Overview

MATCH Pro offers a Mastercard Test Facility (MTF) environment for all MATCH channels to simulate MATCH Pro inquiries, merchant adds, retroactive inquiries, and reporting (each, a 'Simulated Change').

For the avoidance of doubt, Simulated Changes remain in a testing environment and will not satisfy any Mastercard Rules obligations regarding MATCH or MATCH Pro.

The MATCH Pro MTF environment is for testing purposes only to perform all user acceptance testing (UAT). Testing is conducted only in the MATCH Pro MTF environment. Testing is not permitted in the MATCH Pro production environment.

MATCH Pro MTF provides the same functionality and conditions as in the MATCH Pro production environment. Authorized users perform UAT under their provisioned ICA number.

The MATCH Pro MTF environment:

- Is accessed using provisioned ICA numbers;
- Contains production-like data, excluding Personal Identifiable Information (PII);
- Mimics the production environment's functionality and usability;
- Is considered an MTF environment for testing purposes only; and
- Does not add any merchant added or inquired on in MTF into the MATCH Pro production environment.

Match Pro MTF functionality

The upgraded MATCH Pro MTF user interface (UI) provides more insights into MATCH Pro activity. A subset of data for each provisioned ICA is accessible through the application.

The MATCH Pro MTF UI:

- Includes access to My Company Performance MTF, which includes a Dashboard for insight into fraud, chargebacks, and decline data;
- Provides a comprehensive view into merchant adds and inquiries, including the ability to filter specific fields within the merchant add and inquiry grids;
- Offers a single page entry for all merchant adds and inquiries;
- Allows you to create reports off of your provisioned ICA number;
- Has user-friendly file upload functionality;
- Provides access to retroactive inquiries generated within the previous 30 days;
- Has a view into the application program interface (API) client IDs or batch endpoint linkings;

My Company Performance MTF

MATCH Pro MTF is available in the **My Company Performance MTF** application on Mastercard Connect.

My Company Performance

My Company Performance (MCP) consolidates Mastercard compliance programs into a single platform, for authorized users to manage performance through an automated, omni-channel experience using open APIs, and artificial intelligence (AI).

MCP Dashboard

The MCP **Dashboard** provides high-level data points around fraud, chargebacks, and declines, and also provides recommendations for other Mastercard products and services.

Request My Company Performance MTF access

This section provides steps for requesting the My Company Performance MTF application.

Before you begin

You must have access and login credentials for Mastercard Connect®.

Procedure

1. Sign in to [Mastercard Connect](#).
2. Select **Store**.

The Mastercard Connect **Store** displays.

3. Search for the **My Company Performance MTF** tile.

My Company Performance MTF

4. Select the **My Company Performance MTF** tile.
5. Select **Request access**.

My Company Performance MTF request access

6. Complete the information requested.

Results

You will receive an order confirmation message in **My Items**. The message provides an option that enables you to track the status of your order.

Access MATCH Pro MTF

This section provides steps for accessing the MATCH Pro MTF application from the My Company Performance MTF application.

Before you begin

You must have access to the **My Company Performance MTF** application.

Procedure

1. Sign in to [Mastercard Connect](#).
2. From **My Items**, select the **My Company Performance MTF** tile.

The **My Company Performance MTF Dashboard** displays.

My Company Performance MTF Dashboard

NOTE: If you do not see data in your Dashboard, you will need to manage your access and request.

3. Select **My Applications** from the **My Company Performance MTF** banner, and then select the **MATCH Pro MTF** tile.

Contact Us

This section provides contact information for MATCH Pro MTF questions, comments, or issues.

For assistance, send an email message to MATCHPro.help@mastercard.com.

MATCH Pro MTF Use Cases

This chapter provides procedures for MATCH Pro MTF use cases.

Use Cases.....	9

Error File.....	24
Reports.....	24
Create an ICA Activity Report.....	24
Create an Inquiry Report.....	25

Use Cases

MATCH Pro MTF provides the same functionality and conditions as in the MATCH Pro production environment.

Users can complete the following use cases in the MATCH Pro MTF application:

- **Add Merchants**
- **Inquiries**
- **Bulk File Uploads**
- **Retroactive Inquiries**
- **Modify Merchants**
- **Delete Merchants**
- **Reports**

Merchant Adds

Follow these steps to add a merchant in MATCH Pro MTF.

Procedure

1. From the MATCH Pro MTF menu, select **Add a Merchant**.
 - To add a merchant, select **New Merchant in MTF**, or
 - To continue working on a saved draft, select **From MTF Drafts**

The **Add Merchant Data** screen displays.

Add a Merchant

The **Merchant Adds** screen displays added merchants, and allows you to view, filter, refine columns, and export merchant data.

Merchant Adds

The screenshot shows the 'Merchant Adds' screen in the MATCH Pro interface. At the top, there is a dark header bar with the Mastercard logo and 'connect' text on the left, and 'My Items', 'Store', 'Help', and a user icon on the right. Below the header, a dark bar contains the title 'Mastercard Alert to Control High-Risk Merchants Pro (MATCH Pro)' and a yellow 'Testing Environment' badge. A navigation bar below this has links: 'Add a Merchant', 'Inquiry', 'File Upload', 'Reports', 'Retroactive Inquiry', and 'Link ID'. The main content area has a 'Home' link and the title 'Merchant Adds'. Below the title are links for 'Filter', 'Columns', and 'Export', and a red 'Add Merchant in MTF' button. A table displays a list of merchants with columns: Reference #, Merchant Name, Doing Business As, Merchant ID, Sub Merchant ..., City, State / Province, and Country. The table contains five rows of data. At the bottom, there is a pagination bar showing 'Page 1 of 1' and 'Displaying (1-5 of 5)', and a dropdown menu set to '25'.

Create a Retroactive Inquiry

Follow these steps to create a Retroactive Inquiry in MATCH Pro MTF.

About this task

MATCH Pro MTF continues to perform an inquiry lookup on data entered for 365 days. If another acquirer adds a merchant that could be a possible match, MATCH Pro MTF returns a **Retroactive Inquiry** containing the merchant data to the acquirer.

Procedure

1. From the menu, select **Inquiry**.
2. Select **New Inquiry**.
3. Complete the **New Inquiry** merchant fields.
The **New Inquiry** screen displays.

New Inquiry

4. Enter information for a **Merchant** that is not already in the system.
5. Select **Add a Merchant** to add the merchant into MATCH Pro MTF.
The **Merchant** can be similar to the **Inquiry**, but must have at least one exact matching field between the **Merchant Record** and the **Inquiry Record**.
A **Success** confirmation message displays.
6. Select **OK** to close the message.

Success confirmation message

7. After 5 minutes, navigate to **Retroactive Inquiry**.
The **Retroactive Inquiry** is available at the top of the grid.

Retroactive Inquiry

The screenshot shows the MATCH Pro interface with the 'Retroactive Inquiry' tab selected. The table displays three rows of data with columns for Reference #, Merchant Name, City, State / Province, Country, Acquirer ICA, and Date Added. Each row has a checkbox in the first column.

	Reference #	Merchant Name	City	State / Province	Country	Acquirer ICA	Date Added
☐	19246-241011151827-VQYOSCL1	SWEETS SHOPPE	SAINT LOUIS	MISSOURI	UNITED STATES	19246	11-Oct-2024
☐	19246-240910132959-3XXGAP4T	THE MTF SHOP	SAINT LOUIS	MISSOURI	UNITED STATES	19246	11-Oct-2024
☐	19246-240919152542-ZP2CGR0P	COOKIE SHOPPE	SAINT LOUIS	MISSOURI	UNITED STATES	19246	11-Oct-2024

8. Use these options to work with the **Retroactive Inquiry** table:
 - **View** - select the **Reference Number**
 - **Filter** - Select the dropdown list
 - **Columns** - Select the dropdown list to add or remove columns
 - **Export** - Select dropdown list to select the data for export. An Excel spreadsheet will be downloaded for viewing
9. Select the **Retroactive Inquiry Reference #** to view the **Merchant** added.
10. Select the check box next to the **Merchant Name** to review the matching data.

The original **Inquiry** will appear in the left column, and the Merchant record will appear on the right.

The **data match type** will be under each header in the right column:

- **Exact Possible Match**
- **Phonetic Possible Match**
- **No Match**

Complete a File Upload

Follow these steps to upload Merchant or Inquiry information.

About this task

The **File Upload** capability allows you to upload **Merchant** or **Inquiry** information using the corresponding template downloaded from the application.

Procedure

- From the menu, select **File Upload**.
- From the **Select a Program** dropdown list, select the applicable program.
 - Merchant**
 - Inquiry**

File Upload

3. Select the corresponding template from the **Downloads** section to add the appropriate CSV file to your computer's **Downloads** folder.
 - **Inquiry Template**
 - **Add Merchant Template**
4. Open the downloaded CSV template and complete the required fields.

Add Merchant Template

- a. **Country** - maximum character length of 3 bytes
- b. **Province/State** - required for U.S. and Canada
- c. **ISO code** - enter for State/Province field

d. **Dates** - MMDDYYYY format, without spaces, dashes, or slashes

From the **Downloads** list, you can select **Export Geographical Reference Data** for a downloadable list of accepted country codes, state codes, and cities.

- When complete, select **Save** and **Close** the file.
- To begin processing the file, select **Upload** from the **File Upload** screen.
- View the **Upload Status** under **File History**.

File History

These columns identify if the row is the inquiry value or the merchant record.

- **Column A** - identifies the record type
- **Column B** - identifies the record action

If performing multiple inquiries, the possible merchant matches are returned in one or more rows below the associated inquiry.

The **Response Description**, **Column C** identifies which fields are matched and how they are matched:

- **E** - exact match
- **P** - phonetic match

Error File

Access unsuccessful file uploads under the Error File column.

Error File

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R
1								List of Errors										
2								MATCH-400-1194: Merchant Principal 1 First Name is not valid										

These columns identify the errors in the **Inquiry** file or the **Merchant Add** file.

- **Column DH** - provides the **List of Errors in the Inquiry file**
- **Column DL** - provides the **List of Errors in the Merchant Add file**

Correct the errors and begin the **File Upload** at step 6 of [Complete a File Upload](#).

Reports

You can create an ICA Activity Report and an Inquiry Report in MATCH Pro MTF.

Completed reports are available under **Report Status**, with the most recent report appearing at the top of the **Report Status** list. Select the file name under **Download/View** to open the report in Excel.

Create an ICA Activity Report

Follow these steps to run an ICA Activity Report for an Acquirer ID and specific time period.

About this task

This report allows you to view **Acquirer ID** information:

- **Number of adds**
- **Inquiries**
- **Modifications**
- **Deletions**
- **Retroactive inquiries**

Procedure

1. From the menu, select **Reports**.
2. From the **Reports available in MATCH Pro** dropdown list, select **ICA Activity Report**.

Reports

3. Select the following criteria:
 - a. **Acquirer ID**
 - b. **Start Date**
 - c. **End Date**
4. Select **Generate Report**.
After completion a, **Success** confirmation message displays. Or, if there is no data for the report or specified time frame, a **No data found** message displays.
5. Select **OK** to close the message.

Success confirmation message

Create an Inquiry Report

Follow these steps to run an Inquiry Report to view high-level information about inquiries performed under an Acquirer ID within a specific time period.

Procedure

1. From the menu, select **Reports**.
2. From the **Reports available in MATCH Pro** dropdown list, select **InquiryReport**.

Reports

The screenshot shows the 'MATCH Pro' interface with a dark header. The main title is 'Mastercard Alert to Control High-Risk Merchants Pro (MATCH Pro)' with a 'Testing Environment' badge. Below the header is a navigation bar with links: 'Add a Merchant', 'Inquiry', 'File Upload', 'Reports', 'Retroactive Inquiry', and 'Link ID'. The 'Reports' section is active, showing a 'Home' link and a 'Reports' title. Below this are four input fields: '*Reports available in MATCH Pro' (a dropdown menu showing 'Inquiry Report'), '*Acquirer Id' (a dropdown menu showing '19246 - Mastercard - Technol...'), '*Start Date' (a date field showing '01-09-2024'), and '*End Date' (a date field showing '11-10-2024'). A 'Generate Report' button is located at the bottom right of the form.

3. Select the following criteria:
 - a. **Acquirer ID**
 - b. **Start Date**
 - c. **End Date**
4. Select **Generate Report**.

After completion a **Success** confirmation message displays, or if there is no data for the report or specified time frame, a **No data found** message displays.
5. Select **OK** to close the message.

Success confirmation message

The screenshot shows a 'Success!' confirmation message dialog box. The text inside reads: 'Inquiry Report has been successfully initiated. Please check back later to download the completed report.' There is a close button (X) in the top right corner and an 'Ok' button in the bottom right corner.

Batch File processing

This chapter provides information for MATCH Pro MTF batch file processing using Global File Transfer (GFT).

Global File Transfer.....	28
MATCH Pro MTF batch files.....	28
Application Gateway Interface.....	29
Access file attachments on the Technical Resource Center.....	30

Global File Transfer

Batch files are transmitted through Global File Transfer (GFT) using specific Mastercard Test Facility (MTF) bulk types through the user's end point. The user's end points are associated with their registered ICA number.

Customers must undergo mandatory MATCH Pro Next Gen File Transfer (NGFT) testing before processing batch files. This also applies to existing customers that have previously submitted batch files in legacy MATCH. Coordinate with your Technical Account Manager to open a testing project with your Regional Customer Implementation Support team.

MATCH Pro MTF batch files

This section provides **MTF Bulk Type** information.

MTF Bulk Type

MTF Bulk File Type	Type	Description
RJ4V	Request	Merchant (Add) Terminated Request
RJ4X	Request	Merchant Inquiry Request
TJ4Z	Response	Merchant (Add) Terminated successful response
TJ5B	Response	Merchant (Add) Terminated error response
TJ5D	Response	Merchant Inquiry success response
TJ5F	Response	Merchant Inquiry error response

MTF batch files can be submitted in CSV format.

For **Country**, **State**, and **City** values, refer to the *Export Geographical Reference Data* available for download in the MATCH Pro MTF application.

- MTF batch file layouts
- MTF batch file error responses

Refer to [Access file attachments on the Technical Resource Center](#) for steps to download MATCH Pro Bulk File CSV attachments.

Application Gateway Interface

MATCH Pro API provides users the ability to develop an automated system-to-system method to access MATCH Pro and to receive a real-time response.

Customers undergo self-guided testing in the sandbox and MTF environments before submitting a production request. Currently, Customer Implementation Support (CIS) does not support MATCH Pro sandbox or MTF testing.

Customers are required to create a **Mastercard Developers** account to create a sandbox or MTF project, and submit production requests.

Authorized users can submit a sandbox request and then an MTF request. After approval, authorized users can use their existing **client ID** to access MATCH Pro MTF APIs.

API Use cases

Use case	Domain	Request
Termination Inquiry Request	https://api.mastercard.com/mtf/mcp/match/api	/termination-inquiries
Termination Inquiry History Request	https://api.mastercard.com/mtf/mcp/match/api	/termination-inquiries/{inquiry_ref_num}
Add Terminated Merchant Request	https://api.mastercard.com/mtf/mcp/match/api	/merchants/add-merchants
Acquirer Contact Details Request	https://api.mastercard.com/mtf/mcp/match/api	/contact-details
Retro-inquiry List Request	https://api.mastercard.com/mtf/mcp/match/api	/retros/retro-lists
Retro-inquiry Details Request	https://api.mastercard.com/mtf/mcp/match/api	/retros/retro-inquiry-details/{inquiry_ref_num}
Countries Request	https://api.mastercard.com/mtf/mcp/match/api	/countries
States Request	https://api.mastercard.com/mtf/mcp/match/api	/countries/{country_code}/states

Use case	Domain	Request
Cities Request	<code>https://api.mastercard.com/mtf/match/api</code>	<code>/countries/{country_code}/cities</code>

NOTE: Refer to the **MATCH Pro Developers Zone** to view API technical specifications.

Access file attachments on the Technical Resource Center

This section details how to access and download the *MATCH Pro* file attachments.

About this task

File attachments as of this publication include a zip file containing three MATCH Pro CSV files:

- *MATCH Pro Bulk File Response Error Codes* - Use this file to reference all relevant response codes associated with the TJ4Z, TJ5B, TJ5D, and TJ5F response files. The Error code will be appended to the end of the specific record which errored out.
- *MATCH Pro Inquiry Bulk File Layout* - Use this file to submit a bulk upload for a RJ4X (Merchant Inquiry Request).
- *MATCH Pro Merchant Add Bulk File Layout* - Use this file to submit a bulk upload for a RJ4V (Merchant Add Request).

Procedure

1. Access the *MATCH Pro MTF User Guide* from the Mastercard Connect® Technical Resource Center.
2. From the toolbar, select the paperclip  icon to display a listing of files that will appear in a zip file.

Toolbar

3. To download all attachments in the zip file, select **Download all as one .zip file**.
4. To download a single attachment from that .zip file list, select the applicable file name.

Notices

Following are policies pertaining to proprietary rights, trademarks, translations, and details about the availability of additional information online.

Proprietary Rights
