: PAN auto-entry via contactless magnetic stripe – M: PAN auto-entry via contactless M/Chip • DE 26 (Acceptor Business Code [MCC]) is 4111 (Transportation, Suburban and Local Commuter Passenger, including Ferries)	IRD YH: Interregional Consumer Rate III - Base - Premium
Acceptor ID code	Required	
Acceptor name	Required	

Criteria	Requirement	U.S. Acquirer Interchange Compliance Failure Adjustment
Acceptor street address	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States). Not required for all other transactions.	
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros	
Acceptor postal code	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States). Not required for all other transactions.	
Acceptor state, province, or region code	Required for transactions occurring in Canada and the United States. When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains CAN or USA, this subfield must contain a valid state or province code for the country identified. Not required for all other countries.	
Acceptor country code	Required Cannot contain spaces	
Mastercard Assigned ID	Not required	
Financial Detail Addendum/1644	None	

Criteria	Requirement	U.S. Acquirer Interchange Compliance Failure Adjustment
Notes	In the First Presentment/1240, DE 22 (Point of Service Data Code) is required as follows: - Subfield 5 (Cardholder Present Data) must contain the value 0. - Subfield 6 (Card Present Data) must contain the value 1. - Subfield 7 (Card Data: Input Mode) must contain a value of 2, A, B, C, F, or M.	

IRD YF: Interregional Consumer Rate II, Card Present, Super Premium

Transactions must meet requirements to qualify for this interchange program.

Interregional Mastercard inbound Europe POS interchange criteria

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD EB: EEA Card Present Debit Restricted Rates

Transactions must meet requirements to qualify for this interchange program.

NOTE: As per European Commission commitments, these programs are valid for regulated transactions at EEA merchants.

Card program ID	MCC
GCMS product ID	Mastercard: DBS, DCB, GCP, GCS, MBK, MCC, MCE, MCG, MCS, MCT, MCW, MKF, MKG, MKH, MNW, MPE, MPL, MRF, MRO, MSP, MWE, MWJ, MWK, MWL, WBE NOTE: Mastercard is lifecycleing product code MPE with the 26.Q2 release.
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Criteria	Requirement
Processing code	• 00: Purchase (Goods and Services) • 09: Purchase (Goods and Services) with Cash Back (only for use with Debit Mastercard Card Products) • 18: Unique Transaction (Unique MCC) • 20: Credit (Purchase Return)
Card/cardholder present and card entry mode	DE 22 SF 5 with a value of 0, and DE 22 SF 6 with a value of 1, and DE 22 SF 7 with a value of 2, or A, or B, or C, or F, or M
Acceptor business (AB) program	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other. • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • T002: Purchase at ATM • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required

Criteria	Requirement
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Required
Acceptor state, province, or region code	Required
Acceptor country code	Must be one of EEA countries and territories or the United Kingdom and Gibraltar: Aland Islands, Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, French Guiana, Germany, Gibraltar, Greece, Guadeloupe, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Martinique, Mayotte, Netherlands, Norway, Poland, Portugal, Reunion, Romania, Saint Martin (French Part), Slovakia, Slovenia, Spain, Svalbard and Jan Mayen, Sweden, United Kingdom, Liechtenstein, and Iceland
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	This interchange program is valid for Consumer POS transactions between merchants in EEA Countries and issuers in non EEA Countries located within or outside Europe.

IRD EV: EEA Card Not Present Credit Restricted Rates

Transactions must meet requirements to qualify for this interchange program.

NOTE: As per European Commission commitments, these programs are valid for regulated transactions at EEA merchants.

Notes	This interchange program is valid for Consumer POS and Purchase at ATM transactions between merchants in EEA countries and issuers in non-EEA countries located within or outside the Europe region.

Interregional Mastercard regulated POS debit interchange criteria

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and

Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD LD: Interregional Regulated POS Debit

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 09: Purchase (Goods and Services) with Cash Back (only for use with Debit Mastercard Products) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)

Criteria	Requirement
Acceptor business (AB) program	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Required

Criteria	Requirement
Acceptor state, province, or region code	Required When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains USA, this subfield must contain a valid state code.
Acceptor country code	Required Must contain ASM (American Samoa), GUM (Guam), MNP (Northern Mariana Islands), PRI (Puerto Rico), VIR (U.S. Virgin Islands), or USA (United States)
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	This requirement applies only to transactions acquired in the U.S. region. When submitted for a commercial card transaction, all MCCs require the following Financial Detail Addendum (Corporate Card Common Data Requirements)/1644 data: • PDS 0595 (Acceptor Type) • PDS 0596 (Acceptor Tax ID)

Criteria	Requirement
Notes	To qualify for this interchange program, the issuer must have a regulatory status of B (Base Regulated) associated with the account range. This interchange program is not subject to interchange compliance validation. This program is valid for regulated transactions among the U.S. region and the following U.S. territories: American Samoa, Guam, the Northern Mariana Islands, Puerto Rico and the U.S. Virgin Islands, as per the Durbin Amendment. Purchase (Goods and Services) with Cash Back transactions are accepted for Debit Mastercard transactions only. For DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type), value 09, DE 54 (Amounts, Additional), subfield 5 (Additional Amount, Amount) must be submitted with all Purchase (Goods and Services) with Cash Back transactions to identify the cash back portion of the transaction from DE 4 (Amount, Transaction). The cash back amount in DE 54, subfield 5 must be submitted in the same currency as the transaction. For product code ACS (Digital Debit): It is possible for an acquirer in one region to acquire transactions from a merchant in another region. Regardless of the acquirer location, this IRD is applicable to regulated transactions between merchants and issuers in the U.S. region and the following U.S. territories: American Samoa, Guam, the Northern Mariana Islands, Puerto Rico and the U.S. Virgin Islands, as per the Durbin Amendment.

IRD LF: Interregional Regulated POS Debit with Fraud Adjustment

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 09: Purchase (Goods and Services) with Cash Back (only for use with Debit Mastercard Products) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)

Criteria	Requirement
Acceptor business (AB) program	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Required

Criteria	Requirement
Acceptor state, province, or region code	Required When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains USA, this subfield must contain a valid state code.
Acceptor country code	Required Must contain ASM (American Samoa), GUM (Guam), MNP (Northern Mariana Islands), PRI (Puerto Rico), VIR (U.S. Virgin Islands), or USA (United States)
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	This requirement applies only to transactions acquired in the U.S. region. When submitted for a commercial card transaction, all MCCs require the following Financial Detail Addendum (Corporate Card Common Data Requirements)/1644 data: • PDS 0595 (Acceptor Type) • PDS 0596 (Acceptor Tax ID)

Criteria	Requirement
Notes	To qualify for this interchange program, the issuer must have a regulatory status of 1 (Regulated with Fraud Protected) associated with the account range. This interchange program is not subject to interchange compliance validation. This program is valid for regulated transactions among the U.S. region and the following U.S. territories: American Samoa, Guam, the Northern Mariana Islands, Puerto Rico and the U.S. Virgin Islands, as per the Durbin Amendment. Purchase (Goods and Services) with Cash Back transactions are accepted for Debit Mastercard transactions only. For DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type), value 09, DE 54 (Amounts, Additional), subfield 5 (Additional Amount, Amount) must be submitted with all Purchase (Goods and Services) with Cash Back transactions to identify the cash back portion of the transaction from DE 4 (Amount, Transaction). The cash back amount in DE 54, subfield 5 must be submitted in the same currency as the transaction. For product code ACS (Digital Debit): It is possible for an acquirer in one region to acquire transactions from a merchant in another region. Regardless of the acquirer location, this IRD is applicable to regulated transactions between merchants and issuers in the U.S. region and the following U.S. territories: American Samoa, Guam, the Northern Mariana Islands, Puerto Rico and the U.S. Virgin Islands, as per the Durbin Amendment.

IRD LS: Interregional Regulated POS Debit Small Ticket

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 09: Purchase (Goods and Services) with Cash Back (only for use with Debit Mastercard Products) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)
Acceptor business (AB) program	ST02: Regulated Small Ticket - U.S. Region and U.S. Territories For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i> .
Timeliness	Two days - Holidays are not excluded. - Transaction date is excluded. - File header date is not excluded.
Approval code	Required for Processing Codes 00, 09, and 18 Not required for Processing Code 20
Magnetic stripe data from authorization message	Required

Criteria	Requirement
Trace ID	Required for Processing Codes 00, 09, and 18 If present, the Banknet Date must contain a valid date in the format MMDD. Not required for Processing Code 20
Point of service data code	Required, as follows: - Subfield 5 (Cardholder Present Data) must be 0. - Subfield 6 (Card Present Data) must be 1. - Subfield 7 (Card Data: Input Mode) must be 2, A, B, C, F, or M. Not required for all other subfields
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Required
Acceptor state, province, or region code	Required When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains USA, this subfield must contain a valid state code.
Acceptor country code	Required Must contain ASM (American Samoa), GUM (Guam), MNP (Northern Mariana Islands), PRI (Puerto Rico), VIR (U.S. Virgin Islands), or USA (United States)
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	This requirement applies only to transactions acquired in the U.S. region. When submitted for a commercial card transaction, all MCCs require the following Financial Detail Addendum (Corporate Card Common Data Requirements)/1644 data: • PDS 0595 (Acceptor Type) • PDS 0596 (Acceptor Tax ID)

Criteria	Requirement
Notes	To qualify for this interchange program, the issuer must have a regulatory status of B (Base Regulated) associated with the account range. This interchange program is not subject to interchange compliance validation. This program is valid for regulated transactions among the U.S. region and the following U.S. territories: American Samoa, Guam, the Northern Mariana Islands, Puerto Rico and the U.S. Virgin Islands, as per the Durbin Amendment. The transaction amount must be equal to or less than USD 10. The card and cardholder must be present at the time of the transaction, and the transaction must be face-to-face. Purchase (Goods and Services) with Cash Back transactions are accepted for Debit Mastercard transactions only. For DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type), value 09, DE 54 (Amounts, Additional), subfield 5 (Additional Amount, Amount) must be submitted with all Purchase (Goods and Services) with Cash Back transactions to identify the cash back portion of the transaction from DE 4 (Amount, Transaction). The cash back amount in DE 54, subfield 5 must be submitted in the same currency as the transaction. For product code ACS (Digital Debit): It is possible for an acquirer in one region to acquire transactions from a merchant in another region. Regardless of the acquirer location, this IRD is applicable to regulated transactions between merchants and issuers in the U.S. region and the following U.S. territories: American Samoa, Guam, the Northern Mariana Islands, Puerto Rico and the U.S. Virgin Islands, as per the Durbin Amendment.

IRD LT: Interregional Regulated POS Debit Small Ticket with Fraud Adjustment

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 09: Purchase (Goods and Services) with Cash Back (only for use with Debit Mastercard Products) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)
Acceptor business (AB) program	ST02: Regulated Small Ticket - U.S. Region and U.S. Territories For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i> .
Timeliness	Two days - Holidays are not excluded. - Transaction date is excluded. - File header date is not excluded.
Approval code	Required for Processing Codes 00, 09, and 18 Not required for Processing Code 20
Magnetic stripe data from authorization message	Required

Criteria	Requirement
Trace ID	Required for Processing Codes 00, 09, and 18 If present, the Banknet Date must contain a valid date in the format MMDD. Not required for Processing Code 20
Point of service data code	Required, as follows: - Subfield 5 (Cardholder Present Data) must be 0. - Subfield 6 (Card Present Data) must be 1. - Subfield 7 (Card Data: Input Mode) must be 2, A, B, C, F, or M. Not required for all other subfields
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Required
Acceptor state, province, or region code	Required When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains USA, this subfield must contain a valid state code.
Acceptor country code	Required Must contain ASM (American Samoa), GUM (Guam), MNP (Northern Mariana Islands), PRI (Puerto Rico), VIR (U.S. Virgin Islands), or USA (United States)
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	This requirement applies only to transactions acquired in the U.S. region. When submitted for a commercial card transaction, all MCCs require the following Financial Detail Addendum (Corporate Card Common Data Requirements)/1644 data: • PDS 0595 (Acceptor Type) • PDS 0596 (Acceptor Tax ID)

Criteria	Requirement
Notes	To qualify for this interchange program, the issuer must have a regulatory status of 1 (Base with Fraud Protected) associated with the account range. This interchange program is not subject to interchange compliance validation. This program is valid for regulated transactions among the U.S. region and the following U.S. territories: American Samoa, Guam, the Northern Mariana Islands, Puerto Rico and the U.S. Virgin Islands, as per the Durbin Amendment. The transaction amount must be equal to or less than USD 10. The card and cardholder must be present at the time of the transaction, and the transaction must be face-to-face. Purchase (Goods and Services) with Cash Back transactions are accepted for Debit Mastercard transactions only. For DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type), value 09, DE 54 (Amounts, Additional), subfield 5 (Additional Amount, Amount) must be submitted with all Purchase (Goods and Services) with Cash Back transactions to identify the cash back portion of the transaction from DE 4 (Amount, Transaction). The cash back amount in DE 54, subfield 5 must be submitted in the same currency as the transaction. For product code ACS (Digital Debit): It is possible for an acquirer in one region to acquire transactions from a merchant in another region. Regardless of the acquirer location, this IRD is applicable to regulated transactions between merchants and issuers in the U.S. region and the following U.S. territories: American Samoa, Guam, the Northern Mariana Islands, Puerto Rico and the U.S. Virgin Islands, as per the Durbin Amendment.

Interregional Mastercard inbound cross-border transactions into China

This program is for transactions that occur in China. The acquirer and merchant must be located in China, and the issuer must be located outside of China.

IRD CB: Interregional China Inbound Non-Travel

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Consumer credit: GCP, GCS, MBK, MCC, MCG, MCS, MCT, MCW, MIU, MLB, MNW, MPL, MRG, MWE, MGP, MKE, MKF, MKG, MKH, MPD, MPE, MRF, MPG, MRH, MRJ, MRO, MSP, MTP, MWJ, MWK, MWL, MWP, SAP, SAS, SUR, TCC, TCG, TCS, TCW, TNW, TPL, TWB, WBE NOTE: IRD CB only applies for BSA 1/040301 when acquirer and merchant are in China. Consumer debit: ACS, MBW, MDG, MDH, MDJ, MDO, MDP, MDS, MDW, MET, MHA, MHB, MHH, MIP, MKA, MKB, MKC, MPA, MPF, MPG, MPJ, MPM, MPN, MPO, MPP, MPT, MPR, MPV, MPX, MPY, WPD Consumer prepaid: GPP Commercial debit: BPE Prepaid: TPM NOTE: Mastercard is lifecycling product codes MKA and MPE with the 26.Q2 release.
Message type ID	• First and Second Presentments/1240 • First and Arbitration Chargebacks/1442

Acceptor country code	Required Cannot contain spaces
Mastercard assigned ID	Required, if applicable
Financial detail addendum/1644	None
Notes	In the First Presentment/1240, data element (DE) 43 (Acceptor Location) must be: • Subfield 6 (Acceptor Country Code) is CHN. • DE 94 (Transaction Originator Institution ID Code) is within CHINA. • DE 2 (Primary Account Number) is associated outside of Asia/Pacific Region. DE 22 (Point of Service Data Code) must be: • Subfield 5 (Cardholder Present Data) contains the value 0 • Subfield 6 (Card Present Data) contains the value 1, and • Subfield 7 (Card Data: Input Mode) contains a value of 2, A, B, C, F, or M.

Interregional Mastercard payment transaction interchange criteria

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Interregional Consumer Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	28: Payment Transaction
Acceptor business (AB) program	- D001: Payment Transactions - MON1: Mastercard® MoneySend™ (Valid only for transactions occurring between the Asia/Pacific and Middle East/Africa [Middle East and Africa] regions) - GAM1: Gaming (Valid only for Originating Institutions in the U.S. region for Gaming Payment Transactions to Receiving Institutions in Puerto Rico) For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required

Criteria	Requirement
Acceptor name	Required
Acceptor street address	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor city name	Not required
Acceptor postal code	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor state, province, or region code	Required for transactions occurring in Canada and the United States When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains CAN or USA, this subfield must contain a valid state or province code for the country identified Not required for all other countries
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	In the First Presentment/1240: • PDS 0043 (Transaction Type Identifier) is required and must contain a value that is valid when used in combination with the MCC. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 21: Interregional Commercial Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	28: Payment Transaction

Criteria	Requirement
Acceptor business (AB) program	- D001: Payment Transactions - MON1: MoneySend (Valid only for transactions occurring between the Asia/Pacific and Middle East/Africa [MEA] regions) For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor city name	Not required
Acceptor postal code	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor state, province, or region code	Required for transactions occurring in Canada and the United States When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains CAN or USA, this subfield must contain a valid state or province code for the country identified. Not required for all other countries

Criteria	Requirement
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	This requirement applies only to transactions acquired in the Asia/Pacific, Canada, Europe, Latin America and the Caribbean, and MEA regions. None
Purchasing Card account ranges, and Mastercard Fleet Card (MCF), Mastercard Government Commercial Card (MGF), and Mastercard Public Sector Commercial Card (MNF) account ranges at non-fuel locations.	This requirement applies only to transactions acquired in the U.S. region. None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.
Purchasing Card account ranges, and Mastercard Fleet Card (MCF), Mastercard Government Commercial Card (MGF), and Mastercard Public Sector Commercial Card (MNF) account ranges at non-fuel locations.	This requirement applies only to transactions acquired in the U.S. region. Not eligible
Mastercard BusinessCard and Mastercard Corporate Card account ranges	This requirement applies only to transactions acquired in the U.S. region. None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.
Europe Regulated Individual Pay (MRF) card account ranges	This requirement applies only to transactions acquired in the Asia/Pacific, Canada, Latin America and the Caribbean, and MEA regions. None. Do not submit commercial specific addendums. Refer to Notes below.

Criteria	Requirement
Notes	In the First Presentment/1240: • PDS 0043 (Transaction Type Identifier) is required and must contain a value that is valid when used in combination with the MCC. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution. For product code MRF, do not submit the commercial specific addendums: Corporate Card Common Data Requirements, Corporate Line Item Detail, Corporate Fleet Transaction Information. If these commercial addendums are submitted with MRF, the addendums will reject but the First Presentment/1240 messages will continue to process.

Interregional merchant presented QR interchange criteria

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

Notes	PDS 0043 (Transaction Type Identifier) is required and must contain value C67 (Merchant Presented QR) or C68 (Merchant Presented QR Refund). PDS 0004 (Funding Account Information) is required for all Masterpass QR Payment (Processing Code 28) transactions. Card Program ID MSI (Maestro) is only available for transactions with Processing Code 00 (Purchase Transactions). PDS 0674 (Additional Trace/Reference Number Used by Acceptor) is required for all Masterpass QR Funding (Processing Code 00) transactions.

Interregional MoneySend interchange criteria

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and

Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

IRD criteria details

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction

Criteria	Requirement
Acceptor business (AB) program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i> .
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required Must contain a valid Banknet Reference Number, and the Banknet Date must contain a valid date in the format MMDD
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor city name	Not required
Acceptor postal code	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor state, province, or region code	Required for all transactions occurring in Canada and the United States. When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains CAN or USA, this subfield must contain a valid state or province code for the country identified Not required for all other countries
Acceptor country code	Required Cannot contain spaces

Criteria	Requirement
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard MoneySend Payment transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07, C52, C53, C54, C55, C56, C57, or C65 when transaction processing code is a value of 00 or 20. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07, C52, C53, C54, C55, C56, C57, C58, C59, or C65 when transaction processing code is a value of 28. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

IRD Q1: Interregional Transfer to Own Debit or Prepaid Card Account

Transactions must meet requirements to qualify for this interchange program.

Interregional interchange criteria
IRD Q1: Interregional Transfer to Own Debit or Prepaid Card Account

Criteria	Requirement
Card program ID	DMC, MCC, MSI
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return)
Acceptor business (AB) program	MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city name	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.

Interregional interchange criteria
IRD Q1: Interregional Transfer to Own Debit or Prepaid Card Account

Criteria	Requirement
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Note	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Interregional General Person-to-Person Transfer

Transactions must meet requirements to qualify for this interchange program.

Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city name	Not required
Acceptor postal code	Not required

Criteria	Requirement
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

IRD Q3: Interregional General Transfer to Own Account

Transactions must meet requirements to qualify for this interchange program.

Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • MON1 is not applicable for interregionalPDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C54 when transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F54 or C54 when transaction processing code is a value 00 or 20 • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 43 equals C54. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 43 equals F54.

IRD Q5: Interregional Business Disbursement

Transactions must meet requirements to qualify for this interchange program.

Criteria	Requirement
Card program ID	DMC, MCC, MSI
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city name	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.

Criteria	Requirement
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Note	In the First Presentment/1240 message: • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C56 when transaction processing code is a value of 00, 20, or 28. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20.

IRD Q9: Interregional Rapid Merchant Settlement

Transactions must meet requirements to qualify for this interchange program.

Acceptor country code	Required Cannot contain spaces.

Criteria	Requirement
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Note	In the First Presentment/1240 message: • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F08 when the transaction processing code is a value 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. • The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equal F08.

IRD QN: Interregional Cash in at ATM

Transactions must meet requirements to qualify for this interchange program.

Card program ID	DMC, MCC, MSI
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	28 = Payment Transaction

Criteria	Requirement
Acceptor business (AB) program	- MON1: MoneySend - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal (zip) code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Note	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1 [automated dispensing machine]), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain value C60 when the processing code value 28. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to be used only with Processing Code 28, used with MoneySend Payment Transactions.

Interregional Mastercard rewards and rebate interchange criteria

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	This requirement applies only to transactions acquired in the Asia/Pacific, Canada, Latin America and the Caribbean, and Middle East/Africa (MEA) regions. None

Criteria	Requirement
Purchasing Card account ranges, and Mastercard Fleet Card (MCF), Mastercard Government Commercial Card (MGF), and Mastercard Public Sector Commercial Card (MNF) account ranges at non-fuel locations.	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.
Purchasing Card account ranges, and Mastercard Fleet Card (MCF), Mastercard Government Commercial Card (MGF), and Mastercard Public Sector Commercial Card (MNF) account ranges at non-fuel locations.	Not eligible
Mastercard BusinessCard, Debit Mastercard BusinessCard, and Mastercard Commercial Card account ranges	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.
Notes	The payment service provider must be a qualified and registered Payment Transaction service provider. In the First Presentment/1240: - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the acceptor URL.

Interregional Mastercard humanitarian interchange criteria

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 09: Purchase (Goods and Services) with Cash Back (only for use with Mastercard Debit Card Products) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)

Criteria	Requirement
Acceptor business (AB) program	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros

Criteria	Requirement
Acceptor postal code	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor state, province, or region code	Required for transactions occurring in Canada and the United States. When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains CAN or USA, this subfield must contain a valid state or province code for the country identified. Not required for all other countries.
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	Purchase (Goods and Services) with Cash Back transactions are accepted for Debit Mastercard transactions only. For DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type), value 09, DE 54 (Amounts, Additional), subfield 5 (Additional Amount, Amount) must be submitted with all Purchase (Goods and Services) with Cash Back transactions to identify the cash back portion of the transaction from DE 4 (Amount, Transaction). The cash back amount in DE 54, subfield 5 must be submitted in the same currency as the transaction. NOTE: This program is not open to all issuers by default. Mastercard will evaluate the program and will determine which issuers can participate in the program.

Interregional Private Label interchange criteria

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

IRD criteria details

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First Chargeback/1442
Processing code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return) 28: Payment Transaction (valid only with AB program D001)
Acceptor business (AB) program	- A001: Airline - B001: Cruise/Steamship - D001: Payment Transaction (valid only for processing code 28) - F001: Restaurant - H001: Lodging - M001: Mail Order/Telephone Order - OTH1: Other - P001: Beauty Salons - R001: Railways - S001: Supermarket - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid approval code.

Criteria	Requirement
Magnetic stripe data from authorization message	Not required
Trace ID	Required Must contain a valid Banknet Reference Number, and the Banknet Date must contain a valid date in the format MMDD Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid trace ID.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor state, province, or region code	Required for transactions occurring in Canada and the United States When DE 43 (Acceptor name/location), subfield 6 (Acceptor country code) contains CAN or USA, this subfield must contain a valid state or province code for the country identified. Not required for all other countries
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Private Label Common Data)/1644 or Financial Detail Addendum (Private Label Line Item Detail)/1644.
Notes	None

Latin America and the Caribbean region interchange criteria

This chapter includes the transaction criteria for the interchange programs that Mastercard supports in this region. The interchange programs discussed in this chapter apply to all intraregional transactions conducted using a Mastercard® card issued by a customer in this region and acquired by a customer in this region.

GCMS timeliness criterion.....	656
IRD 20: Intraregional Consumer Payment Transaction.....	656
IRD 21: Intraregional Commercial Payment Transaction.....	658

IRD YH: Intraregional Consumer Rate III, Base, Premium.....	741
IRD YI: Intraregional Consumer Rate III, Base, Super Premium.....	743
IRD ZX: Intraregional Humanitarian Standard.....	745

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Intraregional Consumer Payment Transaction

Transactions must meet requirements to qualify for this Latin America and the Caribbean region interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Consumer credit: GCP, MBK, MCC, MCE, MCG, MCS, MCW, MGP, MIU, MLB, MNW, MRC, MRG, MTP, MWE, MWJ, MWK, MWL, SUR Consumer debit: ACS, MDG, MDO, MDS, MDW, MFI, MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPV, MPX, MPY, MRH Consumer prepaid: MPG, MRH
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Criteria	Requirement
Processing code	28: Payment Transaction
Acceptor business (AB) program	D001: Payment Transactions Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required for all transactions in which the acceptor country code is BRA (Brazil) or MEX (Mexico) Not required for all other transactions
Acceptor city	Not required
Acceptor postal code	Required for all transactions in which the acceptor country code is BRA (Brazil) or MEX (Mexico) Not required for all other transactions
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	In the First Presentment/1240: - DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. - PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-person Payment). - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 21: Intraregional Commercial Payment Transaction

Transactions must meet requirements to qualify for this Latin America and the Caribbean interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC

Criteria	Requirement
GCMS product ID	Commercial credit: MAB, MAC, MBD, MCB, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLD, MLL, MNF, MPW, MRW, MWB Commercial debit: BPE The following is accepted at non-fuel locations: MCF Commercial prepaid: MBP
Message type ID	First Presentments/1240
Processing code	28: Payment Transaction
Acceptor business (AB) program	D001: Payment Transactions Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID Code	Required
Acceptor name	Required
Acceptor street address	Required for all transactions in which the acceptor country code is BRA (Brazil) or MEX (Mexico) Not required for all other transactions
Acceptor City	Not required
Acceptor postal code	Required for all transactions in which the acceptor country code is BRA (Brazil) or MEX (Mexico) Not required for all other transactions
Acceptor state, province, or region code	Not required

Criteria	Requirement
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Not required
Notes	In the First Presentment/1240: • DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. • PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-person Payment). • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 2A: Intraregional Mastercard Initiated Rewards

Transactions must meet requirements to qualify for this Latin America and the Caribbean interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Consumer credit: GCP, MBK, MCC, MCE, MCG, MCS, MCT, MCW, MGP, MIU, MLB, MPL, MRC, MRG, MTP, MWE, MWJ, MWK, MWL, SUR Consumer debit: ACS, BPE, MDG, MDO, MDP, MDS, MDW, MFI, MHA, MHB, MHH, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPV, MPX, MPY, MRH Consumer prepaid: MPG, MRH Commercial credit: MAB, MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLL, MNF, MPW, MRW, MWB Commercial prepaid: MBP
Message type ID	First Presentment/1240
Processing code	20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	I001: Mastercard-Initiated Rebate/Reward Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street Address	Not required

Criteria	Requirement
Acceptor city	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor postal code	Required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None

IRD 47: Intraregional Mastercard Electronic Card Commercial

Transactions must meet requirements to qualify for this Latin America and the Caribbean interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	MCC
GCMS product ID	Commercial credit: MBE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)

Criteria	Requirement
Acceptor business (AB) program	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • OTH2: Other. All MCCs assigned to OTH1 except MCC 5542 (Fuel Dispenser, Automated) • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Required for all transactions, except Internet transactions Refer to "Notes" in this table.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.

Criteria	Requirement
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table Must contain an MCC other than one of the following: • MCC 5542 (Fuel Dispenser, Automated) • Mail order/telephone order (MO/TO) MCCs: – MCC 5960 (Direct Marketing: Insurance Services) – MCC 5962 (Direct Marketing: Travel Related Arrangement Services) – MCC 5964 (Direct Marketing: Catalog Merchants) – MCC 5965 (Direct Marketing: Combination Catalog and Retail Merchants) – MCC 5966 (Direct Marketing: Outbound Telemarketing Merchants) – MCC 5967 (Direct Marketing: Inbound Telemarketing Merchants) – MCC 5968 (Direct Marketing: Continuity/Subscription Merchants) – MCC 5969 (Direct Marketing: Other Direct Marketers: Not Elsewhere Classified)
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required for all transactions in which the acceptor country code is BRA (Brazil) or MEX (Mexico) Not required for all other transactions
Acceptor city	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Required for all transactions in which the acceptor country code is BRA (Brazil) or MEX (Mexico) Not required for all other transactions
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces

Criteria	Requirement
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Not required
Notes	Customers must have a Mastercard Electronic license agreement with Mastercard to acquire Mastercard Electronic transactions. For Internet transactions, the First Presentment/1240 should include the following: • PDS 0023 (Terminal Type), the value of CT6 indicating CAT level 6 (electronic commerce transaction). • PDS 0052 (Electronic Commerce Security Level Indicator), subfield 3 (UCAF Collection Indicator) is required and must contain the value of 2 (both merchant and issuer are UCAF-enabled, as indicated in the Authorization Request/0100 and Authorization Request Response/0110 messages). For Internet transactions, the authorization log must contain the following: • DE 22 (Point-of-Service (POS) Entry Mode), subfield 1 (POS Terminal PAN Entry Mode) with the value 81 • DE 48 (Additional Data: Private Use), subelement 42 (Electronic Commerce Indicators), position 1 (Security Protocol) with a value 0–9 • DE 48, subelement 42, position 2 (Cardholder Authentication) with a value 0–9 • DE 48, subelement 42, position 3 (UCAF Collection Indicator) with a value 0, 1, or 2 • DE 48, subelement 43 (Universal Cardholder Authentication Field [UCAF]) when DE 48, subelement 42, position 3 contains a value of 2 • DE 61 (Point-of-Service [POS] Data), subfield 4 (POS Cardholder Presence) with a value of 5 indicating electronic order • DE 61, subfield 10 (Cardholder-Activated Terminal Level) with a value of 6 indicating e-commerce transaction (CAT Level 6)

IRD 57: Intraregional Consumer Private Label

Transactions must meet requirements to qualify for this Latin America and the Caribbean interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	PVL
GCMS product ID	Consumer credit: PVA, PVB, PVC, PVD, PVE, PVF, PVG, PVH, PVI, PVJ, PVL
Message type ID	- First and Second Presentments/1240 - First Chargeback/1442
Processing code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return) 28: Payment Transaction (valid only with AB program D001)
Acceptor business (AB) program	- A001: Airline - B001: Cruise/Steamship - D001: Payment Transactions (valid only for processing code 28) - F001: Restaurant - H001: Lodging - M001: Mail Order/Telephone Order - OTH1: Other - P001: Beauty Salons - R001: Railways - S001: Supermarket - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None

Criteria	Requirement
Approval code	Required Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid approval code.
Magnetic stripe data from authorization message	Not required
Trace ID	Required Must contain a valid Banknet Reference Number, and the Banknet Date must contain a valid date in the format MMDD Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid trace ID.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required for all transactions acquired in which the acceptor country code is BRA (Brazil) or MEX (Mexico) Not required for all other transactions
Acceptor City	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Required for all transactions acquired in which the acceptor country code is BRA (Brazil) or MEX (Mexico) Not required for all other transactions
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Private Label)/1644.
Notes	None

IRD 57: Intraregional Commercial Private Label

Transactions must meet requirements to qualify for this Latin America and the Caribbean interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	PVL

Financial Detail Addendum/1644	Not required
Notes	None

IRD LD: Intraregional Regulated POS Debit

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Consumer credit: MIU, MRC, MRG, SUR Consumer debit: ACS, MDG, MDH, MDO, MDP, MDS, MDU, MDW, MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY Commercial credit: MBD, MDB, MPW, MRW Commercial debit: BPE, MDT
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 09: Purchase (Goods and Services) with Cash Back (only for use with Debit Mastercard Products) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)
Acceptor business (AB) program	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - M001: Mail Order/Telephone Order - OTH1: Other - P001: Beauty Salons - R001: Railways - S001: Supermarket - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required

Criteria	Requirement
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Not required
Acceptor state, province, or region Code	Not required
Acceptor country code	Required Must contain ASM (American Samoa), GUM (Guam), MNP (Northern Mariana Islands), PRI (Puerto Rico), VIR (U.S. Virgin Islands), or USA (United States)
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	When submitted for a commercial card transaction, all MCCs require the following Financial Detail Addendum (Corporate Card Common Data Requirements)/1644 data: • PDS 0595 (Acceptor Type) • PDS 0596 (Acceptor Tax ID)

Criteria	Requirement
Notes	To qualify for this interchange program, the issuer must have a regulatory status of B (Base) associated with the account range. This interchange program is not subject to interchange compliance validation. This program is valid for regulated domestic transactions occurring in the U.S. Virgin Islands, as well as regulated intraregional transactions between Puerto Rico and the U.S. Virgin Islands, as per the Durbin Amendment. Purchase (Goods and Services) with Cash Back transactions are accepted for Debit Mastercard transactions only. For DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type), value 09, DE 54 (Amounts, Additional), subfield 5 (Additional Amount, Amount) must be submitted with all Purchase (Goods and Services) with Cash Back transactions to identify the cash back portion of the transaction from DE 4 (Amount, Transaction). The cash back amount in DE 54, subfield 5 must be submitted in the same currency as the transaction.

IRD LF: Intraregional Regulated POS Debit with Fraud Adjustment

Transactions must meet requirements to qualify for this interchange program.

Processing code	00: Purchase (Goods and Services) 28: Payment Transaction
Acceptor business (AB) program	MON1: MoneySend Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table

Criteria	Requirement
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required for all transactions in which the acceptor country code is BRA (Brazil) or MEX (Mexico) Not required for all other transactions
Acceptor city	Not required
Acceptor postal code	Required for all transactions in which the acceptor country code is BRA (Brazil) or MEX (Mexico) Not required for all other transactions
Acceptor state, province, or region Code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard MoneySend Payment transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. • PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the Acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

IRD Q1: Intraregional Transfer to Own Debit or Prepaid Card Account

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC, MSI
GCMS Product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing Code	00: Purchase (Goods and Services) 20: Credit (Purchase Return)
Acceptor Business (AB) Program	MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None

Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C54 when transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F54 or C54 when transaction processing code is a value 00 or 20 • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 43 equals C54. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 43 equals F54.

IRD Q5: Intraregional Business Disbursement

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC, MSI
GCMS Product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message Type ID	- First and Arbitration Chargebacks/1442 - First and Second Presentments/1240 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing Code	00 = Purchase (Goods and Services) 20 = Credit (Purchase Return) 28 = Payment Transaction
Acceptor Business (AB) Program	- MON1: MoneySend - MON2: Funding - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required

Criteria	Requirement
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City	Not required
Acceptor Postal (ZIP) Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C55 when transaction processing code is a value 28. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C55 or F55 when transaction processing code is a value 00 or 20. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. - MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). - MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C55. - MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F55.

IRD Q6: Intraregional Transfer to Own Staged Digital Wallet

Transactions must meet requirements to qualify for this interchange program.

The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions) if PDS 43 equals C59.

IRD QR: Intraregional Merchant Presented QR

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI

Criteria	Requirement
GCMS product ID	All valid GCMS Product Identifiers for MCC, DMC, and MSI Card Program ID* * Refer to "PDS 0002: GCMS Product Identifier" in <i>IPM Clearing Formats</i> manual.
Message type ID	First Presentments/1240
Processing code	00: Purchase Transaction 28: Payment Transaction
Acceptor business (AB) program	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - M001: Mail Order/Telephone Order - MON1: MoneySend - OTH1: Other - P001: Beauty Salons - R001: Railways - S001: Supermarket - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required

Criteria	Requirement
Acceptor street address	Required for all transactions acquired in which the acceptor country code is AUS (Australia), CHN (China), IND (India), or JPN (Japan). Not required for all other transactions
Acceptor city	Not required
Acceptor postal code	Required for all transactions acquired in which the acceptor country code is AUS (Australia), CHN (China), IND (India), or JPN (Japan). Not required for all other transactions
Acceptor state, Province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	PDS 0043 (Program Registration ID) is required and must contain value C67 (Merchant Presented QR) or C68 (Merchant Presented QR Refund). PDS 0004 (Funding Account Information) is required for all Masterpass QR Payment (Processing Code 28) transactions. Card Program ID MSI (Maestro) is only available for transactions with Processing Code 00 (Purchase Transactions). PDS 0674 (Additional Trace/Reference Number Used by Acceptor) is required for all Masterpass QR Funding (Processing Code 00) transactions.

IRD QX: Intraregional Fast Refund to Original Card

Transactions must meet requirements to qualify for this interchange program.

Acceptor city	Required Must be left-justified and cannot contain all spaces or all zeros

Criteria	Requirement
Acceptor postal code	Required for all transactions acquired in which the acceptor country code is AUS (Australia), BRA (Brazil), CAN (Canada), CHN (China), DEU (Germany), ESP (Spain), FRA (France), GBR (United Kingdom), IND (India), ITA (Italy), JPN (Japan), MEX (Mexico), POL (Poland), RUS (Russian Federation), or USA (United States) Not required for all other transactions
Acceptor state, province, or region code	Required for transactions occurring in Canada and the United States. When DE 43 (Acceptor Name/Location), subfield 6 (Acceptor Country Code) contains CAN or USA, this subfield must contain a valid state or province code for the country identified. Not required for all other countries.
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	Purchase (Goods and Services) with Cash Back transactions are accepted for Debit Mastercard transactions only. For DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type), value 09, DE 54 (Amounts, Additional), subfield 5 (Additional Amount, Amount) must be submitted with all Purchase (Goods and Services) with Cash Back transactions to identify the cash back portion of the transaction from DE 4 (Amount, Transaction). The cash back amount in DE 54, subfield 5 must be submitted in the same currency as the transaction. NOTE: This program is not open to all issuers by default. Mastercard will evaluate the program and will determine which issuers can participate in the program.

IRD EF: Intracountry Consumer Super Premium Full UCAF

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Technical requirements
Card program identifier	DMC
GCMS product identifier	Commercial debit: BPD, MDT, MDB Consumer core debit: MDG, MDS, MIU Consumer credit: MBK, MWE Consumer debit: MDW Consumer premium debit: MDP Consumer super premium debit: MDW
Message type identifier	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Good and Services) 18: Unique Transaction (Requires Unique MCC) 20: Credit (Purchase Return)
Acceptor business program (AB) and acceptor business code (MCC)	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - M001: Mail Order/Telephone Order - OTH1: Other - P001: Beauty Salons - R001: Railways - S001: Supermarkets - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.

Criteria	Technical requirements
Timeliness	Five days - Holidays are not excluded - Transaction date is excluded - File header date is not excluded
Approval code	Required
Magnetic stripe data from authorization message	Not required Refer to notes section at the end of this table.
Trace ID	Required Must contain a valid Banknet Reference Number, and the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Travel-related addendum messages may be provided if DE 26 (Acceptor Business Code) is travel related.
Notes	In the First Presentment/1240 message: - PDS 0023 (Terminal Type) is required and must contain the value of CT6 indicating CAT level 6 (electronic commerce transaction) - PDS 0052 (Electronic Commerce Security Level Indicator), subfield 3 (UCAF Collection Indicator) is required and must contain the value 2 (Both merchant and issuer are UCAF-enabled, as indicated in the Authorization Request/0100 message) or 5 (Issuer risk based decisioning).

IRD ES: Intracountry Consumer Super Premium Standard

Transactions must meet requirements to qualify for this interchange program.

Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.

Criteria	Technical requirements
Point of service data code	Required as follows: • Subfield 1 (Card Data Input Capability) must be 5, C, D, E, or M • Subfield 4 (Terminal Operating Environment) must be 1 or 3 • Subfield 5 (Cardholder Present Data) must be 0 • Subfield 6 (Card Present Data) must be 1 • Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S Not required for all other subfields.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table. Must contain an MCC other than one of the following: • MCC 5542: Automated Fuel Dispenser • Mail order (MO) and telephone order (TO) MCCs – MCC 5960: Direct Marketing Insurance Services – MCC 5962: Direct Marketing Travel Related Arrangement Services – MCC 5964: Direct Marketing Catalog Merchants – MCC 5965: Direct Marketing Combination Catalog and Retail Merchants – MCC 5966: Direct Marketing Outbound Telemarketing Merchants – MCC 5967: Direct Marketing Inbound Telemarketing Merchants – MCC 5968: Direct Marketing Continuity/Subscription Merchants – MCC 5969: Direct Marketing Other Direct Marketers Not Elsewhere Classified
Amount tolerance	N/A
Service code	Required The first position must be 1, 5, or 7 (card is not an Integrated Circuit Card)
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Technical requirements
Financial Detail Addendum/ 1644	None
Notes	This interchange program requires specific values in DE 22 and DE 40. They are described above. The card and cardholder must be present at the time of the transaction and the transaction must be face-to-face. Transactions that do not fully qualify for this interchange program must be submitted for IRD 73, 83: Intracountry Consumer Electronic. The following transactions must be submitted for IRD 73, 83: Intracountry Consumer Electronic instead of the chip interchange programs: • Transactions that do not fully qualify for IRD 34: Intracountry Consumer Acquirer Chip • Transactions for which both the issuer and acquirer are chip compliant

IRD 61: Intracountry Commercial Standard

Transactions must meet requirements to qualify for this interchange program.

Criteria	Requirement
Message type ID	First and Second Presentments/1240 First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Good and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	MON2: Funding MCC must be in an AB program previously listed in this table
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Accept business code (MCC)	Required MCC must be in an AB program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance

Criteria	Requirement
	payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution.
	MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions).
	MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07.
	MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

GCMS product ID	Consumer credit: MBK, MCE, MCG, MCS, MCU, MIC, MPL Consumer debit: MDG, MDP, MDS, MDW, MIS, MIU Consumer prepaid: MIP, MPA, MPG, MPY, MRC, MRG, MRH, MUS, SUR Commercial credit: MAB, MBE, MCB, MCF, MCO, MCP, MEB, MEO, MLA, MLC, MLD, MLL, MNF, MPC, MWB Commercial debit: BDP, MDT, MDB Commercial prepaid: MRW World Elite Business Debit: BPE
Message type ID	First and Second Presentments/1240 First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Good and Services) 20: Credit (Purchase Return)
Acceptor business (AB) program	MON1: MoneySend MON2: Funding MCC must be in an AB program previously listed in this table
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.

Antigua and Barbuda intracountry interchange criteria
IRD Q7: Antigua and Barbuda Intracountry General Business-to-Business Transfer

Criteria	Requirement
Accept business code (MCC)	Required MCC must be in an AB program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0043(Transaction Type Identifier) is required and must contain a value of C65 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F65 and C65 when transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. • MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). • MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C65. • MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F65.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 01: Argentina Intracountry Public Sector/Utilities

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial credit: MAB, MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLD, MLL, MNF, MWB Commercial debit: BPD, MDT Commercial prepaid: MPW Consumer credit: GCP, SMBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MPL Consumer debit: MDG, MDH, MDO, MDP, MDS, MDW, MHB, MHH Consumer prepaid: MHA, MPA, MPF, MPM, MPN, MPO, MPR, MPT, MPV, MPX, MPY World Elite Business Debit: BPE

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 09: Purchase (Goods and Services) with Cash Back (only for use with DMC card program IDs) 20: Credit (Purchase Return)
Acceptor business (AB) program	ARG1: Argentina Public Sector/Utilities Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces

Criteria	Requirement
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	Purchase (Goods and Services) with Cash Back transactions are accepted for Debit Mastercard transactions only. For DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type), value 09, DE 54 (Amounts, Additional), subfield 5 (Additional Amount, Amount) must be submitted with all Purchase (Goods and Services) with Cash Back transactions to identify the cash back portion of the transaction from DE 4 (Amount, Transaction). The cash back amount in DE 54, subfield 5 must be submitted in the same currency as the transaction.

IRD 02: Argentina Intracountry Emerging Markets

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial credit: MAB, MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLD, MLL, MNF, MWB Commercial debit: BPD, MDT Commercial prepaid: MPW Consumer credit: GCP, MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MPL Consumer debit: MDG, MDH, MDO, MDP, MDS, MDW, MHB, MHH Consumer prepaid: MHA, MPA, MPF, MPM, MPN, MPO, MPR, MPT, MPV, MPX, MPY World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Timeliness	None
Approval code	Not required

Argentina intracountry interchange criteria
 IRD 20: Argentina Intracountry Consumer Payment Transaction

Criteria	Requirement
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	In the First Presentment/1240: - DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. - PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-person Payment). - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 2A: Argentina Intracountry Mastercard Initiated Rewards

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC

Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0175 (Acceptor URL) should contain the acceptor URL. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Argentina Intracountry General Person-to-Person Transfer

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial credit: MAB, MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MGF, MLA, MLC, MPB, MPC, MWB, MWO, TCB, TCO Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MPL Consumer debit: MDG, MDH, MDO, MDP, MDS, MDW, MHB, MHH Consumer prepaid: MIP, MPA, MPG, MPM, MPN, MPO, MPP, MPR, MPV, MPX, MPY, MRC, MRG, MRH, MTP, SUR World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction

Criteria	Requirement
Acceptor business (AB) program	• MON1: MoneySend • MON2: Funding NOTE: MON1 is not applicable for interregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the Quick Reference Booklet.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	In the First Presentment/1240: • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C57 when the transaction processing code is a value 00, 20, or 28. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20.

IRD QL: Argentina Intracountry Agent Cash Out

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC

Criteria	Requirement
GCMS product ID	Commercial credit: MAB, MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MGF, MLA, MLC, MPB, MPC, MWB, MWO, TCB, TCO Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MPL Consumer debit: MDG, MDH, MDO, MDP, MDS, MDW, MHB, MHH Consumer prepaid: MIP, MPA, MPG, MPM, MPN, MPO, MPP, MPR, MPV, MPX, MPY, MRC, MRG, MRH, MTP, SUR World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding NOTE: MON1 is not applicable for interregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required

Criteria	Requirement
Acceptor city	Not Required
Acceptor postal code	Not Required
Acceptor state, province, or region code	Not Required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C53 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C53 or F53 when the transaction processing code is a value of 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C53. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equal F53.

IRD QM: Argentina Intracountry Person-to-Person Transfer to Card Account

Transactions must meet requirements to qualify for this interchange program.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Aruba Intracountry Consumer Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial debit: BPD, MDT Consumer credit: MBK, MCC, MCE, MCG, MCS, MIU, MNW Consumer debit: MDG, MDO, MDS, MDW Consumer prepaid: MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRC, MRG, MRH, SUR
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Criteria	Requirement
Processing code	28: Payment Transaction
Acceptor business (AB) program	D001: Payment Transactions GAM1: Gaming
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	In the First Presentment/1240: - DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. - PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-person Payment). - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 21: Aruba Intracountry Commercial Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

Criteria	Requirement
Notes	In the First Presentment/1240: - DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. - PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-person Payment). - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 33: Aruba Intracountry Consumer Core Issuer Chip

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial debit: BPD, MDT Consumer credit: MCC, MCE, MCG, MCS, MIU Consumer debit: MDG, MDS Consumer prepaid: MIP, MPA, MPG, MPP, MPY, MRC, MRG, SUR World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)
Acceptor business (AB) program	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - OTH2: Other. All MCCs assigned to OTH1 except MCC 5542 (Fuel Dispenser, Automated) - P001: Beauty Salons - R001: Railways - S001: Supermarket - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.

Criteria	Requirement
Timeliness	Five days - Holidays are not excluded. - Transaction date is excluded. - File header date is not excluded.
Approval code	Required
Magnetic stripe data from authorization message	Magnetic stripe data must be provided, if captured. Removed Non-processing days are excluded and or Non-processing days (Sundays) are excluded first bullet per AN 6027.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Point of service data code	Required, as follows: - Subfield 1 (Card Data Input Capability) must be 0, 1, 2, 4, 6, A, B, or V. - Subfield 4 (Terminal Operating Environment) must be 1 or 3. - Subfield 5 (Cardholder Present Data) must be 0. - Subfield 6 (Card Present Data) must be 1. - Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S. Not required for all other subfields

Criteria	Requirement
Acceptor business code (MCC)	Required RemovedMust contain an MCC belonging to an acceptor business (AB) program previously listed in this table Must contain an MCC other than one of the following: • MCC 5542 (Automated Fuel Dispenser) • Mail order/telephone order (MO/TO) MCCs: – MCC 5960 (Direct Marketing: Insurance Services) – MCC 5962 (Direct Marketing: Travel Related Arrangement Services) – MCC 5964 (Direct Marketing: Catalog Merchants) – MCC 5965 (Direct Marketing: Combination Catalog and Retail Merchants) – MCC 5966 (Direct Marketing: Outbound Telemarketing Merchants) – MCC 5967 (Direct Marketing: Inbound Telemarketing Merchants) – MCC 5968 (Direct Marketing: Continuity/ Subscription Merchants) – MCC 5969 (Direct Marketing: Other Direct Marketers: Not Elsewhere Classified)
Amount tolerance	N/A
Service code	Required The first position must be 2 or 6 (Integrated Circuit Card).
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces

Criteria	Requirement
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	This interchange program requires specific values in DE 22 and DE 40. They are described above. The card and cardholder must be present at the time of the transaction and the transaction must be face-to-face. Transactions that do not fully qualify for this interchange program must be submitted for IRD 73, 83: Intraregional Consumer Electronic. The following transactions must be submitted for IRD 73, 83: Intraregional Consumer Electronic instead of the Chip interchange programs: • Transactions that do not fully qualify for IRD 33: Intraregional Consumer Issuer Chip. • Transactions for which both the issuer and acquirer are chip compliant.

IRD 34: Aruba Intracountry Consumer Core Acquirer Chip

Transactions must meet requirements to qualify for this interchange program.

GCMS product ID	Commercial debit: BPD, MDT Consumer credit: MCC, MCE, MCG, MCS, MIU Consumer debit: MDG, MDS Consumer prepaid: MIP, MPA, MPG, MPP, MPY, MRC, MRG, SUR World Elite Business Debit: BPE
Message type ID	• First and Second Presentments/1240 • First and Arbitration Chargebacks/1442

Criteria	Requirement
Processing code	• 00: Purchase (Goods and Services) • 18: Unique Transaction (requires unique MCC) • 20: Credit (Purchase Return)
Acceptor business (AB) program	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • OTH2: Other. All MCCs assigned to OTH1 except MCC 5542 (Fuel Dispenser, Automated) • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	Five days • Holidays are not excluded. • Transaction date is excluded. • File header date is not excluded.
Approval code	Required
Magnetic stripe data from authorization message	Magnetic Stripe data must be provided, if captured.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.

Criteria	Requirement
Point of service data code	Required, as follows: • Subfield 1 (Card Data Input Capability) must be 5, C, D, E, or M. • Subfield 4 (Terminal Operating Environment) must be 1 or 3. • Subfield 5 (Cardholder Present Data) must be 0. • Subfield 6 (Card Present Data) must be 1. • Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S. Not required for all other subfields
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table Must contain an MCC other than one of the following: • MCC 5542 (Automated Fuel Dispenser) • Mail order/telephone order (MO/TO) MCCs: – MCC 5960 (Direct Marketing: Insurance Services) – MCC 5962 (Direct Marketing: Travel Related Arrangement Services) – MCC 5964 (Direct Marketing: Catalog Merchants) – MCC 5965 (Direct Marketing: Combination Catalog and Retail Merchants) – MCC 5966 (Direct Marketing: Outbound Telemarketing Merchants) – MCC 5967 (Direct Marketing: Inbound Telemarketing Merchants) – MCC 5968 (Direct Marketing: Continuity/ Subscription Merchants) – MCC 5969 (Direct Marketing: Other Direct Marketers: Not Elsewhere Classified)
Amount tolerance	N/A
Service code	Required The first position must be 1, 5, or 7 (card is not an Integrated Circuit Card).
Acceptor ID code	Required
Acceptor name	Required

Criteria	Requirement
Acceptor street address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	N/A
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	This interchange program requires specific values in DE 22 and DE 40. They are described above. The card and cardholder must be present at the time of the transaction and the transaction must be face-to-face. The following transactions must be submitted for IRD 73, 83: Aruba Intracountry Consumer Core Electronic instead of the Chip interchange programs: • Transactions that do not fully qualify for IRD 34: Aruba Intracountry Consumer Core Acquirer Chip. • Transactions for which both the issuer and acquirer are chip compliant.

IRD 47: Aruba Intracountry Mastercard Electronic Card Commercial

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	MCC

Criteria	Requirement
GCMS product ID	Commercial credit: MBE Commercial debit: BPD, MDT, MDB Consumer core debit: MDG, MDS, MIU Consumer premium debit: MDP Consumer super premium debit: MDW
Message type ID	• First and Second Presentments/1240 • First and Arbitration Chargebacks/1442
Processing code	• 00: Purchase (Goods and Services) • 18: Unique Transaction (requires unique MCC) • 20: Credit (Purchase Return)
Acceptor business (AB) program	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • OTH2: Other. All MCCs assigned to OTH1 except MCC 5542 (Fuel Dispenser, Automated) • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Required for all transactions, except Internet transactions Refer to "Notes" in this table.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.

Criteria	Requirement
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table Must contain an MCC other than one of the following: • MCC 5542 (Fuel Dispenser, Automated) • Mail order/telephone order (MO/TO) MCCs: – MCC 5960 (Direct Marketing: Insurance Services) – MCC 5962 (Direct Marketing: Travel Related Arrangement Services) – MCC 5964 (Direct Marketing: Catalog Merchants) – MCC 5965 (Direct Marketing: Combination Catalog and Retail Merchants) – MCC 5966 (Direct Marketing: Outbound Telemarketing Merchants) – MCC 5967 (Direct Marketing: Inbound Telemarketing Merchants) – MCC 5968 (Direct Marketing: Continuity/ Subscription Merchants) – MCC 5969 (Direct Marketing: Other Direct Marketers: Not Elsewhere Classified)
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Not required

Criteria	Requirement
Notes	Customers must have a Mastercard Electronic license agreement with Mastercard to acquire Mastercard Electronic transactions. For Internet transactions, the First Presentment/1240 should include the following: • PDS 0023 (Terminal Type), the value CT6, indicating CAT level 6 (electronic commerce transaction). • PDS 0052 (Electronic Commerce Security Level Indicator), subfield 3 (UCAF Collection Indicator), the value 2 (both merchant and issuer are UCAF-enabled, as indicated in the Authorization Request/0100 and Authorization Request Response/0110 messages). For Internet transactions, the authorization log must contain the following: • DE 22 (Point-of-Service (POS) Entry Mode), subfield 1 (POS Terminal PAN Entry Mode) with the value 81 or 82. • DE 48 (Additional Data: Private Use), subelement 42 (Electronic Commerce Indicators), position 1 (Security Protocol) with a value 0–9. • DE 48, subelement 42, position 2 (Cardholder Authentication) with a value 0–9. • DE 48, subelement 42, position 3 (UCAF Collection Indicator) with a value 0, 1, or 2. • DE 48, subelement 43 (Universal Cardholder Authentication Field [UCAF]) when DE 48, subelement 42, position 3 contains a value of 2. • DE 61 (Point-of-Service [POS] Data), subfield 4 (POS Cardholder Presence) with a value of 5 indicating electronic order. • DE 61, subfield 10 (Cardholder-Activated Terminal Level) with a value of 6 indicating e-commerce transaction (CAT Level 6).

IRD 61: Aruba Intracountry Commercial

Transactions must meet requirements to qualify for this interchange program.

Financial Detail Addendum/1644	For Mastercard® MoneySend™ transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. • PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider.

Criteria	Requirement
	A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

IRD PE: Aruba Intracountry Consumer Premium Electronic

Transactions must meet requirements to qualify for this interchange program.

Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C59 when the transaction processing code is a value 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions) if PDS 43 equals C59.

Bahamas intracountry interchange criteria

This section includes the transaction criteria for the intracountry interchange programs for which there is an associated rate mandated by Mastercard. The transactions were conducted using a Mastercard® card issued by a customer in this country and acquired by a customer in this country.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Bahamas Intracountry Consumer Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC

Bahamas intracountry interchange criteria
IRD 20: Bahamas Intracountry Consumer Payment Transaction

Criteria	Requirement
GCMS product ID	Commercial credit: MAB, MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MLA, MWB Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCW, MCT, MIU, MPL Consumer debit: MDG, MDO, MDP, MDS, MDW, MHH Consumer prepaid: MIP, MPA, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRH, MRC, MRG, SUR
Message type ID	First and Second Presentments/1240 First and Arbitration Chargebacks/1442
Processing code	28: Payment Transaction
Acceptor business (AB) program	GAM1: Gaming Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain a MCC belonging to an AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required

Bahamas intracountry interchange criteria
IRD 20: Bahamas Intracountry Consumer Payment Transaction

Criteria	Requirement
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644

Criteria	Requirement
Notes	In the First Presentment/1240 message: - DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction - PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-Person Payment). - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the acceptor url. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collect funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered a bonafide agent relationship with said customer financial institution.

IRD 57: Bahamas Intracountry Consumer Private Label

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	PVL
GCMS product ID	Consumer private label: PVA, PVB, PVC, PVD, PVE, PVF, PVG, PVI, PVJ Private label: PVL
Message type ID	First and Second Presentments/1240 First Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 18: Unique Transaction (Unique MCC) 20: Credit (Purchase Return) 28: Payment Transaction

Criteria	Requirement
Acceptor business (AB) program	A001: Airline B001: Cruise/Steamship D001: Payment Transactions F001: Restaurant H001: Lodging M001: Mail Order/Telephone Order OTH1: Other OTH2: Other: Fuel Dispenser, Automated (MCC 5542) Excluded P001: Beauty Salons R001: Railways S001: Supermarket T001: Telephone U001: Unique V001: Automobile/Vehicle Rental W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid approval code.
Magnetic stripe data from authorization message	Not required
Trace ID	Required Must contain a valid Banknet reference number and the Banknet date must contain a valid date in the format MMDD. Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid trace ID.

Criteria	Requirement
Acceptor business code (MCC)	Required Must contain a MCC belonging to an AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Private Label Common Data)/1644 or Financial Addendum (Private Label Line-Item Detail)/1644.
Notes	None

IRD 57: Bahamas Intracountry Commercial Private Label

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	PVL
GCMS product ID	Commercial private label: PVA, PVB, PVC, PVD, PVE, PVF, PVG, PVI, PVJ Private label: PVL

Criteria	Requirement
Message type ID	First and Second Presentments/1240 First Chargebacks/1442

Timeliness	None
Approval code	Required Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid approval code.
Magnetic stripe data from authorization message	Not required

Criteria	Requirement
Trace ID	Required Must contain a valid Banknet reference number and the Banknet date must contain a valid date in the format MMDD. Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid trace ID.
Acceptor business code (MCC)	Required Must contain a MCC belonging to an AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Private Label Common Data)/1644 or Financial Addendum (Private Label Line-Item Detail)/1644.
Notes	None

IRD 73, 83: Bahamas Intracountry Electronic

Transactions meeting interchange program criteria qualify for associated rates.

IRD criteria details

Criteria	Technical requirements
Card program identifier	DMC, MCC
GCMS product identifier	Commercial credit: MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MLA, MNF, MWB Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MPL Consumer debit: MDG, MDO, MDP, MDS, MDW, MHB, MHH Consumer prepaid: MHA, MIP, MPA, MPG, MPF, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRC, MRG, SUR World Elite Business Debit: BPE
Message type identifier	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Good and Services) 18: Unique Transaction (Requires Unique MCC) 20: Credit (Purchase Return)

Criteria	Technical requirements
Acceptor business program (AB) and acceptor business code (MCC)	• A001: Airline • B001: Cruise/Steamship • C001: Cash Disbursement • D001: Payment Transactions • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • P001: Beauty Salons • R001: Railways • S001: Supermarkets • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club • Z001: ATM For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	Five days • Holidays are not excluded. • Transaction date is excluded. • File header date is not excluded.
Approval code	Required
Magnetic stripe data from authorization message	Required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.

Criteria	Technical requirements
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table. Must contain an MCC other than one of the following: • MCC 5542: Fuel Dispenser, Automated • Mail order/telephone order (MO/TO) MCCs: – MCC 5960: Direct Marketing: Insurance Services – MCC 5962: Direct Marketing: Travel Related Arrangement Services – MCC 5964: Direct Marketing: Catalog Merchants – MCC 5965: Direct Marketing: Combination Catalog and Retail Merchants – MCC 5966: Direct Marketing: Outbound Telemarketing Merchants – MCC 5967: Direct Marketing: Inbound Telemarketing Merchants – MCC 5968: Direct Marketing: Continuity/Subscription Merchants – MCC 5969: Direct Marketing: Other Direct Marketers: Not Elsewhere Classified
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor Country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None

Criteria	Technical requirements
Notes	The card and the cardholder must be present at the time of the transaction and the transaction must be face-to-face. Purchase (Goods and Services) with Cash Back transactions are accepted for Debit Mastercard transactions only. For DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type), value 09, DE 54 (Amounts, Additional), subfield 5 (Additional Amount, Amount) must be submitted with all Purchase (Goods and Services) with Cash Back transactions to identify the cash back portion of the transaction from DE 4 (Amount, Transaction). The cash back amount in DE 54, subfield 5 must be submitted in the same currency as the transaction. When used in the Asia/Pacific, Middle East/Africa (MEA), and Latin America and the Caribbean regions: - For chip transactions (both issuer and acquirer are chip compliant): - DE 40 (Service Code), position 1 must be provided with a value of 2 or 6. - DE 22 (Point of Service Data Code), subfield 1 (Card Data Input Capability) must be provided with a value of C, D, E, M, or 5. - For non-chip transactions (issuer, acquirer, or both do not meet the requirements for the Chip interchange programs): - DE 40, position 1 must be provided with a value of 1, 5, or 7. - DE 22, subfield 1 must be provided with a value of A, B, V, O, 1, 2, 4, or 6.

IRD 75, 85: Bahamas Intracountry Standard

Transactions meeting interchange program criteria qualify for associated rates.

Magnetic stripe data from authorization message	Not required

Bahamas intracountry interchange criteria
IRD Q2: Bahamas Intracountry General Person-to-Person Transfer

Criteria	Requirement
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City	Not required
Acceptor Postal (ZIP) Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

Acceptor State, Province, or Region Code	Not Required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C52 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C52 or F52 when the transaction processing code is a value 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 43 equals C52. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 43 equals F52.

IRD Q4: Bahamas Intracountry Payment of Own Credit Card Bill

Transactions must meet requirements to qualify for this interchange program.

Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F08 when the transaction processing code is a value 00 or 20. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equal F08.

IRD QN: Bahamas Intracountry Cash in at ATM

Transactions must meet requirements to qualify for this interchange program.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Barbados Intracountry Consumer Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial credit: MAB, MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MLA, MWB Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MPL Consumer debit: MDG, MDO, MDP, MDS, MDW, MHH Consumer prepaid: MIP, MPA, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRH, MRC, MRG, SUR

Criteria	Requirement
Message type ID	First and Second Presentments/1240 First and Arbitration Chargebacks/1442
Processing code	28: Payment Transaction
Acceptor business (AB) program	GAM1: Gambling For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i> .
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Bankenet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain a MCC belonging to an AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	In the First Presentment/1240 message: • DE 3 (Processing Code, subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. • PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-Person Payment). • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor url. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered a bonafide agent relationship with said customer financial institution.

IRD 57: Barbados Intracountry Consumer Private Label

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	PVL
GCMS product ID	Private Label: PVA, PVB, PVC, PVD, PVE, PVF, PVG, PVI, PVJ, PVL
Message type ID	First and Second Presentments/1240 First Chargebacks/1442

Criteria	Requirement
Processing code	00: Purchase (Goods and Services) 18: Unique Transaction (Unique MCC) 20: Purchase Return 28: Payment Transaction
Acceptor business (AB) program	A001: Airline B001: Cruise/Steamship D001: Payment Transactions F001: Restaurant H001: Lodging M001: Mail Order/Telephone Order OTH1: Other OTH2: Other: Fuel Dispenser, Automated (MCC 5542) Excluded P001: Beauty Salons R001: Railways S001: Supermarket T001: Telephone U001: Unique V001: Automobile/Vehicle Rental W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i> .
Timeliness	None
Approval code	Required Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid approval code.
Magnetic stripe data from authorization message	Not required
Trace ID	Required Must contain a valid Banknet Reference Number and the Banknet Date must contain a valid date in the format MMDD. Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid trace ID.

Criteria	Requirement
Acceptor business code (MCC)	Required Must contain a MCC belonging to an acceptor business (AB) program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Private Label Common Data)/1644 or Financial Detail Addendum (Private Label Line-Item Detail)/1644.
Notes	None

IRD 57: Barbados Intracountry Commercial Private Label

Transactions must meet requirements to qualify for this interchange program.

Barbados intracountry interchange criteria

IRD Q1: Barbados Intracountry Transfer to Own Debit or Prepaid Card Account

Criteria	Requirement
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City	Not required
Acceptor Postal (ZIP) Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: - PDS 0175 (Acceptor URL) should contain the acceptor URL. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Barbados Intracountry General Person-to-Person Transfer

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Commercial credit: MAB, MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MGF, MLA, MLC, MPB, MPC, MWB, MWO Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCU, MCW, MIC, MIU, MPL Consumer debit: MDG, MDO, MDP, MDS, MDW, MHH, MIS Consumer prepaid: MIP, MPA, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRH, MUS, MRC, MRG, SUR World Elite Business Debit: BPE
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction

Criteria	Requirement
Acceptor Business (AB) Program	• MON1: MoneySend • MON2: Funding NOTE: MON1 is not applicable for interregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City	Not required
Acceptor Postal (ZIP) Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

IRD Q3: Barbados Intracountry General Transfer to Own Account

Transactions must meet requirements to qualify for this interchange program.

Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City	Not required
Acceptor Postal (ZIP) Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	In the First Presentment/1240: • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C57 when transaction processing code is a value 00, 20, or 28. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20.

IRD QL: Barbados Intracountry Agent Cash Out

Transactions must meet requirements to qualify for this interchange program.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

Acceptor name	Required
Acceptor street address	Not required Required for all transactions in which the acceptor country code is BLZ (Belize). Not required for all other transactions.
Acceptor city name	Not required
Acceptor postal code	Not required Required for all transactions in which the acceptor country code is BLZ (Belize). Not required for all other transactions.
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	For Mastercard® MoneySend™ transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. • PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting

Criteria	Requirement
	minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

IRD Q1: Belize Intracountry Transfer to Own Debit or Prepaid Card Account

Transactions must meet requirements to qualify for this interchange program.

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return)
Acceptor business (AB) program	MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required

Belize intracountry interchange criteria

IRD Q1: Belize Intracountry Transfer to Own Debit or Prepaid Card Account

Criteria	Requirement
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0175 (Acceptor URL) should contain the acceptor URL. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Belize Intracountry General Person-to-Person Transfer

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None

Criteria	Requirement
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C52 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C52 or F52 when the transaction processing code is a value 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 43 equals C52. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 43 equals F52.

IRD Q4: Belize Intracountry Payment of Own Credit Card Bill

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI

The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions) if PDS 0043 equals C58.

IRD QO: Belize Intracountry Cash in at Point-of-Sale

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	28: Payment Transaction
Acceptor business (AB) program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not Required
Acceptor postal code	Not Required

Criteria	Requirement
Acceptor state, province, or region code	Not Required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C59 when the transaction processing code is a value 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions) if PDS 43 equals C59.

Bermuda intracountry interchange criteria

This section includes the transaction criteria for the intracountry interchange programs for which there is an associated rate mandated by Mastercard. The transactions were conducted using a Mastercard card issued by a customer in this country and acquired by a customer in this country.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Bermuda Intracountry Consumer Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirements
Card program identifier	DMC, MCC

Criteria	Requirements
GCMS product identifier	Commercial credit: MAB, MAC, MBA, MBD, MBG, MBH, MBI, MBJ, MBS, MCB, MCO, MDB, MEB, MEO, MLA, MLD, MLL, MWB Commercial debit: BDP, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCW, MIU, MPL, MWE Consumer debit: ACS, MDG, MDO, MDP, MDS, MDW Consumer prepaid: MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRH, MGP, MRC, MRG, MTP, SUR
Message type identifier	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	28: Payment Transaction
Acceptor business program (AB) and acceptor business code (MCC)	GAM1: Gaming For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Requirements
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.
Notes	In First Presentment/1240 messages - DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. - PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-Person Payment). - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 24: Bermuda Intracountry Consumer Merchant UCAF

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirements
Card program identifier	DMC, MCC
GCMS product identifier	Consumer credit: MCC, MCE, MCG, MCS, MIU Consumer debit: ACS, MDG, MDO, MDS Consumer prepaid: MGP, MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRC, MRG, SUR
Message type identifier	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Good and Services) 18: Unique Transaction (Requires Unique MCC) 20: Credit (Purchase Return)
Acceptor business program (AB) and acceptor business code (MCC)	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - M001: Mail Order/Telephone Order - OTH1: Other - P001: Beauty Salons - R001: Railways - S001: Supermarkets - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club For Acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	Five days - Holidays are not excluded - Transaction date is excluded - File header date is not excluded
Approval code	Required

Criteria	Requirements
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Travel-related addendum messages may be provided if DE 26: Acceptor Business Code is travel related.
Notes	In First Presentment/1240 messages - PDS 0023: Terminal Type is required and must contain the value of CT6 indicating CAT level 6: Electronic Commerce Transaction. - PDS 0052: Electronic Commerce Security Level Indicator, subfield 3: UCAF Collection Indicator is required and must contain the value 1: UCAF data collection is supported by the merchant, and UCAF data may be available.

IRD 33: Bermuda Intracountry Consumer Issuer Chip

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirements
Card program identifier	DMC, MCC
GCMS product identifier	Consumer credit: MCC, MCE, MCG, MCS, MIU Consumer debit: ACS, MDG, MDO, MDS Consumer prepaid: MGP, MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRC, MRG
Message type identifier	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Good and Services) 18: Unique Transaction (Requires Unique MCC) 20: Credit (Purchase Return)
Acceptor business program (AB) and acceptor business code (MCC)	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - OTH2: Other. All MCCs assigned to OTH1 except MCC 5542: Fuel Dispenser, Automated - P001: Beauty Salons - R001: Railways - S001: Supermarkets - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	Five days - Holidays are not excluded - Transaction date is excluded - File header date is not excluded
Approval code	Required

Criteria	Requirements
Magnetic stripe data from authorization message	Required Only face-to-face transactions are eligible.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Point of service data code	Required as follows: - Subfield 1 (Card Data Input Capability) must be 0, 1, 2, 4, 6, A, B, or V - Subfield 4 (Terminal Operating Environment) must be 1 or 3 - Subfield 5 (Cardholder Present Data) must be 0 - Subfield 6 (Card Present Data) must be 1 - Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S Not required for all other subfields.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table. Must contain an MCC other than one of the following: - MCC 5542: Automated Fuel Dispenser - Mail order (MO) and telephone order (TO) MCCs - MCC 5960: Direct Marketing Insurance Services - MCC 5962: Direct Marketing Travel Related Arrangement Services - MCC 5964: Direct Marketing Catalog Merchants - MCC 5965: Direct Marketing Combination Catalog and Retail Merchants - MCC 5966: Direct Marketing Outbound Telemarketing Merchants - MCC 5967: Direct Marketing Inbound Telemarketing Merchants - MCC 5968: Direct Marketing Continuity/Subscription Merchants - MCC 5969: Direct Marketing Other Direct Marketers Not Elsewhere Classified
Amount tolerance	N/A
Service code	Required The first position must be 2 or 6 (Integrated Circuit Card)
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required

Criteria	Requirements
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/ 1644	None
Notes	This interchange program requires specific values in DE 22 and DE 40. They are described above. The card and cardholder must be present at the time of the transaction and the transaction must be face-to-face. Transactions that do not fully qualify for this interchange program must be submitted for IRD 73, 83: Intracountry Consumer Electronic. The following transactions must be submitted for IRD 73, 83: Intracountry Consumer Electronic instead of the chip interchange programs: • Transactions that do not fully qualify for IRD 33: Intracountry Consumer Issuer Chip • Transactions for which both the issuer and acquirer are chip compliant

IRD 34: Bermuda Intracountry Consumer Acquirer Chip

Transactions must meet requirements to qualify for this interchange program.

IRD Q2: Bermuda Intracountry General Person-to-Person Transfer

Criteria	Requirement
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance

Criteria	Requirement
	payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution.
	MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions).
	MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07.
	MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043(Transaction Type Identifier) is required and must contain a value of C53 when the transaction processing code is a value of 28. • PDS 0043(Transaction Type Identifier) is required and must contain a value of C53 or F53 when the transaction processing code is a value of 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance

Criteria	Requirement
	payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. • MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). • MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C53. • MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equal F53.

IRD QM: Bermuda Intracountry Person-to-Person Transfer to Card Account

Transactions must meet requirements to qualify for this interchange program.

Service code	Required The first position must be 2 or 6 (card is an Integrated Circuit Card).
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None

Criteria	Technical requirements
Notes	Transactions that do not fully qualify for this interchange program must be submitted for IRD PE: Intraregional Consumer Premium Electronic. Transactions do not qualify for this program when both the card and the terminal are chip compliant, but the card is not chip compliant. The following elements are required to be present and require specific values to qualify for the interchange program: • DE 22: Point of Service Data Code • DE 40: Service Code The card and the cardholder must be present at the time of the transaction and the transaction must be face-to-face.

IRD PS: Consumer Premium Standard

Transactions must meet requirements to qualify for this interchange program.

Bolivia intracountry interchange criteria

IRD Q1: Bolivia Intracountry Transfer to Own Debit or Prepaid Card Account

Criteria	Requirement
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required MCC must be in an AB program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City Name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Card Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: - PDS 0175 (Card Acceptor URL) should contain the card acceptor URL. - PDS 0170 (Card Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when the transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Bolivia Intracountry General Person-to-Person Transfer

Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Good and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor Business (AB) Program	- MON1: MoneySend - MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.

Criteria	Requirement
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required MCC must be in an AB program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City Name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Card Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0175 (Card Acceptor URL) should contain the card acceptor URL. • PDS 0170 (Card Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling card acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded card acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 2A: Brazil Intracountry Mastercard Initiated Rewards

Transactions must meet requirements to qualify for this interchange program.

Brazil intracountry interchange criteria

IRD AU: Brazil Intracountry Card Not Present Authenticated Frictionless: No Installments

Criteria	Technical requirements
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city name	Required
Acceptor postal code	Required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard assigned ID	Not required
Notes	For frictionless authentication transactions, PDS 0052 (Electronic Commerce Security Level Indicator) and PDS 0185 (Accountholder Authentication Value) must contain in combination either: • PDS 0052 with 211, PDS 0185 with h or kE • PDS 0052 with 212, PDS 0185 with kA, kC, or kJ • PDS 0052 with 217, PDS 0185 with kO This IRD does not apply to merchant-financed installment transactions. Installment transactions for this interchange program should be submitted with the applicable IRD if the card product allows installment payments. For card-not-present transactions, DE 22 (Point of Service [POS] Entry Mode) must not contain in combination: • Subfield 5 (Cardholder Present Data) with a value equal to 0 (Cardholder Present) • Subfield 6 (Card Present Data) with a value equal to 1 (Card Present) • Subfield 7 (Card Data, Input Mode) with a value equal to A, B, C, F, M, 0, 1, 2, or 6

IRD AV: Brazil Intracountry Card Not Present Authenticated Frictionless: 2-6 Installments

Transactions must meet requirements to qualify for this interchange program.

IRD MS: Brazil Intracountry Mastercard MoneySend (lifecycled until 26.Q2)

Transactions must meet requirements to qualify for this interchange program.

NOTE: IRD MS will be accepted for lifecycle transactions until Release 26.Q2.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	Consumer credit: DBK, DCG, DCS, DPL, DRG, DTP, MBK, MCC, MCE, MCG, MCS, MCT, MCU, MCW, MGP, MPL, MRC, MRG, MTP, SUR Consumer debit: MDG, MDO, MDP, MDS, MDW, MPG, MPP Commercial credit: DCB, DEC, DRW, DWB, MAB, MBD, MCB, MDB, MEB, MPW, MRW, MWB, TCB, TCO Commercial debit: MDT, MSB Maestro: MSI, MSW World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Criteria	Requirement
Processing code	18: Unique Transaction (requires unique MCC) 28: Payment Transaction
Acceptor business (AB) program	MON1: MoneySend Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required Must contain a valid Banknet Reference Number, and the Banknet Date must contain a valid date in the format MMDD
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard MoneySend transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: - PDS 0670 (Payer/User Information) - PDS 0671 (Date of Funds Requested) - PDS 0674 (Additional Trace/Reference Number Used by Acceptor) - PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). - PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. - PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting

Criteria	Requirement
	minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

IRD NM: Brazil Intracountry Commercial Travel Land: Non-Installments

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	MCC
GCMS product ID	Commercial credit: MLL
Message type ID	- Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)
Acceptor business (AB) program	- A001: Airline - BR04: Brazil Gas Stations - BR10: Other - S001: Supermarket Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Not required

Brazil intracountry interchange criteria
IRD NM: Brazil Intracountry Commercial Travel Land: Non-Installments

Criteria	Requirement
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	PDS 0663 (Free-Form Description) is allowed for issuer-financed installments. Field Label 4.1 (positions 1–3) in PDS 0663 must be populated with the value 403 (with interest).
Notes	This IRD does not apply to merchant-financed installment transactions. Installment transactions for this interchange program should be submitted with the applicable IRD if the card product allows installment payments. For information about PDS 0663, refer to the <i>Specifications for Credit Installment Payment Transactions: Brazil</i> manual.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Cayman Intracountry Consumer Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial debit: BPD, MDT Consumer credit: MBK, MCC, MCE, MCG, MCS, MIU, MNW Consumer debit: MDG, MDO, MDS, MDW Consumer prepaid: MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRC, MRG, MRH, SUR
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Cayman Intracountry Interchange Criteria
IRD 20: Cayman Intracountry Consumer Payment Transaction

Criteria	Requirement
Processing code	28: Payment Transaction
Acceptor business (AB) program	D001: Payment Transactions GAM1: Gaming Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	In the First Presentment/1240: - DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. - PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-person Payment). - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 21: Cayman Intracountry Commercial Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	MCC
GCMS product ID	Commercial credit: MAB, MAC, MBD, MCB, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLD, MLL, MNF, MWB The following is accepted at non-fuel locations: MCF Commercial prepaid: MPW, MRW
Message type ID	First and Second Presentments/1240 First and Arbitration Chargeback/1442
Processing code	28: Payment Transaction
Acceptor business (AB) program	D001: Payment Transactions Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Not required
Acceptor postal code	Not required

Criteria	Requirement
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Not required

Criteria	Requirement
Notes	In the First Presentment/1240: • DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. • PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-person Payment). • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 33: Cayman Intracountry Consumer Core Issuer Chip

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial debit: BPD, MDT Consumer credit: MCC, MCE, MCG, MCS, MIU Consumer debit: MDG, MDS Consumer prepaid: MIP, MPA, MPG, MPP, MPY, MRC, MRG, SUR World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)
Acceptor business (AB) program	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - OTH2: Other. All MCCs assigned to OTH1 except MCC 5542 (Fuel Dispenser, Automated) - P001: Beauty Salons - R001: Railways - S001: Supermarket - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	Five days - Holidays are not excluded. - Transaction date is excluded. - File header date is not excluded.

Criteria	Requirement
Approval code	Required
Magnetic stripe data from authorization message	Magnetic stripe data must be provided, if captured.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Point of service data code	Required, as follows: - Subfield 1 (Card Data Input Capability) must be 0, 1, 2, 4, 6, A, B, or V. - Subfield 4 (Terminal Operating Environment) must be 1 or 3. - Subfield 5 (Cardholder Present Data) must be 0. - Subfield 6 (Card Present Data) must be 1. - Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S. Not required for all other subfields
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table Must contain an MCC other than one of the following: - MCC 5542 (Automated Fuel Dispenser) - Mail order/telephone order (MO/TO) MCCs: - MCC 5960 (Direct Marketing: Insurance Services) - MCC 5962 (Direct Marketing: Travel Related Arrangement Services) - MCC 5964 (Direct Marketing: Catalog Merchants) - MCC 5965 (Direct Marketing: Combination Catalog and Retail Merchants) - MCC 5966 (Direct Marketing: Outbound Telemarketing Merchants) - MCC 5967 (Direct Marketing: Inbound Telemarketing Merchants) - MCC 5968 (Direct Marketing: Continuity/ Subscription Merchants) - MCC 5969 (Direct Marketing: Other Direct Marketers: Not Elsewhere Classified)
Amount tolerance	N/A

Cayman Intracountry Interchange Criteria
IRD 33: Cayman Intracountry Consumer Core Issuer Chip

Criteria	Requirement
Service code	Required The first position must be 2 or 6 (Integrated Circuit Card).
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	This interchange program requires specific values in DE 22 and DE 40. They are described above. The card and cardholder must be present at the time of the transaction and the transaction must be face-to-face. Transactions that do not fully qualify for this interchange program must be submitted for IRD 73, 83: Intraregional Consumer Electronic. The following transactions must be submitted for IRD 73, 83: Intraregional Consumer Electronic instead of the Chip interchange programs: • Transactions that do not fully qualify for IRD 33: Intraregional Consumer Issuer Chip. • Transactions for which both the issuer and acquirer are chip compliant.

IRD 34: Cayman Intracountry Consumer Core Acquirer Chip

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC

Financial Detail Addendum/1644	For Mastercard® MoneySend™ transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. • PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting

Criteria	Requirement
	minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

IRD PE: Cayman Intracountry Consumer Premium Electronic

Cayman Intracountry Interchange Criteria

IRD Q1: Cayman Islands Intracountry Transfer to Own Debit or Prepaid Card Account

Criteria	Requirement
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Cayman Islands Intracountry General Person-to-Person Transfer

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial credit: MAB, MAC, MBD, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MGF, MLA, MLC, MLL, MNF, MPB, MPC, MWB, MWO Commercial debit: BPD, MDT Consumer debit: MDG, MDO, MDP, MDS, MDW, MHH Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MNW, MPL, MWE Commercial prepaid: MPW, MRW Consumer prepaid: MIP, MPA, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRH, MRC, MRG, MTP, SUR World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding NOTE: MON1 is not applicable for interregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required

Cayman Intracountry Interchange Criteria
IRD Q2: Cayman Islands Intracountry General Person-to-Person Transfer

Criteria	Requirement
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial credit: MAB, MAC, MBD, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MGF, MLA, MLC, MLL, MNF, MPB, MPC, MWB, MWO Commercial debit: BPD, MDT Consumer debit: MDG, MDO, MDP, MDS, MDW, MHH Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MNW, MPL, MWE Commercial prepaid: MPW, MRW Consumer prepaid: MIP, MPA, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRH, MRC, MRG, MTP, SUR World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the Quick Reference Booklet.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.

Criteria	Requirement
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C57 when the transaction processing code is a value 00, 20, or 28. - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20.

IRD QL: Cayman Islands Intracountry Agent Cash Out

Transactions must meet requirements to qualify for this interchange program.

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial credit: MAB, MAC, MBD, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MGF, MLA, MLC, MLL, MNF, MPB, MPC, MWB, MWO Commercial debit: BPD, MDT Consumer debit: MDG, MDO, MDP, MDS, MDW, MHH Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MNW, MPL, MWE Commercial prepaid: MPW, MRW Consumer prepaid: MIP, MPA, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRH, MRC, MRG, MTP, SUR World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Criteria	Requirement
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding NOTE: MON1 is not applicable for interregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not Required
Acceptor postal code	Not Required
Acceptor state, province, or region code	Not Required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C53 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C53 or F53 when the transaction processing code is a value of 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C53. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equal F53.

IRD QN: Chile Intracountry Cash in at ATM.....	1557
IRD QO: Chile Intracountry Cash in at Point-of-Sale.....	1561

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Chile Intracountry Consumer Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial credit: MAB, MBD, MCB, MDB, MEB, MWB, TCB, TCO, MBE, MCF, MCO, MCP, MEO, MES, MLA, MLC, MLD, MLL, MNF, MPC Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MCC, MCE, MCG, MCS, MCW, MIU, MPL, MWE, MBK, MCU, MIC Consumer debit: MDG, MDP, MDS, MDW, MIS Consumer prepaid: MIP, MPA, MPG, MPM, MPY, MRH, MUS, MGP, MRC, MRG, MTP, SUR

Criteria	Requirement
Message type ID	First and Second Presentments/1240 First and Arbitration Chargebacks/1442
Processing code	28: Payment Transaction
Acceptor business (AB) program	GAM1: Gambling Transactions Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	In the First Presentment/1240 message: • DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. • PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-person Payment). • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 2A: Chile Intracountry Mastercard Initiated Rewards

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC

Criteria	Requirement
GCMS product ID	Commercial credit: MAB, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLC, MLD,MLL, MNF, MPC, MWB Commercial debit: BPD, MDT Commercial prepaid: MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCU, MIC, MIU, MPL, MWE Consumer debit: MDG, MDP, MDS, MDW, MIS Consumer prepaid: MIP, MPA, MPG, MPY, MRH, MUS, MGP, MRC, MRG, MTP, SUR World Elite Business Debit: BPE
Message type ID	First Presentment/1240
Processing code	20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	I001: Mastercard-Initiated Rebate/Reward Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor postal code	Required

Criteria	Requirement
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	None

IRD CP: Chile Intracountry Card-Present

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	MCC, DMC
GCMS product ID	Commercial credit: MAB, MCB, MCF, MCO, MCP, MEO, MLA, MLD, MLL, MNF, MWB, MDB, MEB, MBE, MLC, MPC Commercial debit: BPD, MDT Commercial prepaid: MRW Consumer credit: GCP, MBK, MCC, MCS, MCG, MCW, MPL, MWE, MCE, MCU, MIC, MIU Consumer debit: MDG, MDP, MDS, MDW, MIS Consumer prepaid: MGP, MIP, MRG, MRC, SUR, MRH, MTP, MPA, MPY, MPG, MPM, MUS World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Criteria	Requirement
Processing code	00: Purchase (Goods and Services) 09: Purchase (Goods and Services) with Cash Back 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return) NOTE: Processing Code 09 is only valid for Debit Mastercard acceptance brand (Debit Mastercard Program ID).
Acceptor business (AB) program	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - M001: Mail order/Telephone Order - OTH1: Other - P001: Beauty Salons - R001: Railways - S001: Supermarket - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required

Criteria	Requirement
Acceptor city name	Required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Required to qualify for the Large/Medium Merchant Programs
Financial Detail Addendum/1644	None
Notes	This IRD is valid only for Card-Present transactions. DE 22 (Point of Service [POS] Entry Mode), must contain: - Subfield 5 (Cardholder Present Data) with a valid value equal to 0 (Cardholder present) - Subfield 6 (Card Present Data) with a valid value equal to 1 (Card present) - Subfield 7 (Card data input mode) with a valid value equal to 2, A, B, C, F, or M NOTE: For merchant-financed installment transactions, the original card data entry mode from DE 22, subfield 7 of the first installment presentment should be used for subsequent installments.

IRD MS: Chile Intracountry Mastercard MoneySend (lifecycled until 26.Q2)

Transactions must meet requirements to qualify for this interchange program.

NOTE: IRD MS will be accepted for lifecycle transactions until Release 26.Q2.

Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	MON1: MoneySend Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city name	Not required

Criteria	Requirement
Acceptor postal code	Required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard MoneySend transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. • PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

IRD NP: Chile Interchange Card Not Present

Transactions must meet IPM requirements to qualify for this IRD.

Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043(Transaction Type Identifier) is required and must contain a value of C65 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F65 and C65 when the transaction processing code is a value 00 or 20. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. • MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). • MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C65. • MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F65.

IRD Q8: Chile Intracountry Government/Non-profit Disbursement

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial credit: MAB, MBD, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MGF, MLA, MLC, MLD, MLL, MNF, MPB, MPC, MWB, MWO, TCB, TCO Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCU, MCW, MIC, MIU, MPL, MWE Consumer debit: MDG, MDP, MDS, MDW, MIS Consumer prepaid: MIP, MPA, MPG, MPM, MPY, MRH, MUS, MGP, MRC, MRG, MTP, SUR World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.

Criteria	Requirement
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C56 when the transaction processing code is a value of 00, 20, or 28. - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space]). A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20.

IRD Q9: Chile Intracountry Rapid Merchant Settlement

Transactions must meet requirements to qualify for this interchange program.

IRD VJ: Colombia Intracountry Base Micromerchants.....	1626

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 22: Colombia Intracountry Payment of Credit Card Balance Transaction

Transactions must meet requirements to qualify for this Latin America and the Caribbean region interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	MCC
GCMS Product ID	Consumer credit: MBK, MCS, MCE, MCG, MPL Commercial credit: MAB, MAC, MCB, MBE MCF, MCO, MCP, MEB, MEO, MES, MLA, MLD, MLL, MCF, MWB
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	28: Payment Transaction

Colombia Intracountry Interchange Criteria
IRD 22: Colombia Intracountry Payment of Credit Card Balance Transaction

Criteria	Requirement
Acceptor Business (AB) Program	COLO: Payment Transaction For Acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i> .
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program COLO which includes: • MCC 6532: Payment Transaction Customer Financial Institution • MCC 6533: Payment Transaction - Merchant
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	The Payment Transaction must be identified with a value of C06 (payment of a credit card balance) in PDS 0043 (Program Registration ID). Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution.

IRD MS: Colombia Intracountry Mastercard MoneySend (lifecycled until 26.Q2)

Transactions must meet requirements to qualify for this interchange program.

NOTE: IRD MS will be accepted for lifecycle transactions until Release 26.Q2.

Card Program ID	DMC, MCC

Criteria	Requirement
GCMS Product ID	Consumer credit: MBK, MCE, MCG, MCS, MIU, MPL, MRC, MRG, SUR Consumer debit: MDG, MDP, MDS, MDW, MIP, MPA, MPG, MPP, MPY, MRH Commercial credit: MAB, MAC, MBE, MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLD, MLL, MNF, MPC, MPW, MRW, MWB, TCB, TCO Commercial debit: BPD, MDT
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	18: Unique Transaction (requires unique MCC) 28: Payment Transaction
Acceptor Business (AB) Program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i> .
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required Must contain a valid Banknet Reference Number, and the Banknet Date must contain a valid date in the format MMDD
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces

Criteria	Requirement
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® MoneySend™ transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. • PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any member financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the member financial institution, unless it has entered into a bona fide agent relationship with said member financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

IRD Q1: Colombia Intracountry Transfer to Own Debit or Prepaid Card Account

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00 = Purchase (Goods and Services) 20 = Credit (Purchase Return)
Acceptor business (AB) program	MON2—Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required

Criteria	Requirement
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Colombia Intracountry General Person-to-Person Transfer

Transactions must meet requirements to qualify for this interchange program.

Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00 = Purchase (Goods and Services) 20 = Credit (Purchase Return) 28 = Payment Transaction
Acceptor business (AB) program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the Quick Reference Booklet.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	In the First Presentment/1240: • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C57 when the transaction processing code is a value 00, 20, or 28. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20.

IRD QL: Colombia Intracountry Agent Cash Out

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00 = Purchase (Goods and Services) 20 = Credit (Purchase Return) 28 = Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not Required
Acceptor postal code	Not Required
Acceptor state, province, or region code	Not Required

Criteria	Requirement
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C53 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C53 or F53 when the transaction processing code is a value of 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C53. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equal F53.

IRD QM: Colombia Intracountry Person-to-Person Transfer to Card Account

Transactions must meet requirements to qualify for this interchange program.

Costa Rica Intracountry Interchange Criteria

This section includes the transaction criteria for the intracountry interchange programs for which there is an associated rate mandated by Mastercard. The transactions were conducted using a Mastercard card issued by a customer in this country and acquired by a customer in this country.

GCMS timeliness criterion.....	1629
IRD 20: Costa Rica Intracountry Consumer Payment Transaction.....	1629
IRD 57: Costa Rica Intracountry Consumer Private Label.....	1631
IRD 57: Costa Rica Intracountry Commercial Private Label.....	1633
IRD 01: Costa Rica Intracountry.....	1636
IRD 02: Costa Rica Intracountry.....	1638
IRD 03: Costa Rica Intracountry.....	1640
IRD 04: Costa Rica Intracountry.....	1642
IRD 05: Costa Rica Intracountry.....	1644
IRD 2A: Costa Rica Intracountry Mastercard Initiated Rewards.....	1646
IRD MS: Costa Rica Intracountry Mastercard MoneySend Person-to-Person Rates (lifecycled until 26.Q2).....	1647

IRD QN: Costa Rica Intracountry Cash in at ATM.....	1678
IRD QO: Costa Rica Intracountry Cash in at Point-of-Sale.....	1682

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Costa Rica Intracountry Consumer Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial credit: MAB, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MLA, MWB Commercial debit: BPD, MDT Commercial prepaid: MPW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MPL Consumer debit: MDG, MDP, MDS, MDW, MIS Consumer prepaid: MIP, MPA, MPG, MPM, MPP, MPY, MRH, MRC, MRG, MUS, SUR

Costa Rica Intracountry Interchange Criteria
IRD 20: Costa Rica Intracountry Consumer Payment Transaction

Criteria	Requirement
Message type ID	First and Second Presentments/1240 First and Arbitration Chargebacks/1442
Processing code	28: Payment Transaction
Acceptor business (AB) program	GAM1: Gambling For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i> .
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Bankenet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain a MCC belonging to an AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	In the First Presentment/1240 message: - DE 3 (Processing Code, subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. - PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-Person Payment). - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the acceptor url. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered a bonafide agent relationship with said customer financial institution.

IRD 57: Costa Rica Intracountry Consumer Private Label

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	PVL
GCMS product ID	Consumer Private Label: PVA, PVB, PVC, PVD, PVE, PVF, PVG, PVI, PVJ, PVL
Message type ID	First and Second Presentments/1240 First Chargebacks/1442

Criteria	Requirement
Processing code	00: Purchase (Goods and Services) 18: Unique Transaction (Unique MCC) 20: Purchase Return 28: Payment Transaction
Acceptor business (AB) program	A001: Airline B001: Cruise/Steamship D001: Payment Transactions F001: Restaurant H001: Lodging M001: Mail Order/Telephone Order OTH1: Other OTH2: Other: Fuel Dispenser, Automated (MCC 5542) Excluded P001: Beauty Salons R001: Railways S001: Supermarket T001: Telephone U001: Unique V001: Automobile/Vehicle Rental W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i> .
Timeliness	None
Approval code	Required Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid approval code.
Magnetic stripe data from authorization message	Not required
Trace ID	Required Must contain a valid Banknet Reference Number and the Banknet Date must contain a valid date in the format MMDD. Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid trace ID.

Criteria	Requirement
Acceptor business code (MCC)	Required Must contain a MCC belonging to an acceptor business (AB) program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Private Label Common Data)/1644 or Financial Detail Addendum (Private Label Line-Item Detail)/1644.
Notes	None

IRD 57: Costa Rica Intracountry Commercial Private Label

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	PVL
GCMS product ID	Commercial Private Label: PVA, PVB, PVC, PVD, PVE, PVF, PVG, PVI, PVJ, PVL

Criteria	Requirement

Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding NOTE: MON1 is not applicable for interregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required

Costa Rica Intracountry Interchange Criteria
IRD Q2: Costa Rica Intracountry General Person-to-Person Transfer

Criteria	Requirement
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C55 when the transaction processing code is a value 28. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C55 or F55 when the transaction processing code is a value 00 or 20. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. - MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). - MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C55. - MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F55.

IRD Q6: Costa Rica Intracountry Transfer to Own Staged Digital Wallet Account

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC

Criteria	Requirement
GCMS product ID	Commercial credit: MAB, MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MGF, MLA, MLC, MPB, MPC, MWB, MWO Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MPL Consumer debit: MDG, MDO, MDP, MDS, MDW, MHH, MIS Consumer prepaid: MIP, MPA, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRH, MUS, MRC, MRG, SUR World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return)
Acceptor business program	MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required

Criteria	Requirement
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	In the First Presentment/1240 message: • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F61 when the transaction processing code is a value 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. Multiple Payment Transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q7: Costa Rica Intracountry General Business-to-Business Transfer

Transactions must meet requirements to qualify for this interchange program.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Curaçao Intracountry Consumer Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Commercial debit: BPD, MDT Consumer credit: MBK, MCC, MCE, MCG, MCS, MIU, MNW Consumer debit: MDG, MDO, MDS, MDW Consumer prepaid: MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPX, MPY, MRC, MRG, MRH, SUR
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Curaçao Intracountry Interchange Criteria
IRD 20: Curaçao Intracountry Consumer Payment Transaction

Criteria	Requirement
Processing Code	28: Payment Transaction
Acceptor Business (AB) Program	D001: Payment Transactions GAM1: Gaming Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	In the First Presentment/1240: - DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. - PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-person Payment). - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 21: Curaçao Intracountry Commercial Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	MCC
GCMS Product ID	Commercial credit: MAB, MAC, MBD, MCB, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLD, MLL, MNF, MWB The following is accepted at non-fuel locations: MCF Commercial prepaid: MPW, MRW
Message Type ID	First and Second Presentments/1240 First and Arbitration Chargebacks/1442
Processing Code	28: Payment Transaction
Acceptor Business (AB) Program	D001: Payment Transactions Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Not required

Curaçao Intracountry Interchange Criteria
IRD 21: Curaçao Intracountry Commercial Payment Transaction

Criteria	Requirement
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Not required

Criteria	Requirement
Notes	In the First Presentment/1240: • DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. • PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-person Payment). • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 33: Curaçao Intracountry Consumer Core Issuer Chip

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Commercial debit: BPD, MDT Consumer credit: MCC, MCE, MCG, MCS, MIU Consumer debit: MDG, MDS Consumer prepaid: MIP, MPA, MPG, MPP, MPY, MRC, MRG, SUR World Elite Business Debit: BPE
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)
Acceptor Business (AB) Program	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - OTH2: Other. All MCCs assigned to OTH1 except MCC 5542 (Fuel Dispenser, Automated) - P001: Beauty Salons - R001: Railways - S001: Supermarket - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	Five days - Holidays are not excluded. - Transaction date is excluded. - File header date is not excluded.

Criteria	Requirement
Approval Code	Required
Magnetic stripe data from authorization message	Magnetic stripe data must be provided, if captured.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Point of Service Data Code	Required, as follows: - Subfield 1 (Card Data Input Capability) must be 0, 1, 2, 4, 6, A, B, or V. - Subfield 4 (Terminal Operating Environment) must be 1 or 3. - Subfield 5 (Cardholder Present Data) must be 0. - Subfield 6 (Card Present Data) must be 1. - Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S. Not required for all other subfields
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table Must contain an MCC other than one of the following: - MCC 5542 (Automated Fuel Dispenser) - Mail order/telephone order (MO/TO) MCCs: - MCC 5960 (Direct Marketing: Insurance Services) - MCC 5962 (Direct Marketing: Travel Related Arrangement Services) - MCC 5964 (Direct Marketing: Catalog Merchants) - MCC 5965 (Direct Marketing: Combination Catalog and Retail Merchants) - MCC 5966 (Direct Marketing: Outbound Telemarketing Merchants) - MCC 5967 (Direct Marketing: Inbound Telemarketing Merchants) - MCC 5968 (Direct Marketing: Continuity/ Subscription Merchants) - MCC 5969 (Direct Marketing: Other Direct Marketers: Not Elsewhere Classified)
Amount Tolerance	N/A

Curaçao Intracountry Interchange Criteria
IRD 33: Curaçao Intracountry Consumer Core Issuer Chip

Criteria	Requirement
Service Code	Required The first position must be 2 or 6 (Integrated Circuit Card).
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	This interchange program requires specific values in DE 22 and DE 40. They are described above. The card and cardholder must be present at the time of the transaction and the transaction must be face-to-face. Transactions that do not fully qualify for this interchange program must be submitted for IRD 73, 83: Intraregional Consumer Electronic. The following transactions must be submitted for IRD 73, 83: Intraregional Consumer Electronic instead of the Chip interchange programs: • Transactions that do not fully qualify for IRD 33: Intraregional Consumer Issuer Chip. • Transactions for which both the issuer and acquirer are chip compliant.

IRD 34: Curaçao Intracountry Consumer Core Acquirer Chip

Transactions must meet requirements to qualify for this interchange program.

Financial Detail Addendum/1644	For Mastercard® MoneySend™ transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. • PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting

Criteria	Requirement
	minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0175 (Acceptor URL) should contain the acceptor URL. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Curaçao Intracountry General Person-to-Person Transfer

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial credit: MAB, MAC, MBD, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MGF, MLA, MLC, MLL, MNF, MPB, MPC, MWB, MWO Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MNW, MPL, MWE Consumer debit: MDG, MDO, MDP, MDS, MDW, MHH Consumer prepaid: MIP, MPA, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRH, MRC, MRG, MTP, SUR World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction

Criteria	Requirement
Acceptor business (AB) program	• MON1: MoneySend • MON2: Funding NOTE: MON1 is not applicable for interregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20.

IRD QL: Curaçao Intracountry Agent Cash Out

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC

Criteria	Requirement
GCMS product ID	Commercial credit: MAB, MAC, MBD, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MGF, MLA, MLC, MLL, MNF, MPB, MPC, MWB, MWO Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MNW, MPL, MWE Consumer debit: MDG, MDO, MDP, MDS, MDW, MHH Consumer prepaid: MIP, MPA, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRH, MRC, MRG, MTP, SUR World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding NOTE: MON1 is not applicable for interregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required

Criteria	Requirement
Acceptor city	Not Required
Acceptor postal code	Not Required
Acceptor state, province, or region code	Not Required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C53 when the transaction processing code is a value 28. • PDS 0043(Transaction Type Identifier) is required and must contain a value of C53 or F53 when the transaction processing code is a value of 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C53. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equal F53.

IRD QO: Dominican Republic Intracountry Cash in at Point-of-Sale.....	1804

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 71, 72, 73, 75, 81, 82, 83, 85: Dominican Republic Intracountry

Transactions meeting interchange program criteria qualify for associated rates.

IRD criteria details

Criteria	Technical Requirements
Card Program Identifier	DMC, MCC

Dominican Republic Intracountry Interchange Criteria

IRD Q1: Dominican Republic Intracountry Transfer to Own Debit or Prepaid Card Account

Criteria	Requirement
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City	Not required
Acceptor Postal (ZIP) Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Note	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Dominican Republic General Person-to-Person Transfer

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC, MSI
GCMS Product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing Code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor Business (AB) Program	- MON1: MoneySend - MON2: Funding - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required

Dominican Republic Intracountry Interchange Criteria
IRD Q2: Dominican Republic General Person-to-Person Transfer

Criteria	Requirement
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City	Not required
Acceptor Postal (ZIP) Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

IRD Q3: Dominican Republic General Transfer to Own Account

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC, MSI
GCMS Product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing Code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor Business (AB) Program	- MON1: MoneySend - MON2: Funding - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required

Dominican Republic Intracountry Interchange Criteria
IRD Q3: Dominican Republic General Transfer to Own Account

Criteria	Requirement
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City	Not Required
Acceptor Postal (ZIP) Code	Not Required
Acceptor State, Province, or Region Code	Not Required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C52 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C52 or F52 when the transaction processing code is a value 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 43 equals C52. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 43 equals F52.

GCMS Product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*

Criteria	Requirement
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing Code	28: Payment Transaction
Acceptor Business (AB) Program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City	Not Required
Acceptor Postal (ZIP) Code	Not Required
Acceptor State, Province, or Region Code	Not Required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Note	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C58 when the transaction processing code is a value 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions) if PDS 0043 equals C58.

IRD QO: Dominican Republic Intracountry Cash in at Point-of-Sale

Transactions must meet requirements to qualify for this interchange program.

IRD QO: Eastern Caribbean Intracountry Cash in at Point-of-Sale.....	1840

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F61 when transaction processing code is a value 00 or 20. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the acceptor URL. Multiple Payment Transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q7: Eastern Caribbean Intracountry General Business-to-Business Transfer

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC, MSI
GCMS Product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing Code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor Business (AB) Program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the Quick Reference Booklet.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required

Eastern Caribbean Intercountry Interchange Criteria
IRD Q7: Eastern Caribbean Intracountry General Business-to-Business Transfer

Criteria	Requirement
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City	Not required
Acceptor Postal (ZIP) Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C57 when transaction processing code is a value 00, 20, or 28. - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20.

IRD Q8: Eastern Caribbean Intracountry Government/Non-profit Disbursement

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC, MSI
GCMS Product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing Code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction

Criteria	Requirement
Acceptor Business (AB) Program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>
Timeliness	None

Ecuador Intracountry Interchange Criteria

This section includes the transaction criteria for the intracountry interchange programs for which there is an associated rate mandated by Mastercard. The transactions were conducted using a Mastercard card issued by a customer in this country and acquired by a customer in this country.

GCMS timeliness criterion.....	1844
IRD 2A: Ecuador Intracountry Mastercard Initiated Rewards.....	1844
IRD Q1: Ecuador Intracountry Transfer to Own Debit or Prepaid Card Account.....	1846
IRD Q2: Ecuador Intracountry General Person-to-Person Transfer.....	1847
IRD Q3: Ecuador Intracountry General Transfer to Own Account.....	1851
IRD Q4: Ecuador Intracountry Payment of Own Credit Card Bill.....	1854
IRD Q5: Ecuador Intracountry Business Disbursement.....	1857
IRD Q6: Ecuador Intracountry Transfer to Own Staged Digital Wallet Account.....	1859
IRD Q7: Ecuador Intracountry General Business-to-Business Transfer.....	1861
IRD Q8: Ecuador Intracountry Government/Non-profit Disbursement.....	1863
IRD Q9: Ecuador Intracountry Rapid Merchant Settlement.....	1865
IRD QL: Ecuador Intracountry Agent Cash Out.....	1867
IRD QM: Ecuador Intracountry Person-to-Person Transfer to Card Account.....	1871
IRD QN: Ecuador Intracountry Cash in at ATM.....	1873
IRD QO: Ecuador Intracountry Cash in at Point-of-Sale.....	1876

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 2A: Ecuador Intracountry Mastercard Initiated Rewards

Ecuador Intracountry Interchange Criteria
IRD 2A: Ecuador Intracountry Mastercard Initiated Rewards

Criteria	Requirement
Processing Code	20: Credit (Purchase Return) 28: Payment Transaction
Acceptor Business (AB) Program	I001: Mastercard-Initiated Rebate/Reward Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor Postal Code	Required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	None

IRD Q1: Ecuador Intracountry Transfer to Own Debit or Prepaid Card Account

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC, MSI
GCMS Product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing Code	00: Purchase (Goods and Services) 20: Credit (Purchase Return)
Acceptor Business (AB) Program	MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City	Not required

Criteria	Requirement
Acceptor Postal (ZIP) Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Note	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Ecuador Intracountry General Person-to-Person Transfer

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC, MSI

Criteria	Requirement
GCMS Product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*

Acceptor Business (AB) Program	- MON1: MoneySend - MON2: Funding - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. For card acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City	Not required
Acceptor Postal (ZIP) Code	Not required

Criteria	Requirement
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

IRD Q3: Ecuador Intracountry General Transfer to Own Account

Transactions must meet requirements to qualify for this interchange program.

Acceptor State, Province, or Region Code	Not Required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F08 when the transaction processing code is a value 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. • The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equal F08.

IRD QN: Ecuador Intracountry Cash in at ATM

Transactions must meet requirements to qualify for this interchange program.

El Salvador Intracountry Interchange Criteria

This section includes the transaction criteria for the intracountry interchange programs for which there is an associated rate mandated by Mastercard. The transactions were conducted using a Mastercard® card issued by a customer in this country and acquired by a customer in this country.

GCMS timeliness criterion.....	1880
IRD 01: El Salvador Intracountry	1880
IRD 2A: El Salvador Intracountry Mastercard Initiated Rewards.....	1882
IRD Q1: El Salvador Intracountry Transfer to Own Debit or Prepaid Card Account.....	1884
IRD Q2: El Salvador Intracountry General Person-to-Person Transfer.....	1886
IRD Q3: El Salvador Intracountry General Transfer to Own Account.....	1889
IRD Q4: El Salvador Intracountry Payment of Own Credit Card Bill.....	1892
IRD Q5: El Salvador Intracountry Business Disbursement.....	1895
IRD Q6: El Salvador Intracountry Transfer to Own Staged Digital Wallet Account.....	1897
IRD Q7: El Salvador Intracountry General Business-to-Business Transfer.....	1899
IRD Q8: El Salvador Intracountry Government/Non-profit Disbursement.....	1901
IRD Q9: El Salvador Intracountry Rapid Merchant Settlement.....	1903
IRD QL: El Salvador Intracountry Agent Cash Out.....	1905
IRD QM: El Salvador Intracountry Person-to-Person Transfer to Card Account.....	1909
IRD QN: El Salvador Intracountry Cash in at ATM.....	1911
IRD QO: El Salvador Intracountry Cash in at Point-of-Sale.....	1914

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required

Criteria	Requirement
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C55 when the transaction processing code is a value 28. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C55 or F55 when the transaction processing code is a value 00 or 20. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. - MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). - MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C55. - MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F55.

IRD Q6: El Salvador Intracountry Transfer to Own Staged Digital Wallet Account

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return)

Criteria	Requirement
Acceptor business program	MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i> .
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required

IRD QN: Guatemala Intracountry Cash in at ATM.....	1947
IRD QO: Guatemala Intracountry Cash in at Point-of-Sale.....	1950

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

Guatemala Intracountry Interchange Criteria

IRD Q2: Guatemala Intracountry Mastercard MoneySend General Person-to-Person

Criteria	Requirement
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard MoneySend payment transactions, acquirers must submit the following data in a Financial Detail Addendum/1644: payment transaction detail message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 28 or 00. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend payment transaction only after collected funds are on deposit and under the control of the acquirer. Multiple payment transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend payment transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a payment transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A payment transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution.

Criteria	Requirement
	MCC 6536 (MoneySend Intracountry) or MCC 6537 (MoneySend Intercountry) can only be used for processing Code 28 (used with MoneySend Payment Transactions) and PDS 0043 equals C07.
	MCC 6538 can only be used for processing code 00 if PDS 43 equals C07.
	MCC 6540 and MCC 4829 can only be used for processing code 00 if PDS 43 equals F07.

IRD Q3: Guatemala Intracountry General Transfer to Own Account

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.

A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20.

IRD QL: Guatemala Intracountry Agent Cash Out

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*

Criteria	Requirement
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not Required
Acceptor postal code	Not Required
Acceptor state, province, or region code	Not Required

Criteria	Requirement
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C53 when the transaction processing code is a value 28. • PDS 0043(Transaction Type Identifier) is required and must contain a value of C53 or F53 when the transaction processing code is a value of 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C53. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equal F53.

IRD QM: Guatemala Intracountry Person-to-Person Transfer to Card Account

Transactions must meet requirements to qualify for this interchange program.

Magnetic stripe data from authorization message	Required Only face-to-face transactions are eligible.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Point of service data code	Required as follows: • Subfield 1 (Card Data Input Capability) must be 0, 1, 2, 4, 6, A, B, or V • Subfield 4 (Terminal Operating Environment) must be 1 or 3 • Subfield 5 (Cardholder Present Data) must be 0 • Subfield 6 (Card Present Data) must be 1 • Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S • Not required for all other subfields.

Criteria	Technical requirements
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table. Must contain an MCC other than one of the following: • MCC 5542: Automated Fuel Dispenser • Mail order (MO) and telephone order (TO) MCCs – MCC 5960: Direct Marketing Insurance Services – MCC 5962: Direct Marketing Travel Related Arrangement Services – MCC 5964: Direct Marketing Catalog Merchants – MCC 5965: Direct Marketing Combination Catalog and Retail Merchants – MCC 5966: Direct Marketing Outbound Telemarketing Merchants – MCC 5967: Direct Marketing Inbound Telemarketing Merchants – MCC 5968: Direct Marketing Continuity/Subscription Merchants – MCC 5969: Direct Marketing Other Direct Marketers Not Elsewhere Classified
Amount tolerance	N/A
Service code	Required The first position must be 2 or 6 (card is an Integrated Circuit Card).
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None

Criteria	Technical requirements
Notes	Transactions that do not fully qualify for this interchange program must be submitted for IRD PE: Intraregional Consumer Premium Electronic. Transactions do not qualify for this program when both the card and the terminal are chip compliant, but the card is not chip compliant. The following elements are required to be present and require specific values to qualify for the interchange program: • DE 22: Point of Service Data Code • DE 40: Service Code The card and the cardholder must be present at the time of the transaction and the transaction must be face-to-face.

IRD PS: Consumer Premium Standard

Transactions must meet requirements to qualify for this interchange program.

Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Good and Services) 20: Credit (Purchase Return) 28: Payment Transaction

Criteria	Requirement
Acceptor Business (AB) Program	• MON1: MoneySend • MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required MCC must be in an AB program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City Name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Card Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0175 (Card Acceptor URL) should contain the card acceptor URL. • PDS 0170 (Card Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]).PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when the transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling card acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded card acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 61: Haiti Intracountry Commercial Standard

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	MCC
GCMS Product ID	Commercial credit: MAB, MAC, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLL, MNF, MRW, MWB World Elite Business Debit: BPE
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)

Criteria	Requirement
Acceptor Business (AB) Program	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	None
Notes	None

IRD 73: Haiti Intracountry Consumer Core Electronic

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Consumer credit: MCC, MCE, MCG, MCS, MIU, MRC, MRG, SUR Consumer debit: MDG, MDS, MIP, MPA, MPG, MPP, MPY World Elite Business Debit: BPE
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)
Acceptor Business (AB) Program	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - OTH2: Other. All MCCs assigned to OTH1 except MCC 5542 (Fuel Dispenser, Automated) - P001: Beauty Salons - R001: Railways - S001: Supermarket - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.

Criteria	Requirement
Timeliness	Five Days • Holidays are not excluded. • Transaction date is excluded. • File header date is not excluded. All post-authorized aggregated transit authority transactions are exempt from the timeliness test.
Approval Code	Required
Magnetic stripe data from authorization message	Required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table. Must contain an MCC other than one of the following: • MCC 5542 (Fuel Dispenser, Automated) • Mail order/telephone order (MO/TO) MCCs: – MCC 5960 (Direct Marketing: Insurance Services) – MCC 5962 (Direct Marketing: Travel Related Arrangement Services) – MCC 5964 (Direct Marketing: Catalog Merchants) – MCC 5965 (Direct Marketing: Combination Catalog and Retail Merchants) – MCC 5966 (Direct Marketing: Outbound Telemarketing Merchants) – MCC 5967 (Direct Marketing: Inbound Telemarketing Merchants) – MCC 5968 (Direct Marketing: Continuity/ Subscription Merchants) – MCC 5969 (Direct Marketing: Other Direct Marketers: Not Elsewhere Classified)
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required

Criteria	Requirement
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	The card and the cardholder must be present at the time of the transaction and the transaction must be face-to-face. Purchase (Goods and Services) with Cash Back transactions are accepted for Debit MasterCard transactions only. For DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type), value 09, DE 54 (Amounts, Additional), subfield 5 (Additional Amount, Amount) must be submitted with all Purchase (Goods and Services) with Cash Back transactions to identify the cash back portion of the transaction from DE 4 (Amount, Transaction). The cash back amount in DE 54, subfield 5 must be submitted in the same currency as the transaction. When used in the Asia/Pacific, Middle East/Africa (MEA), and Latin America and the Caribbean regions: - For chip transactions (both issuer and acquirer are chip compliant): - DE 40 (Service Code), position 1 must be provided with a value of 2 or 6. - DE 22 (Point of Service Data Code), subfield 1 (Card Data Input Capability) must be provided with a value of C, D, E, M, or 5. - For non-chip transactions (issuer, acquirer, or both do not meet the requirements for the Chip interchange programs): - DE 40, position 1 must be provided with a value of 1, 5, or 7. - DE 22, subfield 1 must be provided with a value of A, B, V, 0, 1, 2, 4, or 6.

IRD 75: Haiti Intracountry Consumer Core Standard

Transactions must meet requirements to qualify for this interchange program.

Financial Detail Addendum/1644	For Mastercard® MoneySend™ transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. • PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting

Criteria	Requirement
	minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution.
	MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction).
	MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

IRD PS: Haiti Intracountry Consumer Premium

Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F61 when the transaction processing code is a value 00 or 20. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the acceptor URL. Multiple Payment Transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q7: Haiti Intracountry General Business-to-Business Transfer

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>
Timeliness	None

Haiti Intracountry Interchange Criteria
IRD Q7: Haiti Intracountry General Business-to-Business Transfer

Criteria	Requirement
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). - PDS 0043(Transaction Type Identifier) is required and must contain a value of C65 when the transaction processing code is a value 28. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F65 and C65 when the transaction processing code is a value 00 or 20. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. - MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). - MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C65. - MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F65.

IRD Q8: Haiti Intracountry Government/Non-profit Disbursement

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.

Criteria	Requirement
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

Honduras Intracountry Interchange Criteria
IRD Q2: Honduras Intracountry Mastercard General Person-to-Person

Criteria	Requirement
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor city name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® MoneySend™ payment transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 28 or 00. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend payment transaction only after collected funds are on deposit and under the control of the acquirer. Multiple payment transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend payment transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a payment transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A payment transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) or MCC 6537 (MoneySend Intercountry) can only be used for processing Code 28 (used with MoneySend Payment Transactions) and PDS 0043 equals C07. MCC 6538 can only be used for processing code 00 if PDS 43 equals C07. MCC 6540 and MCC 4829 can only be used for processing code 00 if PDS 43 equals F07.

Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.

Criteria	Requirement
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	In the First Presentment/1240 message: • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C56 when the transaction processing code is a value of 00, 20, or 28. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20.

IRD Q9: Honduras Intracountry Rapid Merchant Settlement

Transactions must meet requirements to qualify for this interchange program.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 25: Jamaica Intracountry Commercial Debit and Prepaid

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	MCC, DMC
GCMS Product ID	Commercial credit: MDB, MRW Consumer debit: MPP Commercial debit: BPD, MDT World Elite Business Debit: BPE
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Criteria	Requirement
Processing Code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)
Acceptor Business (AB) Program	- JA01: Jamaica Daily Usage and Non-profit - JA02: Jamaica Other Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	None

IRD 61: Jamaica Intracountry Commercial Credit

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	MCC
GCMS Product ID	Commercial credit: MAB, MAC, MBE, MCB, MCF, MCO, MCP, MEB, MES, MLA, MLD, MLL, MNF, MWB
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)
Acceptor Business (AB) Program	- JA01: Jamaica Daily Usage and Non-profit - JA02: Jamaica Other Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required

Criteria	Requirement
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	None

IRD 73: Jamaica Intracountry Core Consumer Credit Electronic: Daily Usage and Non-Profit

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	MCC
GCMS Product ID	Consumer credit: MCC, MCE, MCS
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)
Acceptor Business (AB) Program	JA01: Jamaica Daily Usage and Non-profit Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.

Criteria	Requirement
Timeliness	Five days - Holidays are not excluded. - Transaction date is excluded. - File header date is not excluded. All post-authorized aggregated transit authority transactions are exempt from the timeliness test.
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None

Criteria	Requirement
Notes	The card and the cardholder must be present at the time of the transaction and the transaction must be face-to-face. - For chip transactions (both issuer and acquirer are chip compliant): - DE 40 (Service Code), position 1 must be provided with a value of 2 or 6. - DE 22 (Point of Service Data Code), subfield 1 (Card Data Input Capability) must be provided with a value of C, D, E, M, or 5. - For non-chip transactions (issuer, acquirer, or both do not meet the requirements for the Chip interchange programs): - DE 40, position 1 must be provided with a value of 1, 5, or 7. - DE 22, subfield 1 must be provided with a value of A, B, V, 0, 1, 2, 4, or 6. DE 22 (Point of Service [POS] Entry Mode), must contain: - Subfield 5 (Cardholder Present Data) with a valid value equal to 0 (Cardholder present) - Subfield 6 (Card Present Data) with a valid value equal to 1 (Card present)

IRD 75: Jamaica Intracountry Core Consumer Credit Standard

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	MCC
GCMS Product ID	Consumer credit: MCC, MCE, MCS
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Financial Detail Addendum/1644	For Mastercard® MoneySend™ transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. • PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting

Criteria	Requirement
	minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.

Jamaica Intracountry Interchange Criteria
IRD Q2: Jamaica Intracountry General Person-to-Person Transfer

Criteria	Requirement
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Card Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	Note In the First Presentment/1240 message: • PDS 0175 (Card Acceptor URL) should contain the card acceptor URL. • PDS 0170 (Card Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q3: Jamaica Intracountry General Transfer to Own Account

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement

Jamaica Intracountry Interchange Criteria
IRD Q3: Jamaica Intracountry General Transfer to Own Account

Criteria	Requirement
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City name	Not required Must be left-justified and cannot contain all spaces or all zeros
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Card Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [selfservice terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C52 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C52 or F52 when the transaction processing code is a value 00 or 20. • PDS 0170 (Card Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Card Acceptor URL) should contain the card acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling card acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded card acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 43 equals C52. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 43 equals F52.

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Commercial Credit: MAB, MBD, MCB, MDB, MEB, MPW, MRW, MWB, TCB, TCO, MPC Commercial Debit: BPD, MDT Consumer Credit: MCC, MCE, MCG, MCS, MCW, MIU, MNW, MRC, MRG, SUR Consumer Debit: MDG, MDS, MIP, MPA, MPG, MPP, MPT, MPY World Elite Business Debit: BPE
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 - Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI
Processing Code	00: Purchase (Goods and Services) 20: Credit (Purchase Return)
Acceptor Business (AB) Program	MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A

Criteria	Requirement
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City name	Not required Must be left-justified and cannot contain all spaces or all zeros
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	Note In the First Presentment/1240 message: • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F08 when the transaction processing code is a value 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. • A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. • MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equal F08.

IRD QN: Jamaica Intracountry Cash in at ATM

Transactions must meet requirements to qualify for this interchange program.

Mexico Intracountry Interchange Criteria

This section includes the transaction criteria for the intracountry interchange programs for which there is an associated rate mandated by Mastercard. The transactions were conducted using a Mastercard® card issued by a customer in this country and acquired by a customer in this country.

GCMS timeliness criterion.....	2183
IRD 2A: Mexico Intracountry Mastercard Initiated Rewards.....	2183
IRD Q1: Mexico Intracountry Transfer to Own Debit or Prepaid Card Account.....	2185
IRD Q2: Mexico Intracountry General Person-to-Person Transfer.....	2186
IRD Q3: Mexico Intracountry General Transfer to Own Account.....	2190
IRD Q4: Mexico Intracountry Payment of Own Credit Card Bill.....	2193
IRD Q5: Mexico Intracountry Business Disbursement.....	2196
IRD Q6: Mexico Intracountry Transfer to Own Staged Digital Wallet Account.....	2198
IRD Q7: Mexico Intracountry General Business-to-Business Transfer.....	2200
IRD Q8: Mexico Intracountry Government/Non-profit Disbursement.....	2202
IRD Q9: Mexico Intracountry Rapid Merchant Settlement.....	2204
IRD QL: Mexico Intracountry Agent Cash Out.....	2206
IRD QM: Mexico Intracountry Person-to-Person Transfer to Card Account.....	2210
IRD QN: Mexico Intracountry Cash in at ATM.....	2212
IRD QO: Mexico Intracountry Cash in at Point-of-Sale.....	2215

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 2A: Mexico Intracountry Mastercard Initiated Rewards

Transactions must meet requirements to qualify for this interchange program.

Mexico Intracountry Interchange Criteria
IRD 2A: Mexico Intracountry Mastercard Initiated Rewards

Criteria	Requirement
Processing Code	20: Credit (Purchase Return) 28: Payment Transaction
Acceptor Business (AB) Program	I001: Mastercard-Initiated Rebate/Reward Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor Postal Code	Required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	None

IRD Q1: Mexico Intracountry Transfer to Own Debit or Prepaid Card Account

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return)
Acceptor business (AB) program	MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required

Criteria	Requirement
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Mexico Intracountry General Person-to-Person Transfer

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI

Criteria	Requirement
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required

Criteria	Requirement
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

IRD Q3: Mexico Intracountry General Transfer to Own Account

Transactions must meet requirements to qualify for this interchange program.

Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C55 when the transaction processing code is a value 28. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C55 or F55 when the transaction processing code is a value 00 or 20. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. - MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). - MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C55. - MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F55.

IRD Q6: Mexico Intracountry Transfer to Own Staged Digital Wallet Account

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return)

Criteria	Requirement
Acceptor business program	MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i> .
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F61 when the transaction processing code is a value 00 or 20. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the acceptor URL. Multiple Payment Transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q7: Mexico Intracountry General Business-to-Business Transfer

Transactions must meet requirements to qualify for this interchange program.

Mastercard Assigned ID	Not required
Financial Detail Addendum/ 1644	Travel-related addendum messages may be provided if DE 26: Acceptor Business Code is travel related.
Notes	In First Presentment/1240 messages - PDS 0023: Terminal Type is required and must contain the value of CT6 indicating CAT level 6: Electronic Commerce Transaction. - PDS 0052: Electronic Commerce Security Level Indicator, subfield 3: UCAF Collection Indicator is required and must contain the value 1: UCAF data collection is supported by the merchant, and UCAF data may be available.

IRD 33: Intracountry Consumer Issuer Chip

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Technical requirements
Card program identifier	DMC, MCC
GCMS product identifier	Commercial debit: BPD, MDT, MDB Consumer core debit: MDG, MDS, MIU Consumer credit: MCC, MCE, MCG, MCS, MGP, MIU, MRC, MRG Consumer debit: ACS, MDG, MDO, MDS, MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY Consumer premium debit: MDP Consumer super premium debit: MDW
Message type identifier	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Good and Services) 18: Unique Transaction (Requires Unique MCC) 20: Credit (Purchase Return)
Acceptor business program (AB) and acceptor business code (MCC)	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - OTH2: Other. All MCCs assigned to OTH1 except MCC 5542: Fuel Dispenser, Automated - P001: Beauty Salons - R001: Railways - S001: Supermarkets - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.

Criteria	Technical requirements
Timeliness	Five days - Holidays are not excluded - Transaction date is excluded - File header date is not excluded
Approval code	Required
Magnetic stripe data from authorization message	Required Only face-to-face transactions are eligible.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Point of service data code	Required as follows: - Subfield 1 (Card Data Input Capability) must be 0, 1, 2, 4, 6, A, B, or V - Subfield 4 (Terminal Operating Environment) must be 1 or 3 - Subfield 5 (Cardholder Present Data) must be 0 - Subfield 6 (Card Present Data) must be 1 - Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S Not required for all other subfields.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table. Must contain an MCC other than one of the following: - MCC 5542: Automated Fuel Dispenser - Mail order (MO) and telephone order (TO) MCCs - MCC 5960: Direct Marketing Insurance Services - MCC 5962: Direct Marketing Travel Related Arrangement Services - MCC 5964: Direct Marketing Catalog Merchants - MCC 5965: Direct Marketing Combination Catalog and Retail Merchants - MCC 5966: Direct Marketing Outbound Telemarketing Merchants - MCC 5967: Direct Marketing Inbound Telemarketing Merchants - MCC 5968: Direct Marketing Continuity/Subscription Merchants - MCC 5969: Direct Marketing Other Direct Marketers Not Elsewhere Classified
Amount tolerance	N/A
Service code	Required The first position must be 2 or 6 (Integrated Circuit Card)
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required

Criteria	Technical requirements
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/ 1644	None
Notes	This interchange program requires specific values in DE 22 and DE 40. They are described above. The card and cardholder must be present at the time of the transaction and the transaction must be face-to-face. Transactions that do not fully qualify for this interchange program must be submitted for IRD 73, 83: Intracountry Consumer Electronic. The following transactions must be submitted for IRD 73, 83: Intracountry Consumer Electronic instead of the chip interchange programs: • Transactions that do not fully qualify for IRD 33: Intracountry Consumer Issuer Chip • Transactions for which both the issuer and acquirer are chip compliant

IRD 34: Intracountry Consumer Acquirer Chip

Transactions must meet requirements to qualify for this interchange program.

Card program identifier	DMC, MCC

Criteria	Technical requirements
GCMS product identifier	Commercial debit: BPD, MDT, MDB Consumer core debit: MDG, MDS, MIU Consumer credit: MCW, MPL, MTP Consumer debit: MDP, MRH Consumer premium debit: MDP Consumer super premium debit: MDW
Message type identifier	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Good and Services) 18: Unique Transaction (Requires Unique MCC) 20: Credit (Purchase Return)
Acceptor business program (AB) and acceptor business code (MCC)	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - OTH2: Other. All MCCs assigned to OTH1 except MCC 5542: Fuel Dispenser, Automated - P001: Beauty Salons - R001: Railways - S001: Supermarkets - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	Five days - Holidays are not excluded - Transaction date is excluded - File header date is not excluded
Approval code	Required
Magnetic stripe data from authorization message	Required Only face-to-face transactions are eligible.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.

Criteria	Technical requirements
Point of service data code	Required as follows: • Subfield 1 (Card Data Input Capability) must be 5, C, D, E, or M • Subfield 4 (Terminal Operating Environment) must be 1 or 3 • Subfield 5 (Cardholder Present Data) must be 0 • Subfield 6 (Card Present Data) must be 1 • Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S Not required for all other subfields.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table. Must contain an MCC other than one of the following: • MCC 5542: Automated Fuel Dispenser • Mail order (MO) and telephone order (TO) MCCs – MCC 5960: Direct Marketing Insurance Services – MCC 5962: Direct Marketing Travel Related Arrangement Services – MCC 5964: Direct Marketing Catalog Merchants – MCC 5965: Direct Marketing Combination Catalog and Retail Merchants – MCC 5966: Direct Marketing Outbound Telemarketing Merchants – MCC 5967: Direct Marketing Inbound Telemarketing Merchants – MCC 5968: Direct Marketing Continuity/Subscription Merchants – MCC 5969: Direct Marketing Other Direct Marketers Not Elsewhere Classified
Amount tolerance	N/A
Service code	Required The first position must be 1, 5, or 7 (card is not an Integrated Circuit Card)
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Technical requirements
Financial Detail Addendum/ 1644	None
Notes	Transactions that do not fully qualify for this interchange program must be submitted for IRD PE: Intraregional Consumer Premium Electronic. Transactions do not qualify for this program when both the card and the terminal are chip compliant. The following elements are required to be present and require specific values to qualify for this interchange program: • DE 22: Point of Service Data Code • DE 40: Service Code The card and the cardholder must be present at the time of the transaction and the transaction must be face-to-face.

IRD PE: Consumer Premium Electronic

Transactions must meet requirements to qualify for this interchange program.

Nicaragua Intracountry Interchange Criteria

This section includes the transaction criteria for the intracountry interchange programs for which there is an associated rate mandated by Mastercard. The transactions were conducted using a Mastercard card issued by a customer in this country and acquired by a customer in this country.

GCMS timeliness criterion.....	2258
IRD 2A: Nicaragua Intracountry Mastercard Initiated Rewards.....	2258
IRD 01, 02, 03, 04, 05, 06, 07, 08, 09, 10, 11, 12, 13, 14, 15: Nicaragua intracountry.....	2260
IRD Q1: Nicaragua Intracountry Transfer to Own Debit or Prepaid Card Account.....	2262
IRD Q2: Nicaragua Intracountry Mastercard MoneySend General Person-to-Person.....	2264
IRD Q3: Nicaragua Intracountry General Transfer to Own Account.....	2267
IRD Q4: Nicaragua Intracountry Payment of Own Credit Card Bill.....	2270
IRD Q5: Nicaragua Intracountry Business Disbursement.....	2273
IRD Q6: Nicaragua Intracountry Transfer to Own Staged Digital Wallet Account.....	2275
IRD Q7: Nicaragua Intracountry General Business-to-Business Transfer.....	2277
IRD Q8: Nicaragua Intracountry Government/Non-profit Disbursement.....	2279
IRD Q9: Nicaragua intracountry Rapid Merchant Settlement.....	2281
IRD QL: Nicaragua Intracountry Agent Cash Out.....	2283
IRD QM: Nicaragua Intracountry Person-to-Person Transfer to Card Account.....	2287
IRD QN: Nicaragua Intracountry Cash in at ATM.....	2289
IRD QO: Nicaragua Intracountry Cash in at Point-of-Sale.....	2292

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0175 (Acceptor URL) should contain the acceptor URL. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Nicaragua Intracountry Mastercard MoneySend General Person-to-Person

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Consumer credit: MBK, MCE, MCG, MCS, MCU, MIC, MIU, MPL Consumer debit: MDG, MDP, MDS, MDW, MIS Consumer prepaid: MIP (DMC), MPA (DMC), MPG (DMC), MPY (DMC), MRC (MCC), MRG (DMC), MRH (DMC), MUS (DMC), SUR (DMC) Commercial credit: MAB, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MLA, MLC, MLD, MLL, MNF, MPC, MWB, MRC, MRG, SUR World Elite Business Debit: BPE
Message Type ID	- First Presentment/1240 - Second Presentment/1240 - First Chargeback/1442 - Arbitration Chargeback/1442
Processing Code	00: Purchase, Goods and Services 28: Payment Transaction

Criteria	Requirement
Acceptor Business (AB) Program	• MON1: MoneySend • MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor city name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard MoneySend payment transactions, acquirers must submit the following data in a Financial Detail Addendum/1644: payment transaction detail message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 28 or 00. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend payment transaction only after collected funds are on deposit and under the control of the acquirer. Multiple payment transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend payment transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a payment transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A payment transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution.

Criteria	Requirement
	MCC 6536 (MoneySend Intracountry) or MCC 6537 (MoneySend Intercountry) can only be used for processing Code 28 (used with MoneySend Payment Transactions) and PDS 0043 equals C07.
	MCC 6538 can only be used for processing code 00 if PDS 43 equals C07.
	MCC 6540 and MCC 4829 can only be used for processing code 00 if PDS 43 equals F07.

IRD Q3: Nicaragua Intracountry General Transfer to Own Account

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding - MON3: MoneySend Payment NOTE: MON1 is not applicable for interregional business services. MON3 is not applicable for intracountry, intercountry, and intraregional business services. Acceptor city	Not Required
Acceptor postal code	Not Required
Acceptor state, province, or region code	Not Required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C52 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C52 or F52 when the transaction processing code is a value 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 43 equals C52. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 43 equals F52.

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C58 when the transaction processing code is a value 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions) if PDS 0043 equals C58.

IRD QO: Nicaragua Intracountry Cash in at Point-of-Sale

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC, MSI
GCMS product ID	All valid GCMS Product Identifiers currently eligible for MoneySend*
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI.
Processing code	28: Payment Transaction
Acceptor business (AB) program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not Required
Acceptor postal code	Not Required

Criteria	Requirement
Acceptor state, province, or region code	Not Required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C59 when the transaction processing code is a value 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions) if PDS 43 equals C59.

Panama Intracountry Interchange Criteria

This section includes the transaction criteria for the intracountry interchange programs for which there is an associated rate mandated by Mastercard. The transactions were conducted using a Mastercard card issued by a customer in this country and acquired by a customer in this country.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Panama Intracountry Consumer Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Commercial credit: MAB, MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLD, MLL, MPC, MWB, TCB, TCO Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MPL, MWE Consumer debit : MDG, MDO, MDP, MDS, MDW, MHB, MHH Consumer prepaid: MPA, MPG, MPP, MPY, MRC, MRG, SUR

Criteria	Requirement
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	28: Payment Transaction
Acceptor Business (AB) Program	- GAM1: Gambling Transactions - GAM2: Government Owned Lottery (Non-US) Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor City	Not required
Acceptor postal code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644

Criteria	Requirement
Notes	In the First Presentment/1240: - DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. - PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-person Payment). - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 24: Panama Intracountry Core Consumer Merchant UCAF

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC

Criteria	Requirement
GCMS Product ID	Commercial debit: BPD, MDT Consumer credit: MCC, MCE, MCG, MCS, MIU Consumer debit: MDG, MDO, MDS, MHB, MHH Consumer prepaid: MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRC, MRG, SUR World Elite Business Debit: BPE
Message Type ID	• First and Second Presentments/1240 • First and Arbitration Chargebacks/1442
Processing Code	• 00: Purchase (Goods and Services) • 18: Unique Transaction (requires unique MCC) • 20: Credit (Purchase Return) • 28: Payment Transaction (valid only with AB program D001)
Acceptor Business (AB) Program	• A001: Airline • B001: Cruise/Steamship • D001: Payment Transactions (valid only for processing code 28) • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	Five days
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.

Panama Intracountry Interchange Criteria
IRD 24: Panama Intracountry Core Consumer Merchant UCAF

Criteria	Requirement
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor City	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Travel-related addendum messages may be provided if DE 26 (Acceptor Business Code) is travel related.
Notes	In the First Presentment/1240: • PDS 0023 (Terminal Type) is required and should contain the value of CT6 indicating CAT level 6 (electronic commerce transaction). • PDS 0052 (Electronic Commerce Security Level Indicator), subfield 3 (UCAF Collection Indicator) is required and should contain the value 1 (UCAF data collection is supported by the merchant, and UCAF data may be available).

IRD 30: Panama Intracountry Petroleum

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC

Criteria	Requirement
Financial Detail Addendum/1644	For Mastercard® MoneySend™ transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). - PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. - PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone numb - Acceptor (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting

Criteria	Requirement
	minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

IRD PS: Panama Intracountry Premium

Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	In the First Presentment/1240 message: • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F61 when the transaction processing code is a value 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. Multiple Payment Transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q7: Panama Intracountry General Business-to-Business Transfer

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card program ID	DMC, MCC
GCMS product ID	Commercial credit: MAB, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLD, MLL, MPC, MWB, TCB, TCO Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MPL, MWE Consumer debit: MDG, MDP, MDS, MDW Consumer prepaid: MPA, MPG, MPM, MPP, MPY, MRH, MRC, MRG, SUR World Elite Business Debit: BPE
Message type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor business (AB) program	- MON1: MoneySend - MON2: Funding NOTE: MON1 is not applicable for interregional business services. For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>
Timeliness	None
Approval code	Required
Magnetic stripe data from authorization message	Not required

Panama Intracountry Interchange Criteria
IRD Q7: Panama Intracountry General Business-to-Business Transfer

Criteria	Requirement
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to an AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). - PDS 0043(Transaction Type Identifier) is required and must contain a value of C65 when the transaction processing code is a value 28. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F65 and C65 when the transaction processing code is a value 00 or 20. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. - MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). - MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C65. - MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F65.

IRD QO: Paraguay Intracountry Cash in at Point-of-Sale.....	2402

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

GCMS product ID	Consumer credit (MCC): MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MNW, MPL, MWE, MRC, MRG, SUR Consumer debit (DMC): MDH, MDO, MDS, MHA, MHB, MHH, MIP, MDG, MDP, MDW, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRH Commercial credit (MCC): MAB, MAC, MBD, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MLA, MLD, MLL, MNF, MPW, MRW, MWB, MWO Mastercard Commercial Debit (DMC): BPD, MDT
Message type ID	• First and Second Presentments/1240 • First and Arbitration Chargebacks/1442
Processing code	• 00: Purchase (Goods and Services) • 09: Purchase (Good and Services) with Cash Back • 18: Unique Transactions (requires unique MCC) • 20: Credit (Purchase Return) Processing Code 09 is only valid for Debit and Prepaid Mastercard Acceptance brand, Debit and Prepaid Mastercard Program ID.

Criteria	Technical requirement
AB program	• A001: Airline • ARG5: Argentina Other • B001: Cruise/Steamship • BEL1: Other • C001: Cash Disbursement • D001: Payment Transactions • F001: Restaurant • F002: Restaurant: Fast Foods and Drinking Places • H001: Lodging • M001: Mail Order/Telephone Order • MON1: MoneySend • OTH1: Other • OTH2: Other: Automated Fuel Dispenser Excluded • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club • Z001: ATM MCC must be in an AB program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
MCC	Required MCC must be in an AB program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required

Criteria	Technical requirement
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor postal code	Required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	None

IRD 2A: Paraguay Intracountry Mastercard Initiated Rewards

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	MCC, DMC
GCMS Product ID	Commercial credit: MAB, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLL, MNF, MRW, MWB Commercial debit: BPD, MDT Consumer credit: MBK, MCE, MCG, MCS, MIU, MPL, MRC, MRG, SUR Consumer debit: MDG, MDP, MDS, MDW, MIP, MPA, MPG, MPY, MRH
Message Type ID	First Presentment/1240
Processing Code	20: Credit (Purchase Return) 28: Payment Transaction
Acceptor Business (AB) Program	I001: Mastercard-Initiated Rebate/Reward Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None

Paraguay Intracountry Interchange Criteria
IRD Q3: Paraguay Intracountry General Transfer to Own Account

Criteria	Requirement
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City name	Not required Must be left-justified and cannot contain all spaces or all zeros
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [selfservice terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C52 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C52 or F52 when the transaction processing code is a value 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 43 equals C52. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 43 equals F52.

Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	Note In the First Presentment/1240 message: - PDS 0043 (Transaction Type Identifier) is required and must contain a value of C56 when transaction processing code is a value of 00, 20, or 28. - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [selfservice terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20.

IRD Q9: Paraguay Intracountry Rapid Merchant Settlement

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Commercial credit: MAB, MBD, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MLA, MPW, MRW, MWB, MWO Commercial debit: BPD, MDT Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MIU, MNW, MPL, MRC, MRG, MWE, SUR Consumer debit: MDG, MDH, MDO, MDP, MDS, MDW, MHH, MIP, MPA, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX MPY, MRH
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442 - Arbitration Chargeback/1442 messages are not valid for transactions with a Card Program ID of MSI
Processing Code	00: Purchase (Goods and Services) 20: Credit (Purchase Return) 28: Payment Transaction

Criteria	Requirement
Acceptor Business (AB) Program	MON1: MoneySend For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i> .
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City name	Not required Must be left-justified and cannot contain all spaces or all zeros
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	For Mastercard® funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions
Notes	Note In the First Presentment/1240 message: • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C57 when transaction processing code is a value 00, 20, or 28. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [selfservice terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20.

IRD QL: Paraguay Intracountry Agent Cash Out

Transactions must meet requirements to qualify for this interchange program.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Peru Intracountry Consumer Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Commercial credit: MAB, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MLA, MLC, MLD, MLL, MNF, MPC, MWB Commercial prepaid: MRW Consumer credit: MBK, MCE, MCG, MCS, MCU, MIC, MIU, MPL Consumer debit: MDG, MDP, MDS, MDW, MIS Consumer prepaid: MIP, MPA, MPG, MPY, MRH, MRC, MRG, MUS, SUR

Peru Intracountry Interchange Criteria
 IRD 20: Peru Intracountry Consumer Payment Transaction

Criteria	Requirement
Message Type ID	First and Second Presentments/1240 Firs and Arbitration Chargebacks/1442
Processing Code	28: Payment Transaction
Acceptor Business (AB) Program	GAM1: Gambling Transactions Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	In the First Presentment/1240 message: • DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. • PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-person Payment). • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution.

IRD 2A: Peru Intracountry Mastercard Initiated Rewards

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Commercial credit: MAB, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLL, MNF, MWB Commercial prepaid: MRW Consumer credit: MBK, MCE, MCG, MCS, MIU, MPL Consumer debit: MDG, MDP, MDS, MDW Consumer prepaid: MIP, MPA, MPG, MPY, MRH, MRC, MRG, SUR
Message Type ID	First Presentment/1240
Processing Code	20: Credit (Purchase Return) 28: Payment Transaction
Acceptor Business (AB) Program	I001: Mastercard-Initiated Rebate/Reward Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required

Criteria	Requirement
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor Postal Code	Required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	None

IRD CN: Peru Intracountry Card Not Present

Transactions must meet IPM requirements to qualify for this interchange rate designator (IRD).

IRD criteria details

Criteria	Technical Requirements
Card program identifier	DMC, MCC
GCMS product identifier	Commercial credit: MAB, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MLA, MLC, MLD, MLL, MNF, MPC, MWB Commercial debit: BPD, MDT Commercial prepaid: MRW Consumer credit: MBK, MCE, MCG, MCS, MCU, MIC, MIU, MPL Consumer debit: MDG, MDP, MDS, MDW, MIS Consumer prepaid: MIP, MPA, MPG, MPY, MRC, MRG, MRH, MUS, SUR World Elite Business Debit: BPE
Message type identifier	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Criteria	Technical Requirements
Processing code	• 00: Purchase (Good and Services) • 09: Purchase (Good and Services) with Cash Back NOTE: Processing Code 09 is only valid for Debit Mastercard acceptance brand (Debit Mastercard Program ID). • 18: Unique Transaction (Requires Unique MCC) • 20: Credit (Purchase Return)

Acceptor city name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling Acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded Acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 can only be used for processing code 00 or 20 if PDS 43 equals C07. MCC 6540 and MCC 4829 can only be used for processing code 00 or 20 if PDS 43 equals F07.

IRD Q3: Peru Intracountry Account-to-Account Transfer

Transactions must meet requirements to qualify to this interchange program.

IRD QN: Puerto Rico Intracountry Cash in at ATM..... 2541

IRD QO: Puerto Rico Intracountry Cash in at Point-of-Sale..... 2545

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 20: Puerto Rico Intracountry Consumer Payment Transaction

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC

Puerto Rico Intracountry Interchange Criteria
IRD 20: Puerto Rico Intracountry Consumer Payment Transaction

Criteria	Requirement
GCMS Product ID	Commercial credit: MAB, MBD, MCB, MDB, MEB, MPC, MWB, TCB, TCO Commercial debit: BPD, MDT Commercial prepaid: MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCW, MPL, MWE Consumer debit: MDG, MDO, MDP, MDS, MDW, MHB, MHH Consumer prepaid: MGP, MPP, MRC, MRG, SUR
Message Type ID	First and Second Presentments/1240 First and Arbitration Chargebacks/1442
Processing Code	28: Payment Transaction
Acceptor Business (AB) Program	GAM1: Gambling Transactions Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces

Puerto Rico Intracountry Interchange Criteria
IRD 20: Puerto Rico Intracountry Consumer Payment Transaction

Criteria	Requirement
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	In the First Presentment/1240: - DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. - PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-toperson Payment). - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bonafide agent relationship with said customer financial institution

IRD 30: Puerto Rico Intracountry Petroleum

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Commercial credit: MAB, MBD, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLC, MLD, MLL, MNF, MPC, MWB Commercial debit: BPD, MDT Commercial prepaid: MBP, MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCU, MCW, MIC, MIU, MPL, MWE Consumer debit: MDG, MDO, MDP, MDS, MDW, MHB, MHH, MIS Consumer prepaid: MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRC, MRG, MRH, MUS, SUR World Elite Business Debit: BPE

Processing Code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor Business (AB) Program	W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required

Criteria	Requirement
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	None

IRD 40: Puerto Rico Intracountry Government

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Commercial credit: MAB, MBD, MBE, MCB, MCF, MCO, MCP, MDB, MEB, MEO, MES, MLA, MLC, MLD, MLL, MNF, MPC, MWB Commercial debit: BPD, MDT Commercial prepaid: MBP, MPW, MRW Consumer credit: MBK, MCC, MCE, MCG, MCS, MCT, MCU, MCW, MIC, MIU, MPL, MWE Consumer debit: MDG, MDO, MDP, MDS, MDW, MHB, MHH, MIS Consumer prepaid: MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY, MRC, MRG, MRH, MUS, SUR World Elite Business Debit: BPE

Criteria	Requirement
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Goods and Services) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor Business (AB) Program	PR02: Puerto Rico Government Services Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	None
Notes	None

IRD 57: Puerto Rico Intracountry Consumer Private Label

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	PVL
GCMS Product ID	Consumer private label: PVA, PVB, PVC, PVD, PVE, PVF, PVG, PVI, PVJ Private label: PVL
Message Type ID	First and Second Presentments/1240 First Chargeback/1442
Processing Code	• 00: Purchase (Goods and Services) • 18: Unique Transaction (Unique MCC) • 20: Credit (Purchase Return) • 28: Payment Transaction

Criteria	Requirement
Acceptor Business (AB) Program	• A001: Airline • B001: Cruise/Steamship • D001: Payment Transactions • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • OTH2: Other • P001: Beauty Salons • R001: Railways • S001: Supermarkets • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Required Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid approval code.
Magnetic stripe data from authorization message	Not required
Trace ID	Required Must contain a valid Banknet Reference Number, and the Banknet Date must contain a valid date in the format MMDD Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid trace ID.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required

Criteria	Requirement
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Private Label Common Data)/ 1644 or Financial Detail Addendum (Private Label Line-Item Detail)/ 1644.
Notes	None

IRD 57: Puerto Rico Intracountry Commercial Private Label

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	PVL
GCMS Product ID	Consumer private label: PVA, PVB, PVC, PVD, PVE, PVF, PVG, PVI, PVJ Private label: PVL
Message Type ID	First and Second Presentments/1240 First Chargeback/1442
Processing Code	00: Purchase (Goods and Services) 18: Unique Transaction (Unique MCC) 20: Credit (Purchase Return) 28: Payment Transaction

Criteria	Requirement
Acceptor Business (AB) Program	• A001: Airline • B001: Cruise/Steamship • D001: Payment Transactions • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • OTH2: Other • P001: Beauty Salons • R001: Railways • S001: Supermarkets • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None

Criteria	Requirement
Notes	In the First Presentment/1240: - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). - PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. - PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling Acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded Acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

IRD PS: Puerto Rico Intracountry Premium

Transactions must meet requirements to qualify for this interchange program.

Acceptor business program (AB) and acceptor business code (MCC)	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - OTH2: Other. All MCCs assigned to OTH1 except MCC 5542: Fuel Dispenser, Automated - P001: Beauty Salons - R001: Railways - S001: Supermarkets - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.

Criteria	Technical requirements
Timeliness	Five days - Holidays are not excluded - Transaction date is excluded - File header date is not excluded
Approval code	Required
Magnetic stripe data from authorization message	Required Only face-to-face transactions are eligible.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Point of service data code	Required as follows: - Subfield 1 (Card Data Input Capability) must be 0, 1, 2, 4, 6, A, B, or V - Subfield 4 (Terminal Operating Environment) must be 1 or 3 - Subfield 5 (Cardholder Present Data) must be 0 - Subfield 6 (Card Present Data) must be 1 - Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S Not required for all other subfields.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table. Must contain an MCC other than one of the following: - MCC 5542: Automated Fuel Dispenser - Mail order (MO) and telephone order (TO) MCCs - MCC 5960: Direct Marketing Insurance Services - MCC 5962: Direct Marketing Travel Related Arrangement Services - MCC 5964: Direct Marketing Catalog Merchants - MCC 5965: Direct Marketing Combination Catalog and Retail Merchants - MCC 5966: Direct Marketing Outbound Telemarketing Merchants - MCC 5967: Direct Marketing Inbound Telemarketing Merchants - MCC 5968: Direct Marketing Continuity/Subscription Merchants - MCC 5969: Direct Marketing Other Direct Marketers Not Elsewhere Classified
Amount tolerance	N/A
Service code	Required The first position must be 2 or 6 (Integrated Circuit Card)
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required

Criteria	Technical requirements
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/ 1644	None
Notes	This interchange program requires specific values in DE 22 and DE 40. They are described above. The card and cardholder must be present at the time of the transaction and the transaction must be face-to-face. Transactions that do not fully qualify for this interchange program must be submitted for IRD 73, 83: Intracountry Consumer Electronic. The following transactions must be submitted for IRD 73, 83: Intracountry Consumer Electronic instead of the chip interchange programs: • Transactions that do not fully qualify for IRD 33: Intracountry Consumer Issuer Chip • Transactions for which both the issuer and acquirer are chip compliant

IRD 34: Intracountry Consumer Acquirer Chip

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Technical requirements
Card program identifier	DMC, MCC

Criteria	Technical requirements
GCMS product identifier	Commercial debit: BPD, MDT, MDB Consumer core debit: MDG, MDS, MIU Consumer credit: MCC, MCE, MCG, MCS, MGP, MIU, MRC, MRG, SUR Consumer debit: ACS, MCD, MDG, MDO, MDS, MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY Consumer premium debit: MDP Consumer super premium debit: MDW
Message type identifier	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Good and Services) 18: Unique Transaction (Requires Unique MCC) 20: Credit (Purchase Return)
Acceptor business program (AB) and acceptor business code (MCC)	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - OTH2: Other. All MCCs assigned to OTH1 except MCC 5542: Fuel Dispenser, Automated - P001: Beauty Salons - R001: Railways - S001: Supermarkets - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	Five days - Holidays are not excluded - Transaction date is excluded - File header date is not excluded
Approval code	Required
Magnetic stripe data from authorization message	Required Only face-to-face transactions are eligible.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.

Criteria	Technical requirements
Point of service data code	Required as follows: • Subfield 1 (Card Data Input Capability) must be 5, C, D, E, or M • Subfield 4 (Terminal Operating Environment) must be 1 or 3 • Subfield 5 (Cardholder Present Data) must be 0 • Subfield 6 (Card Present Data) must be 1 • Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S Not required for all other subfields.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table. Must contain an MCC other than one of the following: • MCC 5542: Automated Fuel Dispenser • Mail order (MO) and telephone order (TO) MCCs – MCC 5960: Direct Marketing Insurance Services – MCC 5962: Direct Marketing Travel Related Arrangement Services – MCC 5964: Direct Marketing Catalog Merchants – MCC 5965: Direct Marketing Combination Catalog and Retail Merchants – MCC 5966: Direct Marketing Outbound Telemarketing Merchants – MCC 5967: Direct Marketing Inbound Telemarketing Merchants – MCC 5968: Direct Marketing Continuity/Subscription Merchants – MCC 5969: Direct Marketing Other Direct Marketers Not Elsewhere Classified
Amount tolerance	N/A
Service code	Required The first position must be 1, 5, or 7 (card is not an Integrated Circuit Card)
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Point of service data code	Required as follows: • Subfield 1 (Card Data Input Capability) must be 5, C, D, E, or M • Subfield 4 (Terminal Operating Environment) must be 1 or 3 • Subfield 5 (Cardholder Present Data) must be 0 • Subfield 6 (Card Present Data) must be 1 • Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S Not required for all other subfields.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table. Must contain an MCC other than one of the following: • MCC 5542: Automated Fuel Dispenser • Mail order (MO) and telephone order (TO) MCCs – MCC 5960: Direct Marketing Insurance Services – MCC 5962: Direct Marketing Travel Related Arrangement Services – MCC 5964: Direct Marketing Catalog Merchants – MCC 5965: Direct Marketing Combination Catalog and Retail Merchants – MCC 5966: Direct Marketing Outbound Telemarketing Merchants – MCC 5967: Direct Marketing Inbound Telemarketing Merchants – MCC 5968: Direct Marketing Continuity/Subscription Merchants – MCC 5969: Direct Marketing Other Direct Marketers Not Elsewhere Classified
Amount tolerance	N/A
Service code	Required The first position must be 1, 5, or 7 (card is not an Integrated Circuit Card)
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Technical requirements
Financial Detail Addendum/ 1644	None
Notes	Transactions that do not fully qualify for this interchange program must be submitted for IRD PE: Intraregional Consumer Premium Electronic. Transactions do not qualify for this program when both the card and the terminal are chip compliant. The following elements are required to be present and require specific values to qualify for this interchange program: • DE 22: Point of Service Data Code • DE 40: Service Code The card and the cardholder must be present at the time of the transaction and the transaction must be face-to-face.

IRD PE: Consumer Premium Electronic

Transactions must meet requirements to qualify for this interchange program.

St. Lucia Intracountry Interchange Criteria

This section includes the transaction criteria for the intracountry interchange programs for which there is an associated rate mandated by Mastercard. The transactions were conducted using a Mastercard card issued by a customer in this country and acquired by a customer in this country.

GCMS timeliness criterion.....	2588
IRD 24: Intracountry Consumer Merchant UCAF.....	2588
IRD 33: Intracountry Consumer Issuer Chip.....	2590
IRD 34: Intracountry Consumer Acquirer Chip.....	2593
IRD 61: Intracountry Commercial Standard.....	2596
IRD 73, 83: Intracountry Consumer Electronic.....	2598
IRD 74: Intracountry Electronic Card Consumer.....	2601
IRD 75, 85, 95: Intracountry Consumer Standard.....	2603
IRD 79: Intracountry Consumer Full UCAF.....	2605
IRD EE: Intracountry Consumer Super Premium Electronic.....	2607
IRD EF: Intracountry Consumer Super Premium Full UCAF.....	2610
IRD ES: Intracountry Consumer Super Premium Standard.....	2612
IRD PA: Consumer Premium Acquirer Chip.....	2613
IRD PE: Consumer Premium Electronic.....	2616
IRD PI: Consumer Premium Issuer Chip.....	2619
IRD PF: Consumer Premium Full UCAF.....	2622
IRD PS: Consumer Premium Standard.....	2624

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 24: Intracountry Consumer Merchant UCAF

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Technical requirements
Card program identifier	DMC, MCC
GCMS product identifier	Commercial debit: BDP MDT, MDB Consumer core debit: MDG, MDS, MIU Consumer credit: ACS, MCC, MCE, MCG, MCS, MGP, MIU, MRC, MRG, SUR Consumer debit: MCD, MDG, MDO, MDS, MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY Consumer premium debit: MDP Consumer super premium debit: BPD, MDT, MDB

Criteria	Technical requirements
Message type identifier	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing code	00: Purchase (Good and Services) 18: Unique Transaction (Requires Unique MCC) 20: Credit (Purchase Return)
Acceptor business program (AB) and acceptor business code (MCC)	- A001: Airline - B001: Cruise/Steamship - F001: Restaurant - H001: Lodging - M001: Mail Order/Telephone Order - OTH1: Other - P001: Beauty Salons - R001: Railways - S001: Supermarkets - T001: Telephone - U001: Unique - V001: Automobile/Vehicle Rental - W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	Five days - Holidays are not excluded - Transaction date is excluded - File header date is not excluded
Approval code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required

Criteria	Technical requirements
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Travel-related addendum messages may be provided if DE 26: Acceptor Business Code is travel related.
Notes	In First Presentment/1240 messages - PDS 0023: Terminal Type is required and must contain the value of CT6 indicating CAT level 6: Electronic Commerce Transaction. - PDS 0052: Electronic Commerce Security Level Indicator, subfield 3: UCAF Collection Indicator is required and must contain the value 1: UCAF data collection is supported by the merchant, and UCAF data may be available.

IRD 33: Intracountry Consumer Issuer Chip

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Technical requirements
Card program identifier	DMC, MCC
GCMS product identifier	Commercial debit: BPD, MDT, MDB Consumer core debit: MDG, MDS, MIU Consumer credit: MCC, MCE, MCG, MCS, MGP, MIU, MRC, MRG Consumer debit: ACS, MDG, MDO, MDS, MHA, MIP, MPA, MPF, MPG, MPM, MPN, MPO, MPP, MPR, MPT, MPV, MPX, MPY Consumer premium debit: MDP Consumer super premium debit: MDW
Message type identifier	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Criteria	Technical requirements
Processing code	• 00: Purchase (Good and Services) • 18: Unique Transaction (Requires Unique MCC) • 20: Credit (Purchase Return)
Acceptor business program (AB) and acceptor business code (MCC)	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • OTH2: Other. All MCCs assigned to OTH1 except MCC 5542: Fuel Dispenser, Automated • P001: Beauty Salons • R001: Railways • S001: Supermarkets • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	Five days • Holidays are not excluded • Transaction date is excluded • File header date is not excluded
Approval code	Required
Magnetic stripe data from authorization message	Required Only face-to-face transactions are eligible.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Point of service data code	Required as follows: • Subfield 1 (Card Data Input Capability) must be 0, 1, 2, 4, 6, A, B, or V • Subfield 4 (Terminal Operating Environment) must be 1 or 3 • Subfield 5 (Cardholder Present Data) must be 0 • Subfield 6 (Card Present Data) must be 1 • Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S Not required for all other subfields.

Criteria	Technical requirements
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table. Must contain an MCC other than one of the following: • MCC 5542: Automated Fuel Dispenser • Mail order (MO) and telephone order (TO) MCCs – MCC 5960: Direct Marketing Insurance Services – MCC 5962: Direct Marketing Travel Related Arrangement Services – MCC 5964: Direct Marketing Catalog Merchants – MCC 5965: Direct Marketing Combination Catalog and Retail Merchants – MCC 5966: Direct Marketing Outbound Telemarketing Merchants – MCC 5967: Direct Marketing Inbound Telemarketing Merchants – MCC 5968: Direct Marketing Continuity/Subscription Merchants – MCC 5969: Direct Marketing Other Direct Marketers Not Elsewhere Classified
Amount tolerance	N/A
Service code	Required The first position must be 2 or 6 (Integrated Circuit Card)
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None

Criteria	Technical requirements
Notes	This interchange program requires specific values in DE 22 and DE 40. They are described above. The card and cardholder must be present at the time of the transaction and the transaction must be face-to-face. Transactions that do not fully qualify for this interchange program must be submitted for IRD 73, 83: Intracountry Consumer Electronic. The following transactions must be submitted for IRD 73, 83: Intracountry Consumer Electronic instead of the chip interchange programs: • Transactions that do not fully qualify for IRD 33: Intracountry Consumer Issuer Chip • Transactions for which both the issuer and acquirer are chip compliant

IRD 34: Intracountry Consumer Acquirer Chip

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Technical requirements

Processing code	• 00: Purchase (Good and Services) • 18: Unique Transaction (Requires Unique MCC) • 20: Credit (Purchase Return)
Acceptor business program (AB) and acceptor business code (MCC)	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • OTH2: Other. All MCCs assigned to OTH1 except MCC 5542: Fuel Dispenser, Automated • P001: Beauty Salons • R001: Railways • S001: Supermarkets • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	Five days • Holidays are not excluded • Transaction date is excluded • File header date is not excluded
Approval code	Required
Magnetic stripe data from authorization message	Required
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.

Criteria	Technical requirements
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table. Must contain an MCC other than one of the following: • MCC 5542: Automated Fuel Dispenser • Mail order (MO) and telephone order (TO) MCCs – MCC 5960: Direct Marketing Insurance Services – MCC 5962: Direct Marketing Travel Related Arrangement Services – MCC 5964: Direct Marketing Catalog Merchants – MCC 5965: Direct Marketing Combination Catalog and Retail Merchants – MCC 5966: Direct Marketing Outbound Telemarketing Merchants – MCC 5967: Direct Marketing Inbound Telemarketing Merchants – MCC 5968: Direct Marketing Continuity/Subscription Merchants – MCC 5969: Direct Marketing Other Direct Marketers Not Elsewhere Classified
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/ 1644	None
Notes	The card and the cardholder must be present at the time of the transaction and the transaction must be face-to-face.

IRD EF: Intracountry Consumer Super Premium Full UCAF

Transactions must meet requirements to qualify for this interchange program.

Message type identifier	• First and Second Presentments/1240 • First and Arbitration Chargebacks/1442
Processing code	• 00: Purchase (Good and Services) • 18: Unique Transaction (Requires Unique MCC) • 20: Credit (Purchase Return)
Acceptor business program (AB) and acceptor business code (MCC)	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • OTH2: Other. All MCCs assigned to OTH1 except MCC 5542: Fuel Dispenser, Automated • P001: Beauty Salons • R001: Railways • S001: Supermarkets • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	Five days • Holidays are not excluded • Transaction date is excluded • File header date is not excluded
Approval code	Required
Magnetic stripe data from authorization message	Required Only face-to-face transactions are eligible.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.

Criteria	Technical requirements
Point of service data code	Required as follows: • Subfield 1 (Card Data Input Capability) must be 5, C, D, E, or M • Subfield 4 (Terminal Operating Environment) must be 1 or 3 • Subfield 5 (Cardholder Present Data) must be 0 • Subfield 6 (Card Present Data) must be 1 • Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S Not required for all other subfields.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table. Must contain an MCC other than one of the following: • MCC 5542: Automated Fuel Dispenser • Mail order (MO) and telephone order (TO) MCCs – MCC 5960: Direct Marketing Insurance Services – MCC 5962: Direct Marketing Travel Related Arrangement Services – MCC 5964: Direct Marketing Catalog Merchants – MCC 5965: Direct Marketing Combination Catalog and Retail Merchants – MCC 5966: Direct Marketing Outbound Telemarketing Merchants – MCC 5967: Direct Marketing Inbound Telemarketing Merchants – MCC 5968: Direct Marketing Continuity/Subscription Merchants – MCC 5969: Direct Marketing Other Direct Marketers Not Elsewhere Classified
Amount tolerance	N/A
Service code	Required The first position must be 1, 5, or 7 (card is not an Integrated Circuit Card)
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Technical requirements
Financial Detail Addendum/ 1644	None
Notes	This interchange program requires specific values in DE 22 and DE 40. They are described above. The card and cardholder must be present at the time of the transaction and the transaction must be face-to-face. Transactions that do not fully qualify for this interchange program must be submitted for IRD 73, 83: Intracountry Consumer Electronic. The following transactions must be submitted for IRD 73, 83: Intracountry Consumer Electronic instead of the chip interchange programs: • Transactions that do not fully qualify for IRD 34: Intracountry Consumer Acquirer Chip • Transactions for which both the issuer and acquirer are chip compliant

IRD 61: Intracountry Commercial Standard

Transactions must meet requirements to qualify for this interchange program.

IRD Q1: Suriname Intracountry Transfer to Own Debit or Prepaid Card Account

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Commercial credit: MAB, MBE, MCB, MCF, MCO, MCP, MEB, MEO, MLA, MLC, MLD, MLL, MNF, MPC, MWB Commercial debit: BDP, MDT, MDB Commercial prepaid: MRW Consumer credit: MBK, MCE, MCG, MCS, MCU, MIC, MPL Consumer debit: MDG, MDP, MDS, MDW, MIS, MIU Consumer prepaid: MIP, MPA, MPG, MPY, MRC, MRG, MRH, MUS, SUR World Elite Business Debit: BPE
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Good and Services) 20: Credit (Purchase Return)
Acceptor Business (AB) Program	MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required

Surinam Intracountry Interchange Criteria

IRD Q1: Suriname Intracountry Transfer to Own Debit or Prepaid Card Account

Criteria	Requirement
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required MCC must be in an AB program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City Name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard funding transactions and funding transaction refunds, acquirers may submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644 message: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Card Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: - PDS 0175 (Card Acceptor URL) should contain the card acceptor URL. - PDS 0170 (Card Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when the transaction processing code is a value 00 or 20. The acquirer pays the interchange fee to the issuer. Multiple payment transactions may not be aggregated into a single Mastercard clearing transaction.

IRD Q2: Suriname Intracountry General Person-to-Person Transfer

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Commercial credit: MAB, MBE, MCB, MCF, MCO, MCP, MEB, MEO, MLA, MLC, MLD, MLL, MNF, MPC, MWB Commercial debit: BDP, MDT, MDB Commercial prepaid: MRW Consumer credit: MBK, MCE, MCG, MCS, MCU, MIC, MPL Consumer debit: MDG, MDP, MDS, MDW, MIS, MIU Consumer prepaid: MIP, MPA, MPG, MPY, MRC, MRG, MRH, MUS, SUR World Elite Business Debit: BPE
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Good and Services) 20: Credit (Purchase Return) 28: Payment Transaction

Surinam Intracountry Interchange Criteria
IRD Q2: Suriname Intracountry General Person-to-Person Transfer

Criteria	Requirement
Acceptor Business (AB) Program	• MON1: MoneySend • MON2: Funding For acceptor business codes (MCCs) associated with AB programs, refer to Chapter 3 in the <i>Quick Reference Booklet</i>.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required
Trace ID	Required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor Business Code (MCC)	Required MCC must be in an AB program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Required
Acceptor City Name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Requirement
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Card Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Note	In the First Presentment/1240 message: • PDS 0175 (Card Acceptor URL) should contain the card acceptor URL. • PDS 0170 (Card Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F64 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling card acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded card acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 01: Trinidad and Tobago Intracountry Consumer Core: Gasoline Stations

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Consumer credit: MCC, MCE, MCG, MCS, MIU Consumer debit: MDG, MDS Consumer prepaid: MIP, MPA, MPG, MPP, MPY, MRC, MRG, SUR
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Trinidad and Tobago Intracountry Interchange Criteria
IRD 01: Trinidad and Tobago Intracountry Consumer Core: Gasoline Stations

Criteria	Requirement
Processing Code	• 00: Purchase (Goods and Services) • 09: Purchase with Cash Back (Cash Access) • 18: Unique Transaction (requires unique MCC) • 20: Credit (Purchase Return)
Acceptor Business (AB) Program	• PET1: Petroleum CAT/Automated Fuel Dispenser • PET2: Petroleum Service Stations Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	None

IRD 02: Trinidad and Tobago Intracountry Consumer: Core Government

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Consumer credit: MCC, MCE, MCG, MCS, MIU Consumer debit: MDG, MDS Consumer prepaid: MIP, MPA, MPG, MPP, MPY, MRC, MRG, SUR
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442
Processing Code	00: Purchase (Goods and Services) 09: Purchase (Goods and Services) with Cash Back (only for use with Mastercard Debit Card products) 18: Unique Transaction (requires unique MCC) 20: Credit (Purchase Return)
Acceptor Business (AB) Program	GVT1: Government Services Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Not required
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required

Criteria	Requirement
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros
Acceptor postal code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None
Notes	None

IRD 03: Trinidad and Tobago Intracountry Consumer: Core Supermarkets

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	DMC, MCC
GCMS Product ID	Consumer credit: MCC, MCE, MCG, MCS, MIU Consumer debit: MDG, MDS Consumer prepaid: MIP, MPA, MPG, MPP, MPY, MRC, MRG, SUR
Message Type ID	- First and Second Presentments/1240 - First and Arbitration Chargebacks/1442

Trinidad and Tobago Intracountry Interchange Criteria
IRD 20: Trinidad and Tobago Intracountry Consumer Payment Transaction

Criteria	Requirement
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Payment Transaction Detail)/1644.

Criteria	Requirement
Notes	In the First Presentment/1240 message: • DE 3 (Processing Code), subfield 1 (Cardholder Transaction Type) is required and must contain the value of 28 indicating Payment Transaction. • PDS 0043 (Program Registration ID) is required and must contain the value of C01 (Person-to-Person Payment). • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the customer URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The Payment Transaction may not be used for another of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling merchant; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or of the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered a bonafide agent relationship with said customer financial institution.

Trinidad and Tobago Intracountry Interchange Criteria
IRD MS: Trinidad and Tobago Intracountry Mastercard MoneySend (lifecycled until 26.Q2)

Criteria	Requirement
Acceptor Street Address	Required for all transactions in which the acceptor country code is BRA (Brazil) or MEX (Mexico). Not required for all other transactions
Acceptor city name	Not required
Acceptor Postal Code	Required for all transactions in which the acceptor country code is BRA (Brazil) or MEX (Mexico). Not required for all other transactions
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® MoneySend™ transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: - PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). - PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. - PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. - PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. - PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: - Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling Acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. - Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded Acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C54 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of F54 or C54 when the transaction processing code is a value 00 or 20 • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 43 equals C54. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 43 equals F54.

Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C58 when the transaction processing code is a value 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions) if PDS 0043 equals C58.

IRD QO: Trinidad and Tobago Intracountry Cash in at Point-of-Sale

Transactions must meet requirements to qualify for this interchange program.

Timeliness	Five days • Holidays are not excluded • Transaction date is excluded • File header date is not excluded
Approval code	Required
Magnetic stripe data from authorization message	Not required Refer to notes section at the end of this table.
Trace ID	Not required If present, the Banknet Date must contain a valid date in the format MMDD.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table.
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required

Criteria	Technical requirements
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Travel-related addendum messages may be provided if DE 26 (Acceptor Business Code) is travel related.
Notes	In the First Presentment/1240 message: - PDS 0023 (Terminal Type) is required and must contain the value of CT6 indicating CAT level 6 (electronic commerce transaction) - PDS 0052 (Electronic Commerce Security Level Indicator), subfield 3 (UCAF Collection Indicator) is required and must contain the value 2 (Both merchant and issuer are UCAF-enabled, as indicated in the Authorization Request/0100 message) or 5 (Issuer risk based decisioning). MCE consumer e-commerce activity is available under IRD 79—Intraregional Consumer Full UCAF Customers must have a Mastercard Electronic license agreement with Mastercard to acquire Mastercard Electronic transactions.

IRD EE: Intracountry Consumer Super Premium Electronic

Transactions must meet requirements to qualify for this interchange program.

Point of service data code	Required as follows: • Subfield 1 (Card Data Input Capability) must be 5, C, D, E, or M • Subfield 4 (Terminal Operating Environment) must be 1 or 3 • Subfield 5 (Cardholder Present Data) must be 0 • Subfield 6 (Card Present Data) must be 1 • Subfield 7 (Card Data: Input Mode) must be 0, 1, 2, 6, A, B, or S Not required for all other subfields.
Acceptor business code (MCC)	Required Must contain an MCC belonging to a AB program previously listed in this table. Must contain an MCC other than one of the following: • MCC 5542: Automated Fuel Dispenser • Mail order (MO) and telephone order (TO) MCCs – MCC 5960: Direct Marketing Insurance Services – MCC 5962: Direct Marketing Travel Related Arrangement Services – MCC 5964: Direct Marketing Catalog Merchants – MCC 5965: Direct Marketing Combination Catalog and Retail Merchants – MCC 5966: Direct Marketing Outbound Telemarketing Merchants – MCC 5967: Direct Marketing Inbound Telemarketing Merchants – MCC 5968: Direct Marketing Continuity/Subscription Merchants – MCC 5969: Direct Marketing Other Direct Marketers Not Elsewhere Classified
Amount tolerance	N/A
Service code	Required The first position must be 1, 5, or 7 (card is not an Integrated Circuit Card)
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city	Required Must be left-justified and cannot contain all spaces or zeros
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor Country Code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required

Criteria	Technical requirements
Financial Detail Addendum/ 1644	None
Notes	Transactions that do not fully qualify for this interchange program must be submitted for IRD PE: Intraregional Consumer Premium Electronic. Transactions do not qualify for this program when both the card and the terminal are chip compliant. The following elements are required to be present and require specific values to qualify for this interchange program: • DE 22: Point of Service Data Code • DE 40: Service Code The card and the cardholder must be present at the time of the transaction and the transaction must be face-to-face.

IRD PE: Consumer Premium Electronic

Transactions must meet requirements to qualify for this interchange program.

IRD QO: Uruguay Intracountry Cash in at Point-of-Sale.....	3008
IRD T8: Uruguay Intracountry Credit Non-installments Base Rate.....	3010

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

IRD 57: Uruguay Intracountry Consumer Private Label

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	PVL
GCMS Product ID	Consumer private label: PVA, PVB, PVC, PVD, PVE, PVF, PVG, PVI, PVJ Private label: PVL
Message Type ID	First and Second Presentments/1240 First Chargeback/1442

Criteria	Requirement
Processing Code	• 00: Purchase (Goods and Services) • 18: Unique Transaction (Unique MCC) • 20: Credit (Purchase Return) • 28: Payment Transaction
Acceptor Business (AB) Program	• A001: Airline • B001: Cruise/Steamship • D001: Payment Transactions • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • OTH2: Other • P001: Beauty Salons • R001: Railways • S001: Supermarkets • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Required Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid approval code.
Magnetic stripe data from authorization message	Not required
Trace ID	Required Must contain a valid Banknet Reference Number, and the Banknet Date must contain a valid date in the format MMDD Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid trace ID.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A

Criteria	Requirement
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Private Label Common Data)/ 1644 or Financial Detail Addendum (Private Label Line-Item Detail)/ 1644.
Notes	None

IRD 57: Uruguay Intracountry Commercial Private Label

Transactions must meet requirements to qualify for this interchange program.

IRD criteria details

Criteria	Requirement
Card Program ID	PVL
GCMS Product ID	Consumer private label: PVA, PVB, PVC, PVD, PVE, PVF, PVG, PVI, PVJ Private label: PVL
Message Type ID	First and Second Presentments/1240 First Chargeback/1442

Criteria	Requirement
Processing Code	• 00: Purchase (Goods and Services) • 18: Unique Transaction (Unique MCC) • 20: Credit (Purchase Return) • 28: Payment Transaction
Acceptor Business (AB) Program	• A001: Airline • B001: Cruise/Steamship • D001: Payment Transactions • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • OTH2: Other • P001: Beauty Salons • R001: Railways • S001: Supermarkets • T001: Telephone • U001: Unique • V001: Automobile/Vehicle Rental • W001: Warehouse Club Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Required Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid approval code.
Magnetic stripe data from authorization message	Not required
Trace ID	Required Must contain a valid Banknet Reference Number, and the Banknet Date must contain a valid date in the format MMDD Transactions submitted for the account ranges participating in the Co-Brand Proprietary Transaction Management Program must provide a valid trace ID.
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A

Uruguay Intracountry Interchange Criteria
IRD 2A: Uruguay Intracountry Mastercard Initiated Rewards

Criteria	Requirement
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	None Acquirers may submit a Financial Detail Addendum (Private Label Common Data)/ 1644 or Financial Detail Addendum (Private Label Line-Item Detail)/ 1644.
Notes	None

IRD 2A: Uruguay Intracountry Mastercard Initiated Rewards

Transactions must meet requirements to qualify for this interchange program.

Uruguay Intracountry Interchange Criteria
IRD 6T: Uruguay Intracountry Card Present; Issuer Installments

Criteria	Technical requirement
Message type ID	• First Presentment/1240 • First Chargeback/1442 • Second Presentment/1240 • Arbitration Chargeback/1442
Processing code	• 00: Purchase (Goods and Services) • 18: Unique Transaction (Unique MCC) • 20: Credit (Purchase Return)
Acceptor business (AB) program	• A001: Airline • B001: Cruise/Steamship • F001: Restaurant • H001: Lodging • M001: Mail Order/Telephone Order • OTH1: Other • P001: Beauty Salons • R001: Railways • S001: Supermarket • T001: Telephone • U001: Unique • V001: Automobile • W001: Warehouse Club Acceptor business code (MCC) must be in an AB program previously listed in this table.
Timeliness	None
Approval code	Not required
Magnetic stripe data from authorization message	Not required
Trace ID	Required Must contain a valid Banknet reference number and Banknet date format MMDD.
Acceptor business code (MCC)	Required MCC must be in an AB program previously listed in this table
Amount tolerance	N/A
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Not required
Acceptor city name	Required Must be left-justified and cannot contain all spaces or all zeros.

Criteria	Technical requirement
Acceptor Postal Code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces
Mastercard assigned ID	Not required
Financial Detail Addendum/ 1644	None
Notes	Data Element (DE) 22 (Point of Service [POS] Entry Mode), subfield 5 (Cardholder Present Data), must contain a valid value 0: Cardholder present DE 22, subfield 6 (Card Present Data), must contain a valid value 1: Card present DE 22, subfield 7 (Card Data: Input Mode), must contain a valid value: • 2: PAN auto-entry via magnetic strip, track data not required within transaction • B: PAN auto-entry via magnetic strip or chip, track data provided unaltered within transaction. Magnetic stripe entry can be chip fallback transaction. • C: PAN auto-entry via chip online authorized transaction • F: PAN auto-entry via chip, offline chip-approved transaction For installment payments, PDS 1001(Member-to-Member Proprietary Data) must be present, and positions 1 and 2 must include a valid installment plan value 20. For information about providing installment plan type, number, amount, total amount, and total number of installments, refer to the <i>Uruguay Domestic Switching Implementation Guide</i>.

Processing Code	00: Purchase (Goods and Services) 18: Unique Transaction 20: Credit (Purchase Return) 28: Payment Transaction
Acceptor Business (AB) Program	MON1: MoneySend Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table.
Timeliness	None
Approval Code	Required
Magnetic stripe data from authorization message	Not required

Criteria	Requirement
Trace ID	Required Must contain a valid Banknet Reference Number, and the Banknet Date must contain a valid date in the format MMDD
Acceptor Business Code (MCC)	Required Must contain an MCC belonging to an acceptor business (AB) program previously listed in this table
Amount Tolerance	N/A
Acceptor ID Code	Required
Acceptor Name	Required
Acceptor Street Address	Not required
Acceptor city name	Not required
Acceptor Postal Code	Not required
Acceptor State, Province, or Region Code	Not required
Acceptor Country Code	Required Cannot contain spaces
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	For Mastercard® MoneySend™ transactions, acquirers must submit the following data in a Financial Detail Addendum (Payment Transaction Detail)/1644: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Program Registration ID) is required and must contain a value of C07, C52, C53, C54, C55, C56, or C57 when transaction processing code is a value of 00 or 28. • PDS 0043 (Program Registration ID) is required and must contain a value of C58, or C59 when transaction processing code is a value of 28. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Acquirers may submit a MoneySend Payment Transaction only after collected funds are on deposit and under the control of the acquirer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling Acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded Acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting

Criteria	Requirement
	minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transaction). MCC 6538 (MoneySend Funding) is to only be used with Processing Code 00 (used with MoneySend Funding Transaction).

IRD Q1: Uruguay Intracountry Transfer to Own Debit or Prepaid Card Account

Transactions must meet requirements to qualify for this interchange program.

Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.

IRD Q3: Uruguay Intracountry General Transfer to Own Account

Transactions must meet requirements to qualify for this interchange program.

Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) must be submitted for all MoneySend Payment transactions

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C53 when the transaction processing code is a value 28. • PDS 0043(Transaction Type Identifier) is required and must contain a value of C53 or F53 when the transaction processing code is a value of 00 or 20. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0175 (Acceptor URL) should contain the acceptor URL. The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C53. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equal F53.

IRD QM: Uruguay Intracountry Person-to-Person Transfer to Card Account

Transactions must meet requirements to qualify for this interchange program.

GCMS timeliness criterion

The timeliness of a customer submitting a transaction is a criterion used to determine whether the transaction qualifies for specific interchange programs.

A GCMS timeliness criterion is provided in some of the IRD tables in this chapter.

Transaction passes GCMS timeliness

A transaction passes the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is less than, or equal to, the number of days specified for the IRD timeliness criterion.

Transaction does not pass GCMS timeliness

A transaction does not pass the GCMS timeliness criterion if file header date (PDS 0105 [File ID], subfield 2 [File Reference Date]) minus the transaction date (DE 12 [Transaction Date and Time, Local Transaction]) is the greater than the number of days specified for the IRD timeliness criterion.

References

For more information on holidays, refer to *GCMS Parameter Table Layouts*.

For more information about GCMS timeliness, refer to the *GCMS Reference Manual*.

Venezuela Intracountry Interchange Criteria
IRD Q2: Venezuela Intracountry General Person-to-Person Transfer

Criteria	Requirement
Acceptor ID code	Required
Acceptor name	Required
Acceptor street address	Required
Acceptor city	Not required
Acceptor postal code	Not required
Acceptor state, province, or region code	Not required
Acceptor country code	Required Cannot contain spaces.
Mastercard Assigned ID	Not required
Financial Detail Addendum/1644	Acquirers must submit the following data in Financial Detail Addendum (Payment Transaction Detail)/1644 messages for MoneySend payment transactions and may submit the following data for Mastercard® funding transactions and funding transaction refunds: • PDS 0670 (Payer/User Information) • PDS 0671 (Date of Funds Requested) • PDS 0674 (Additional Trace/Reference Number Used by Acceptor) • PDS 0765 (Payee Information) (must be submitted for all MoneySend Payment transactions)

Criteria	Requirement
Notes	In the First Presentment/1240 message: • PDS 0175 (Acceptor URL) should contain the acceptor URL. • PDS 0170 (Acceptor Inquiry Information), subfield 1 (Customer Service Phone Number) should contain the customer service phone number. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 when the transaction processing code is a value 28. • PDS 0043 (Transaction Type Identifier) is required and must contain a value of C07 or F07 when the transaction processing code is a value 00 or 20. • PDS 0023 (Terminal Type) is required and must contain a value of ATM (ATM terminal), CT1 (CAT Level 1), CT2 (CAT level 2 [self-service terminal]), CT6 (CAT level 6 [electronic commerce transaction]), or NA (Terminal type data unknown or not available [The third position of this value is a space.]). The acquirer pays the interchange fee to the issuer. Multiple Payment Transactions may not be aggregated into a single Mastercard authorization or clearing transaction. The MoneySend Payment Transaction may not be used for any of the following circumstances: • Transfer of gambling winnings or funds related to chips, currency, or other value usable for gambling that were purchased at any gambling acceptor; or transfer of the proceeds from a Mastercard transaction to a commercial entity or to another Mastercard merchant. • Cardholder authentication, including authentication of a Mastercard account, or the cardholder, by posting a nominal credit (with a Payment Transaction) to a cardholder's account and requesting cardholders to report a coded acceptor description to the Payment Transaction provider. A Payment Transaction provider may not represent itself as an agent of any customer financial institution, for any purpose, including accepting minimum monthly payments or account balance payments on behalf of the customer financial institution, unless it has entered into a bona fide agent relationship with said customer financial institution. MCC 6536 (MoneySend Intracountry) and MCC 6537 (MoneySend Intercountry) are to only be used with Processing Code 28 (used with MoneySend Payment Transactions). MCC 6538 (MoneySend Funding) can only be used for processing code 00 or 20 if PDS 0043 equals C07. MCC 6540 (POI Funding Transactions) and MCC 4829 (Money Transfer) can only be used for processing code 00 or 20 if PDS 0043 equals F07.
